FEASIBILITY ANALYSIS

A forecast of electric power generation technology - 1975-2000
17 p0028 A78-11077

Evaluation of offshore site for wind energy generation
17 p0029 A78-11080

Feasibility of integrated ocean thermal gradient-nuclear plants for the production of electrical power
17 p0032 A78-11110

Site-dependent factors affecting the economic feasibility of solar powered absorption cooling
17 p0046 A78-11247

An expression for beta in linked Min-B configurations --- fusion reactor economic feasibility parameter
18 p0173 A78-22836

Solar energy - Its nature and possibilities as a source of power for terrestrial use
18 p0188 A78-26144

Concepts for the intermediate storage of wind-generated secondary energy
18 p0211 A78-28567

The coupling of solar energy utilization and wind energy utilization
18 p0211 A78-28568

Energy conservation and energy source substitution in old buildings - Estimation of cost and efficacy --- solar energy utilization
18 p0214 A78-28596

The production of electricity from the wind - A preliminary feasibility study for Greece
18 p0231 A78-32049

Economic feasibility of solar heating systems in the northeastern United States
19 p0295 A78-33035

Molten salt energy storage system - A feasibility study
19 p0296 A78-33119

An assessment of laser-driven fusion
19 p0338 A78-38418

Crop residues as energy sources - Assessing the cost and energy feasibility of direct firing
19 p0368 A78-41818

An assessment of overburden stability in the in-situ gasification of Texas lignite
20 p0496 A78-48550

Projections of the price of hydrogen fuel
20 p0513 A78-51818

SARA - Concentration solar array with reflector-radiations
20 p0526 A78-52874

Feasibility study of condensation flue gas cleaning /CPGC/ system
20 p0529 A78-53080

System planning for Bay of Fundy tidal power developments
20 p0529 A78-53244

A general method for the evaluation of possible systems for electric generation with solar energy
20 p0529 A78-53245

Prospects of using superconducting dc lines [BNL-TR-637]
17 p0115 N78-10589

Investigation of the feasibility of a dual model electric transportation system [LBL-6301]
17 p0157 N78-14954

Evaluation of the use of hydrogen as a supplement to natural gas [TID-27747]
18 p0281 N78-21323

Commercial feasibility of fusion power based on the Tokamak concept [CONF-771109-55]
19 p0391 N78-22915

Liquid metal cooled solar central receiver feasibility study and heliostat field analysis. Part 1: Liquid sodium cooled central receiver system conceptual design
19 p0447 N78-26594

Analysis of the current economic feasibility of solar water and space heating [DOE/CS-0023]
19 p0460 N78-27560

FEDERAL BUDGETS

NASA authorization, 1979, program review, volume 2, part 1 [GPO-98-932]
18 p0252 N78-17932

Governmental costs and revenues associated with geothermal energy development in Imperial County [UCRL-13800]
20 p0553 N78-28654

NASA authorization, 1979, volume 1, part 3 [GPO-25-291]
20 p0611 N78-32926

Federal-assistance programs and energy-development-impacted municipalities [FEA/D-77/039]
20 p0616 N78-33549

FEED SYSTEMS

Evaluation of coal feed systems being developed by the Energy Research and Development administration [NASA-CR-155267]
17 p0124 N78-12419

Proceedings of the conference on Coal Feeding Systems [NASA-CR-155331]
17 p0131 N78-13241

Experience in feeding coal into a liquefaction process development unit
17 p0131 N78-13242

The Petrocarb pneumatic feeding system: A proven method for feeding particulate solids at controlled rates --- for coal gasification systems
17 p0131 N78-13243

Coal pressurization and feeding: Use of a lock hopper system
17 p0131 N78-13244

Coal gasification: New challenge for the Beaumont rotary feeder
17 p0131 N78-13245

Development of coal-feeding systems at the Morgantown Energy Research Center
17 p0131 N78-13246

Comparative description of coal feeding systems for fixed bed pressure gasification
17 p0131 N78-13247

Slurry pumping techniques for feeding high-pressure coal gasification reactors
17 p0131 N78-13248

Development of dry coal feeders
17 p0131 N78-13249

Dry coal feeder development program at Ingersoll-Rand Research, Incorporated --- for coal gasification systems
17 p0132 N78-13250

Foster-Miller's development of dry coal feed systems
17 p0132 N78-13251

Evaluation of ERDA-sponsored coal feed system development
17 p0132 N78-13252

Continuous high pressure lump coal feeder design study --- fluidized bed processors 17 p0132 A78-13253

Babcock and Wilcox's experience with two-phase flow mixtures of coal and gas 17 p0132 A78-13254

Pressurized feeding on the GEGAS system 17 p0132 A78-13255

Coal extrusion in the plastic state 17 p0132 A78-13256

A novel dry coal feeding concept for high-pressure gasifiers 17 p0132 A78-13257

Feeding the feeder 17 p0132 A78-13258

Gravity flow rate of solids through orifices and pipes 17 p0133 A78-13260

High pressure rotary piston coal feeder 17 p0133 A78-13261

Coal feed component testing for CDIF 17 p0133 A78-13262

Storage and feeding of coal 17 p0133 A78-13263

Injection of coal by screw feed 17 p0133 A78-13264

Rocketdyne's advanced coal slurry pumping program 17 p0133 A78-13266

Acton mass flow system applied to PFBC feed 17 p0133 A78-13267

The use of twin screw extruders for feeding coal against pressures of up to 1500 PSI 17 p0134 A78-13269

FEEDBACK CIRCUITS
Evaluation of the feedback in MHD conduction machines 18 p0167 A78-21397

FEEDBACK CONTROL
Control system of plasma position and cross-sectional shape in large tokamak device 19 p0346 A78-39800

Design and test of a series switch/regulator system for a 40-kV, 80-A, 10-ms, neutral-beam power supply 19 p0353 A78-39965

Axial feedback stabilization of flute mode in a multiple mirror 20 p0491 A78-46184

Feedback stabilization of axisymmetric MHD instabilities in tokamaks 20 p0538 A78-53686

Emission control of V-engines with oxygen sensors --- closed loop system 20 p0574 A78-30373

FEEDERS
High pressure rotary piston coal feeder [NERC/SP-77/6] 19 p0417 A78-25443

FEEDING (SUPPLYING)
New method of feeding coal - Continuous extrusion of fully plastic coal 20 p0528 A78-53074

FERMENTATION
Biomass - Progress and plans --- fermentation, thermochemical conversion and methane production 18 p0182 A78-24764

Fuel gas production from selected biomass via anaerobic fermentation 18 p0208 A78-28366

Fiat has presented at Basel its proposal in the field of recycling --- garbage and industrial wastes energy utilization 20 p0492 A78-46490

Anaerobic fermentation of simulated in-situ oil shale retort water [LBL-6855] 19 p0431 A78-25646

Anaerobic fermentation of agricultural residues: potential for improvement and implementation [COO-2981-6] 20 p0552 A78-28647

FERRITIC STAINLESS STEELS
The application of stainless steel to solar collectors 17 p0045 A78-11238

FERROMAGNETIC MATERIALS
Oil spill recovery with magnetically retrievable sorbents - Preliminary performance report of MAG-1: A 24-foot magnetic type recovery vessel for light oils 20 p0501 A78-49659

FIELD COILS

The mechanical structure of the Joint European Torus 17 p0040 A78-11182

Manufacture, assembly and test of the toroidal and poloidal magnetic field coils of ASDEX 19 p0345 A78-39789

Toroidal field ripple effects in TMS design --- computer simulation model for Tokamak 19 p0347 A78-39810

Hybrid equilibrium field coils for the ORNL TMS 19 p0347 A78-39812

Magnet conceptual design for a high field tokamak reactor 19 p0349 A78-39884

Cryostabilization of large superconducting magnets using pool boiled helium II 19 p0350 A78-39896

PDX PF power tests --- Princeton Divertor Experiment tokamak Poloidal Field coil system 19 p0351 A78-39909

Lateral support structure for constant tension D-shaped coils in tokamak fusion devices 19 p0351 A78-39916

General Electric conceptual design of a test coil for the large coil program --- for superconducting electromagnet construction 19 p0351 A78-39928

Pulse coil concepts for the LCP facility --- Large Coil Program to simulate tokamak coils 19 p0352 A78-39935

The helium liquefier-refrigerator and distribution system for the Large Coil Program Test Facility --- tokamak toroidal magnetic coils 19 p0352 A78-39936

FIELD EFFECT TRANSISTORS
Recent advances in solid state microwave devices 20 p0511 A78-51528

FIELD MODE THEORY
Wall stabilization of axisymmetric modes in noncircular tokamak plasmas 19 p0332 A78-37143

Mode mixing of large scale fluctuations in JET-2 tokamak 19 p0332 A78-37147

FILM THICKNESS
Thermoelectric power of tin films at low temperatures 18 p0217 A78-29427

Thickness dependence of structural and electrical properties of CdS films for solar cells 19 p0325 A78-36035

A simple theory of back surface field /BSF/ solar cells 19 p0338 A78-38552

Investigation on the non-uniform thickness of the skin region of a CdS solar cell 19 p0372 A78-42121

Dependence of Schottky barrier solar cell efficiency on the thickness of the interfacial layer 19 p0373 A78-42128

FILTRATION
Improving sludge incineration and vacuum filtration with pulverized coal 17 p0095 A78-18498

Coagulation and filtration of solids from liquefied coal of SYNTHOIL process 18 p0191 A78-26587

Filterability of a coal-derived liquid 18 p0191 A78-26588

Ultrafiltration and hyperfiltration of phenolic compounds in coal gasification wastewater streams 19 p0435 A78-26007

FINANCE
Project Independence Evaluation System (PIES) documentation. Volume 11: Finance submodel for the PEA oil and gas supply model [PB-269948/6] 17 p0126 A78-12540

FINANCIAL MANAGEMENT
Energy economy in the investment policy of French companies. I - The industrial attitude 17 p0069 A78-13469

Cost-effective electricity rates - A stronger incentive to rational energy use 18 p0176 A78-23919

Solar energy in perspective - Builder/developer's view of the industry 18 p0181 A78-24758

- Power system economics - On selection of engineering alternatives
[ASME PAPER 77-JPGC-PWR-7] 19 p0310 A78-34080
- Impacts and benefits of a satellite power system on the electric utility industry
[NASA-CR-157157] 19 p0402 A78-24255
- Preliminary findings and views concerning the exemption of aviation gasoline from the mandatory petroleum allocation and price regulations
[DOE/ERA-0001] 20 p0600 A78-31957
- Preliminary findings and views concerning the exemption of kerojet fuels from the mandatory petroleum allocation and price regulations
[DOE/ERA-0002] 20 p0600 A78-31958
- FINES**
Pressurized feed for coal gasification 20 p0471 A78-43412
- FINITE DIFFERENCE THEORY**
Plasma flow computation method for MHD conversion channels 17 p0002 A78-10375
- ROCKBED** - A computer program for thermal storage 17 p0050 A78-11304
- Analysis of end effects in diagonal type MHD generator by means of equivalent circuit 19 p0327 A78-36320
- Initial numerical studies of the behaviour of Z-pinch plasma under liner implosion conditions 19 p0380 A78-42260
- Three dimensional free surface model for thermal discharge study 20 p0542 A78-28369
- FINITE ELEMENT METHOD**
Finite-element solutions for geothermal systems 17 p0094 A78-18097
- Finite hybrid elements to compute the ideal magnetohydrodynamic spectrum of an axisymmetric plasma 18 p0231 A78-32067
- Natural convection in compound parabolic concentrators - A finite-element solution --- for solar collectors 19 p0337 A78-38269
- Simplified modeling for wind turbine modal analysis using NASTRAN 18 p0265 A78-19619
- FIRE PREVENTION**
Corrective action program for bromochloromethane-containing fire-safe diesel fuel
[AD-A043323] 17 p0119 A78-11253
- Antismoking fuel spillage/airstar tests at Naval Weapons Center
[AD-A056113] 20 p0589 A78-31256
- FISHERIES**
Artificial upwelling induced by ocean currents - Theory and experiment 19 p0326 A78-36274
- FISSION**
Laser fusion-fission reactor systems study: 4000 MW laser fusion hybrid reactor
[UCRL-13796] 20 p0588 A78-30952
- FLAME IONIZATION**
Flame speeds, performance, and emissions with methanol-indolene blends --- in an automobile engine 20 p0576 A78-30389
- FLAME PROBES**
Modelling and experimentation of sample probe effects on pollutant gases drawn from flame zones
[WSS/CI PAPER 77-6] 17 p0081 A78-16340
- FLAME PROPAGATION**
Combustion processes in in situ coal gasification: Phenomena, conceptual models and research status. I - Overview and continuum wave descriptions
[WSS/CI PAPER 77-3] 17 p0081 A78-16337
- FLAME SPECTROSCOPY**
Experimental determination of alkali impurity release from various dolomites 17 p0073 A78-14218
- The emission characteristics of liquid-fuel flames 18 p0222 A78-30496
- FLAME STABILITY**
The microstructure of pulverized coal-air flames. I - Stabilization on small burners and direct sampling techniques 17 p0078 A78-15829
- Flame stabilization of low volatile fuels 17 p0079 A78-15832
- Combustor performance of high availability fuels 20 p0507 A78-50568
- FLAMES**
Nitric oxide formation in hydrocarbon-air flames 18 p0199 A78-27834
- FLAMMABILITY**
Synthesis and flammability limits of low-Btu gas mixtures 20 p0516 A78-52550
- FLAT PLATES**
Theoretical method to determine monthly efficiency of flat plate solar collectors 17 p0029 A78-11084
- A detailed model of flat plate solar collectors 17 p0042 A78-11213
- The analysis, design and thermal performance testing of a heat pipe flat plate collector 17 p0042 A78-11214
- Performance analysis and experience for flat plate collector with absorber operating in a vacuum 17 p0042 A78-11215
- Experimental performance study of a 40 sq m vacuum flow flat plate solar collector array 17 p0042 A78-11216
- Teflon FEP fluorocarbon film for flat plate solar collectors 17 p0042 A78-11218
- Performance of Lexan vs. ordinary glass as glazing materials for flat-plate solar collectors 17 p0042 A78-11219
- Testing of flat-plate air heaters according to ASHRAE Standard 93-77 17 p0042 A78-11220
- Flat plate air-heater improvements 17 p0043 A78-11221
- Re-evaluation of flat plate solar panels in use for twenty years 17 p0043 A78-11225
- Natural convection characteristics of flat plate collectors 17 p0044 A78-11235
- Fluid flow control strategies in flat-plate and evacuated tube collectors --- solar collectors 17 p0047 A78-11260
- A study of the differential spectral absorption flat-plate solar collectors 17 p0048 A78-11275
- On the design of flat reflector - collector combinations 17 p0060 A78-11385
- Augmented solar energy collection using different types of planar reflective surfaces - Theoretical calculations and experimental results 17 p0060 A78-11386
- Measurements on the effect of planar reflectors on the flux received by flat-plate collectors 17 p0060 A78-11387
- Enhancement of flat plate solar collector performance through the use of planar reflectors 17 p0060 A78-11388
- Basic physical factors in the calculation of flat-plate collectors. VI 17 p0072 A78-14104
- The effect of off-south orientation on the performance of flat-plate solar collectors 17 p0104 A78-19830
- Geometric factors for plane specular reflectors 17 p0105 A78-19835
- Solar energy utilization - Liquid flat plate collectors 18 p0200 A78-27856
- Convective heat transfer effects within honeycomb structures for flat plate solar collectors 18 p0200 A78-27857
- Catalyzed combustion in a flat plate boundary layer. I - Experimental measurements and comparison with numerical calculations
[IBL-6841] 18 p0230 A78-31953
- Natural convection characteristics of flat plate collectors 19 p0294 A78-33028
- Operational dynamics of coupled flat plate solar collector and adsorption cycle heat pump system with energy storage 19 p0295 A78-33037

SUBJECT INDEX

FLOW GEOMETRY

Shading effect for uniformly spaced solar collector arrays on plane surfaces 19 p0296 A78-33039

Experimental performance of flat plate solar collectors with various cover materials with and without transparent plastic honeycomb [AIAA PAPER 78-899] 19 p0324 A78-36018

Experiments on flat-plate solar energy collectors 19 p0342 A78-39179

Determination of shading factor for flat-plate collectors 19 p0375 A78-42155

Flat-plate solar collector design for industrial air heating using design data hand book 19 p0375 A78-42157

Comparative performance of several flat plate designs --- solar collector efficiency 20 p0476 A78-43970

Analytical model of flat plate solar collectors 20 p0476 A78-43973

Optimal combinations of flat plate collector configurations 20 p0476 A78-43974

Possible similarity solutions for free convection boundary layers adjacent to flat plates in porous media 20 p0497 A78-48854

A novel solar collector 20 p0500 A78-49646

Optimization of coatings for flat plate solar collectors, phase 2 [COO-2930-4] 17 p0152 N78-14648

Provisional flat plate solar collector testing procedures [PB-272500/0] 18 p0243 N78-16463

MSFC hot air collectors. Phase 1: Test report [NASA-CR-150495] 18 p0249 N78-17471

Development of surfaces optically suitable for flat solar panels [NASA-CR-150539] 18 p0250 N78-17477

Collation of quarterly reports on air flat plate collectors [NASA-CR-150514] 18 p0250 N78-17479

Indoor test for thermal performance evaluation of lenox-honeywell solar collector --- conducted using Marshall Space Flight Center Solar Simulator [NASA-CR-150510] 18 p0250 N78-17481

Installation package for air flat plate collector [NASA-CR-150536] 18 p0263 N78-19605

Liquid flat plate collector and pump for solar heating and cooling systems: A collection of quarterly reports [NASA-CR-150599] 18 p0275 N78-20614

Preliminary design review package on air flat plate collector for solar heating and cooling system [NASA-CR-150601] 18 p0275 N78-20616

Studies on methods of reducing heat losses from flat plate solar collectors, phase 2 [COO-2597] 18 p0285 N78-21624

Analysis of data and results for the round robin flat-plate collector test program [PB-275576/7] 18 p0289 N78-21655

Historical evidence of importance to the industrialization of flat-plate silicon photovoltaic systems, volume 2 [NASA-CR-156185] 19 p0388 N78-22464

Indoor test for thermal performance evaluation on the Sunworks (air) solar collector [NASA-CR-150666] 19 p0405 N78-24613

Optimization of coatings for flat plate solar collectors, phase 2 [COO-2930-12] 19 p0444 N78-26565

Integration of infra-red ambient temperature and wind conditions in flat collector performance prediction 20 p0545 N78-28537

Comparison of three experimental methods used in determining the thermal performance of flat-plate solar collectors [NASA-TM-78929] 20 p0549 N78-28614

Development, testing, and certification of life sciences engineering solar collector [NASA-TM-78182] 20 p0561 N78-29573

Analysis of Chamberlain flat plate solar collector using National Bureau of Standards test criteria [AD-A054215] 20 p0562 N78-29588

Design and installation package for the Sunnat Flat Plate solar collector [NASA-CR-150741] 20 p0592 N78-31536

Development of flat-plate solar collectors for the heating and cooling of buildings: Executive summary [NASA-CR-134804] 20 p0615 N78-33527

Flat plate solar collector design and performance. Citations from the engineering index data base [NTIS/PS-78/0841/3] 20 p0624 N78-33610

FLAT SURFACES

Evaluation of the energy provided for a solar collector 18 p0165 A78-20621

Equalizing an irradiance field on the surface of a receiver 18 p0187 A78-25734

Engineering estimate of the quality of facets obtained by a deformation method of form giving --- mirrors for solar collectors 18 p0214 A78-28890

Design of a non-tracking concentrator which will distribute sunlight in a uniform manner over a flat receiving surface 19 p0371 A78-42114

Equalization of irradiation field on receiver surface 20 p0489 A78-46122

Technological evolution of the quality of facets produced by deformational forming --- mirrors for solar collectors 20 p0490 A78-46130

FLIGHT OPERATIONS

Canadian Symposium on Energy Conserving Transport Aircraft, Ottawa, Canada, October 3, 4, 1977, Proceedings 18 p0226 A78-31301

FLIGHT TESTS

ATS-6 solar cell flight experiment through 2 years in orbit 17 p0014 A78-10932

FLOODS

Pilot demonstration of enhanced oil recovery by micellar polymer waterflooding, phase B [SIN/1395-14] 19 p0418 N78-25519

FLORIDA

Solar energy commercialization at the state level: The Florida solar energy water heater program [PB-270158/9] 17 p0128 N78-12551

A historic and current energy analysis of Florida 20 p0596 N78-31568

Statistical test of energy models for prediction of urban growth in Florida 20 p0596 N78-31569

FLOW DISTRIBUTION

Computer aided aerogenerator analysis and performance 18 p0169 A78-22229

Momentum theory and flow states for windmills 18 p0234 A78-32420

The external flow induced by an Ocean Thermal Energy Conversion /OTEC/ power plant 19 p0302 A78-33319

A simple test for determining a best flow rate through solar collectors [AIAA PAPER 78-900] 19 p0324 A78-36020

Thermal, fluid flow and mechanical characteristics of a subatmospheric distributed flow flat plate collector 20 p0476 A78-43971

Energy flow patterns for 1975 [LA-6770] 18 p0242 N78-16456

Flow field analysis 18 p0265 N78-19623

Pilot demonstration-enhanced oil recovery by micellar-polymer waterflooding Bell Creek Field [COO-4207-14] 19 p0418 N78-25510

FLOW EQUATIONS

Finite-element solutions for geothermal systems 17 p0094 A78-18097

FLOW GEOMETRY

Choice of optimal configuration of frame and cross section shape for a frame-type MHD channel 18 p0168 A78-22139

Selection of the optimal configuration of the frame and the form of the transverse cross section of a frame-type MHD channel 20 p0483 A78-44538

FLOW MEASUREMENT

- Flow-measurement using solar radiations
19 p0374 A78-42141
- Local measurements in two-phase liquid-metal MHD
[CONF-780336-2] 20 p0626 N78-33943
- FLOW REGULATORS
Automotive gas turbine fuel control
[NASA-CASE-LEW-12785-1] 19 p0404 N78-24545
- FLOW RESISTANCE
Design parameters affecting the performance of
resistance-type, vertical-axis windrotors - An
experimental investigation 17 p0094 A78-18093
- Calculation of cylindrical pebble-bed hothouse
heat accumulator gasdynamic resistance --- for
solar energy accumulation 20 p0490 A78-46138
- Stirling thermal engine regenerator cost reduction
program. Report 4: NET NET fluid friction heat
transfer test results, engine test for four
regeneration materials
[GMR-2690-SECT-6.006] 19 p0440 N78-26324
- FLOW STABILITY
Effect of flow inhomogeneity on plasma instability
near a channel wall 17 p0002 A78-10245
- Flame stabilization by wall recess technique
18 p0199 A78-27835
- FLOW VELOCITY
Particle separation from a fluidized mixture -
Simulation of the Westinghouse coal gasification
combustor/gasifier operation 18 p0230 A78-31872
- A simple test for determining a best flow rate
through solar collectors
[AIAA PAPER 78-900] 19 p0324 A78-36020

Fluidized bed combustion, volume 1. Citations from the engineering index data base [NTIS/PS-78/0196/2] 19 p0400 N78-23608

Fluidized bed combustion, volume 2. Citations from the engineering index data base [NTIS/PS-78/0197/0] 19 p0400 N78-23609

Coal-fired alkali metal power system design study [ORNL-TM-6000] 19 p0423 N78-25576

Industrial application of fluidized-bed combustion --- boiler and plant design [FE-2461-5] 19 p0436 N78-26190

Assessment of advanced technology for direct combustion of coal [HCP/T1216-0001] 19 p0446 N78-26578

Evaluation of sulfate-bearing waste material from fluidized bed combustion of coals for soil stabilization [PB-278031/0] 19 p0451 N78-26657

Project acquisition and evaluation process for atmospheric fluidized bed combustion demonstration plant [FE-2343-1] 19 p0459 N78-27550

Georgetown University Coal Using-Integrated Community Energy System (GU/CU-ICES) demonstration project. Phase 1: Detailed work management plan [COO-4488-1] 20 p0551 N78-28635

Hot corrosion/erosion testing of materials for applications for advanced power conversion systems using coal-derived fuels. Task 2. Evaluation of turbine materials for use in a coal-fired fluidized bed combustion environment [FE-2326-20] 20 p0611 N78-33210

FLUIDS

Preliminary design package for noncorrosive fluid subsystem, solar heating and cooling [NASA-CR-150698] 19 p0421 N78-25549

FLUORESCENCE

Lipinites and lipid substances in an oil source rock 17 p0061 A78-11458

Fluorescent solar energy collectors - Operating conditions with diffuse light 20 p0488 A78-45946

FLUORIDES

Material selection considerations for fluoride thermal energy storage containment in a sodium heat pipe environment [AD-A042389] 17 p0112 N78-10563

FLUORITE

Nonstoichiometry, order, and disorder in fluorite-related materials for energy conversion 20 p0532 A78-53340

FLUORO COMPOUNDS

New materials for fluorosulfonic acid electrolyte fuel cells [AD-A044414] 17 p0126 N78-12531

FLUOROCARBONS

Teflon PEP fluorocarbon film for flat plate solar collectors 17 p0042 A78-11218

FLUTTER

Flutter of Darrieus wind turbine blades 18 p0265 N78-19624

FLUX DENSITY

An analytic evaluation of the flux density due to sunlight reflected from a flat mirror having a polygonal boundary 20 p0500 A78-49642

FLYWHEELS

Fiber-composite systems for energy-storage flywheels 17 p0085 A78-16901

Optimal design of anisotropic /fiber-reinforced/ flywheels --- for energy storage 17 p0092 A78-17789

For the latest in energy storage, try the flywheel 18 p0217 A78-29600

Optimal control of flywheel hybrid transmissions [ASME PAPER 77-WA/AUT-3] 18 p0229 A78-31828

Development of satellite flywheels utilizing magnetic bearings with passive radial centering - Concepts and results [AIAA 78-571] 19 p0294 A78-32912

Computer simulation of an advanced hybrid electric-powered vehicle [SAE PAPER 780217] 19 p0307 A78-33378

Electric-flywheel vehicle for postal service applications [SAE PAPER 780297] 19 p0308 A78-33387

Investigation of the energy capacity of wound composite flywheels 19 p0311 A78-34331

Simulation study of a flywheel powered electric vehicle utilizing the modern high energy density energy storage flywheel 19 p0385 A78-43044

Fiber-composite systems for energy-storage flywheels [UCRL-78610] 17 p0114 N78-10587

Hybrid drive for motor vehicles with a preponderantly intermittent method of operation [NASA-TM-75215] 17 p0124 N78-12418

Research toward improved flywheel suspension and energy conversion systems --- for use with energy storage systems [PB-271413/7] 17 p0139 N78-13564

Demonstration of an inductor motor/alternator/flywheel energy storage system [COO-4010-2] 17 p0141 N78-13579

Flywheel propulsion simulation [PB-272259/3] 17 p0149 N78-14426

Energy storage apparatus [NASA-CASE-GSC-12030-1] 19 p0404 N78-24608

Fiber composite flywheel program [UCRL-50033-77-3] 19 p0425 N78-25592

Research toward improved flywheel suspension and energy conversion systems [PB-278679/6] 19 p0458 N78-27544

Current status of composite flywheel development [UCRL-80604] 20 p0564 N78-29605

SUBJECT INDEX

FUSION REACTORS

Properties of fuels used in the Czechoslovak aircraft industry 18 p0217 A78-29588

Methanol - A boiler fuel alternative 19 p0321 A78-35704

Evaluation of NO_x/ emission characteristics of alcohol fuels for use in stationary combustion systems 19 p0321 A78-35705

Vehicle evaluation of neat methanol: Compromises among exhaust emissions, fuel economy, and driveability 20 p0577 A78-30395

Burner design criteria for NO_x control from low-BTU gas combustion: Volume 2. Elevated fuel temperature [PB-280199/1] 20 p0599 A78-31615

FUEL VALVES

Modeling and evaluation of combustion process of a three-valve stratified charge engine 20 p0494 A78-48097

FUEL-AIR RATIO

Quenching of nitric-oxide formation in methane-air flames by secondary-air injection 17 p0081 A78-16338

Nitric oxide formation in hydrocarbon-air flames 18 p0199 A78-27834

Development of a new combustion system /MCA-jet/ in gasoline engine 19 p0386 A78-43296

A study on reformed fuel for an automotive gasoline engine 20 p0577 A78-30400

FUELS

Bioconversion: Fuels from biomass --- Book 18 p0167 A78-21700

Energy from wastes - An overview of present technologies and programs 18 p0197 A78-27803

Photochemical production of a fuel 18 p0202 A78-27894

Comparative energies of alternative fuels 18 p0216 A78-29289

State-of-the-art of functional use data measuring energy consumption in the commercial sector [PB-269906/4] 17 p0115 A78-10592

Fuel and energy price forecasts. Volume 1: Report [EPRI-EA-411-VOL-1] 17 p0142 A78-13589

Fuel and energy price forecasts. Volume 2: Schedules [EPRI-EA-411-VOL-2] 17 p0142 A78-13590

Energy Transportation Security Act of 1977 --- transporting oil imports in U.S. tankers [H-REPT-95-589] 19 p0392 A78-22968

Sources of alcohol fuels for vehicle fleet tests [CONS/2693-1] 19 p0415 A78-25242

Regenerative process for desulfurization of high temperature combustion and fuel gases [BNL-50706] 19 p0427 A78-25610

Impact of alternate fuels on refractories and refractory insulations [ORNL/TM-5895-ADD] 19 p0436 A78-26226

Commercial energy use: A disaggregation by fuel, building type, and end use [ORNL/CCN-14] 20 p0551 A78-28636

Preliminary findings and views concerning the exemption of kerojet fuels from the mandatory petroleum allocation and price regulations [DOE/ERA-0002] 20 p0600 A78-31958

Department of Energy position paper on alcohol fuels [DOE/US-0001/1] 20 p0612 A78-33256

Fuels from sugar crops [TID-28191] 20 p0612 A78-33259

Alcohol fuels. Citations from the NTIS data base [NTIS/PS-78/0673/0] 20 p0612 A78-33262

Alcohol fuels. Citations from the engineering index data base [NTIS/PS-78/0674/8] 20 p0612 A78-33263

FURNACES

Comparative residential energy consumption and fuel costs with various types of systems - Oil-, gas-, electric-furnaces and heat pumps 17 p0033 A78-11118

Pollutant measurements in a methanol furnace [WSS/CI PAPER 77-8] 17 p0081 A78-16339

Direct and indirect energy recovery via pyrolysis in Multiple Hearth Furnaces 20 p0513 A78-51787

The UMSS wind furnace blade design 18 p0267 A78-19641

Development of combustion data to utilize low Btu gases as industrial process fuels [PB-2489-16] 20 p0601 A78-32286

FUSION (MELTING)

Solar furnaces 18 p0200 A78-27861

FUSION REACTORS

Commercial application of laser fusion 17 p0004 A78-10605

Mirror reactor studies --- fusion and fusion-fission reactors 17 p0011 A78-10874

The present status of fusion power 17 p0028 A78-11075

Symposium on Fusion Technology, 9th, Garmisch-Partenkirchen, West Germany, June 14-18, 1976, Proceedings 17 p0038 A78-11161

The progress and the development program of fusion technology in Japan 17 p0038 A78-11162

Vacuum vessel and pumping system of the J.E.T. experiment --- Joint European Torus 17 p0038 A78-11164

Eddy current losses and transient magnetic forces in pulsed fusion reactors 17 p0039 A78-11172

Analysis of various field programming to produce the RFP configuration --- Reversed Field Pinch 17 p0039 A78-11174

A survey of the U.S. magnetic fusion program 17 p0040 A78-11179

Conceptual design problems in future reversed field pinch experiments 17 p0040 A78-11181

Parameter study of a screw-pinch reactor 17 p0041 A78-11187

Plasma stabilization requirements of the Reference Theta-Pinch Reactor /RTPR/ 17 p0041 A78-11193

Investigation of the efficiency of a Faraday MHD-generator coupled to a thermonuclear reactor 17 p0063 A78-12348

Experimental and computational results on direct energy conversion for mirror fusion reactors 17 p0064 A78-12486

Waste management considerations for fusion power reactors 18 p0176 A78-23588

Materials requirements for fusion reactors 18 p0182 A78-25051

Re-circulating power, unit costs and thermal pollution of fusion power stations 18 p0189 A78-26372

Effectiveness of using a pulsed Faraday MHD generator in combination with a thermonuclear reactor 18 p0194 A78-27140

Heliotron as a D-D fusion reactor - Preliminary analysis 18 p0220 A78-30226

Efficiency of a Faraday MHDG in a scheme with a thermonuclear reactor 19 p0291 A78-32572

Giant laser system readied for tests --- for inertial fusion 19 p0316 A78-35300

On the trends in nuclear fusion research 19 p0338 A78-38417

Advanced lasers for fusion applications 19 p0342 A78-39367

Symposium on Engineering Problems of Fusion Research, 7th, Knoxville, Tenn., October 25-28, 1977, Proceedings. Volumes 1 & 2 19 p0345 A78-39783

The technology of mirror machines - LIL facilities for magnetic mirror fusion experiments 19 p0345 A78-39784

Establishment of design and performance requirements using cost and systems analysis --- for commercial fusion power plant 19 p0346 A78-39793

Superconducting magnets for fusion reactors - The problem of a reliable and effective cooling system 19 p0350 A78-39897

Argonne national laboratory energy storage and transfer experimental program --- for fusion reactors
19 p0353 A78-39956

Design of the ZT-40 power crowbar system --- for toroidal Z pinch current maintenance
19 p0353 A78-39957

Dual 30 kA, HVDC interrupter test facility --- for fusion reactors
19 p0353 A78-39959

A 40-kV, 26-ms neutral-beam power supply for TMX --- Tandem Mirror Experiment
19 p0353 A78-39964

A high thermal efficiency X-ray energy conversion scheme for advanced fusion reactors
19 p0354 A78-39978

Some design aspects of computer based control systems for pulsed fusion experiments
19 p0355 A78-39991

Pulsed acceleration of exhaust plasma in a fusion-MHD power plant
19 p0356 A78-40014

Mechanical and thermal design of a gas-cooled fusion blanket module
19 p0357 A78-40040

Ignition of catalyzed-D reactor from D-T burning
19 p0358 A78-40083

High temperature blankets for the production of synthetic fuels
19 p0359 A78-40093

Design and performance of large cryopumps for high power neutral injectors
19 p0359 A78-40108

Cryosorption pumping of 95% deuterium-5% helium on molecular sieve-5A at 4.2 K
19 p0359 A78-40112

A survey of applications of fusion power technology for the chemical and material processing industries
19 p0368 A78-41812

Thermochemistry of the reactions of the metals Nb, V, and Mo with the residual gases of a vacuum
19 p0379 A78-42227

Symbiotic system of a fusion and a fission reactor with very simple fuel reprocessing
19 p0380 A78-42257

Two-component, multiple-mirror reactor with depressed ion temperature
19 p0380 A78-42263

Fusion reactor design. II - Report on the Second IAEA Technical Committee Meeting and Workshop, Madison, Wisconsin, USA, 10-21 October 1977
19 p0381 A78-42269

Controlled nuclear fusion, a challenge for the engineer. IV - Systems and components for fusion reactors
20 p0473 A78-43700

Materials compatibility problems in magnetic fusion energy - A review
20 p0480 A78-44107

Efficiency of a pulsed Faraday MHD generator in a scheme with a thermonuclear reactor
20 p0487 A78-45661

Potential lithium requirements for fusion power plants
20 p0503 A78-49849

Laser acceleration of reactor-fuel pellets
20 p0538 A78-53690

Workshop on Synthetic Fuels from Fusion [EPRI-ER-439-SR]
17 p0131 N78-13239

Magnetic confinement fusion energy research [COO-3077-143]
18 p0270 N78-19673

Perspectives on the development of fusion power by magnetic confinement, 1977 [DOE/ET-0002]
19 p0401 N78-23900

Exploratory studies of high-efficiency advance fuel fusion reactors [EPRI-ER-581]
19 p0435 N78-25938

Economic impact of using refractory metals for fusion reactors, phase 1 [COO-4247-1]
19 p0435 N78-25939

Inertial Confinement Fusion (ICF) [UCRL-79856]
20 p0556 N78-28953

FUSION-FISSION HYBRID REACTORS

Mirror reactor studies --- fusion and fusion-fission reactors
17 p0011 A78-10874

Energy yield and fuel dynamics of the fusion breeder
17 p0041 A78-11191

Tokamak reactors --- review [ASME PAPER 77-WA/NE-3]
19 p0299 A78-33187

Fusion reactor development scenarios for the laser solenoid concept
19 p0349 A78-39881

Poloidal field coil design for a fusion-fission breeder reactor
19 p0354 A78-39977

A tokamak hybrid blanket design
19 p0355 A78-39982

Structural analysis of a two-component torus /TCT/ hybrid reactor first wall
19 p0358 A78-40072

Symbiotic system of a fusion and a fission reactor with very simple fuel reprocessing
19 p0380 A78-42257

Fusion reactor design. II - Report on the Second IAEA Technical Committee Meeting and Workshop, Madison, Wisconsin, USA, 10-21 October 1977
19 p0381 A78-42269

G

GALERKIN METHOD

Comparative numerical studies of ideal magnetohydrodynamic instabilities
20 p0493 A78-46873

GALLIUM ANTIMONIDES

Preparation of Ga/1-x/Al/x/Sb p-n homojunctions and study of the photovoltaic effect
20 p0521 A78-52812

GALLIUM ARSENIDES

Structures for photocells - Homojunctions, heterostructures or heterojunctions
17 p0003 A78-10552

Concentrator solar arrays for space power
17 p0017 A78-10970

Potential of GaAs solar cells for Air Force space power systems
17 p0019 A78-10994

Progress report on a 1-kW terrestrial array of AlGaAs/GaAs concentrator solar cells
17 p0023 A78-11025

High efficiency and large area /GaAl/As-GaAs solar cells
17 p0026 A78-11054

Vapor-phase-epitaxial growth, processing and performance of AlAs-GaAs heterojunction solar cells
17 p0026 A78-11055

Improved GaAs solar cells with very thin junctions
17 p0026 A78-11057

The structure and Schottky barrier diode properties of polycrystalline GaAs films grown by the close spaced vapour transport technique on Mo substrates
17 p0027 A78-11060

High efficiency thin window Ga/1-x/Al/x/As/GaAs solar cells
17 p0027 A78-11065

Photocells employing smooth AlGaAs-GaAs heterojunctions to extend the spectral response range
17 p0062 A78-11668

High-efficiency GaAs shallow-homojunction solar cells
17 p0062 A78-11933

Molecular-beam epitaxy in space
17 p0103 A78-19472

Diffusion lengths in amphoteric GaAs heteroface solar cells
18 p0216 A78-29195

Simplified fabrication of GaAs homojunction solar cells with increased conversion efficiencies
18 p0216 A78-29199

Theoretical analysis of a novel MPN gallium arsenide Schottky barrier solar cell
18 p0227 A78-31385

AlGaAs-GaAs graded-heterostructure photocells with expanded sensitivity spectrum
19 p0300 A78-33271

A computer analysis of Ga/1-x/Al/x/As-GaAs solar cells with multilayered window structure
19 p0313 A78-34850

State of the art homojunction cells
19 p0343 A78-39454

n-CdS/n-GaAs voltage-enhanced photoanode
19 p0344 A78-39467

- Organometallic-sourced VPE AlGaAs/GaAs concentrator solar cells having conversion efficiencies of 19%
20 p0473 A78-43706
- A Schottky-barrier solar cell on sliced polycrystalline GaAs
20 p0510 A78-51068
- Recovery of shallow junction GaAs solar cells damaged by electron irradiation
20 p0515 A78-52198
- Graded band-gap pAl_x/Ga/1-x/As-nGaAs heterojunction solar cells prepared by molecular beam epitaxy

GAS EVOLUTION

Performance and NO_x/ emissions of spark ignited combustion engines using alternative fuels - Quasi one-dimensional modeling. I - Hydrogen fueled engines

19 p0333 A78-37299

Modeling in the oceans and ocean sediments and their response to fossil fuel carbon dioxide emissions

20 p0535 A78-53464

Global carbon dioxide production from fossil fuels and cement, A.D. 1950-A.D. 2000

20 p0535 A78-53467

Fuel gas production from animal waste, phase 1 [COO-2991-23]

19 p0415 N78-25248

GAS EXPANSION

Turboexpanders for energy conservation

20 p0512 A78-51621

GAS EXPLOSIONS

Coaxial, explosive-type MHD generator

18 p0166 A78-21387

Dispersion and analysis of methane in the atmosphere [CL-1976-16]

19 p0450 N78-26644

GAS FLOW

Onset of oscillation of a gas-column in a tube due to the existence of heat-conduction field - A problem of generating mechanical energy from heat

17 p0077 A78-15115

Analysis of the seeded combustion gas boundary layer near a cold electrode

17 p0083 A78-16814

'Local' breakdown criterion for a highly ionized gas stream

19 p0292 A78-32707

A large scale heat exchanger with polygonally configured heat pipe units

19 p0317 A78-35588

Reducing nitrogen oxides in the flue gases from gas/oil-fired boilers at high-capacity power stations

19 p0335 A78-37862

The slagging MHD generator - A parametric study --- vapor condensation during coal combustion

20 p0485 A78-45135

Time- and space-resolved species determination in diesel combustion using continuous flow gas sampling

18 p0279 N78-21227

GAS GENERATORS

Autothermal gasification of liquid hydrocarbons by partial oxidation

17 p0002 A78-10320

Compact gas generator for fuel gasification aboard motor vehicles

18 p0236 A78-32509

Gas generator research and development: Bi-gas process

18 p0241 N78-16447

Development of a compact gas generator for fuel gasification aboard a motor vehicle

20 p0573 N78-30367

GAS HEATING

Study of the driving forces of heat and mass transfer in a nozzle reflux device for heating air by water

18 p0172 A78-22543

The use of fluidized beds for heating air for wind tunnels

18 p0234 A78-32372

Evaluation of the efficiency of a device which uses solar energy to apply thermal shocks to gas

20 p0481 A78-44119

Evaluation of devolatilization concept

19 p0430 N78-25639

GAS INJECTION

Investigation of the electrical characteristics of low-temperature thermionic power generators

18 p0227 A78-31338

In-situ laser retorting of oil shale

17 p0149 N78-14452

[NASA-CASE-LEW-12217-1]

Tertiary oil recovery by CO₂ injection

19 p0455 N78-27499

Evaluation of FIDC system --- fuel vapor injector/igniter and lean limit controller for automobile engines

20 p0626 N78-34007

[NASA-CR-157763]

GAS LASERS

Limitation of 3547 to 1182 A conversion efficiency in Xe

18 p0215 A78-28924

Power deposition in volumetric /U-235/F6-He fission-pumped nuclear lasers

18 p0235 A78-32436

Gas laser with solar excitation

19 p0308 A78-33395

Korea Atomic Energy Research Institute, Collected Reprints. Volume 4 --- Book

19 p0335 A78-37901

Design of the power amplifier for the HEGLF at LASL --- High Energy Gas Laser Facility

19 p0349 A78-39861

Design of the energy storage system for the high energy gas laser facility at LASL

19 p0353 A78-39955

GAS LUBRICANTS

Design, develop, and manufacture process gas lubricated hot recycle gas circulators

19 p0423 N78-25573

GAS MIXTURES

Gas laser with solar excitation

19 p0308 A78-33395

Study of the thermodynamics of coal gasification

19 p0337 A78-38200

Synthesis and flammability limits of low-Btu gas mixtures

20 p0516 A78-52550

Variable-temperature cryogenic trap for the separation of gas mixtures

20 p0533 A78-53425

Evaluation of the use of hydrogen as a supplement to natural gas

18 p0281 N78-21323

GAS PIPES

Land use planning issues and the Alaska gas pipeline: A report to the President

20 p0614 N78-33522

GAS RECOVERY

Technical and economic aspects of hydrogen storage in metal hydrides

17 p0099 A78-18842

Gas stimulation studies at LASL [LA-UR-77-1937]

19 p0410 N78-24678

LLL gas stimulation program [UCRL-50036-77-3]

19 p0445 N78-26575

GAS TRANSPORT

The hydrogen pipeline network in the Rhine-Ruhr area

17 p0099 A78-18837

Storage and distribution of large quantities of hydrogen

17 p0099 A78-18838

Use of gas turbines in natural gas transport systems /pipelines/

19 p0327 A78-36372

GAS TURBINE ENGINES

The effect of ambient temperature and humidity on the carbon monoxide emissions of an idling gas turbine

17 p0065 A78-12557

Influence of combustion chamber geometry on toxic compound emissions

17 p0067 A78-13169

Modelling and experimentation of sample probe effects on pollutant gases drawn from flame zones

17 p0081 A78-16340

Tutorial, test measurement accuracy --- for gas turbine engine performance

17 p0088 A78-17409

High-temperature ceramics for automobile gas turbines

17 p0096 A78-18708

Recent developments in heat exchangers for vehicle gas turbines

17 p0096 A78-18711

Research needs for U.S. Army aircraft propulsion [AIAA PAPER 78-45]

18 p0172 A78-22558

Gas turbine module performance analysis [SAE PAPER 770992]

18 p0176 A78-23828

Engine development toward lower energy consumption and reduced environmental impact

18 p0178 A78-24008

Some problems in the operational analysis of a hydrogen-fueled gas turbine

19 p0339 A78-38770

Use of brackish ground water resources for regional energy center development, Tularosa Basin, New Mexico: Preliminary evaluation
[PB-269898/3] 17 p0116 N78-10602

HCMH energy budget data as a model input for assessing regions of high potential groundwater pollution
[E78-10111] 18 p0282 N78-21516

GROUP 2B COMPOUNDS

II-VI compound solar energy converters
20 p0523 A78-52832

GULF OF MEXICO

An estimate of the impact of OTEC operation on the vertical distribution of heat in the Gulf of Mexico
19 p0302 A78-33317

Pricing effects on frontier oil production
[PB-269807/4] 17 p0115 N78-10593

Analysis of brine disposal in the Gulf of Mexico. - 3: Capline sector
[PB-271292/5] 17 p0146 N78-13648

Development and coordination of a program of energy-related oceanographic research and the continental shelves of the Gulf of Mexico
[ORO-5017-3] 19 p0434 N78-25742

GULF STREAM

Gulf Stream OTEC resource potential
19 p0291 A78-32535

GUNN DIODES

Frequency limitations of transferred electron devices related to quality of contacts
19 p0334 A78-37468

GUST LOADS

Synchronization of wind turbine generators against an infinite bus under gusting wind conditions
[IFPE PAPER P 77 675-2] 18 p0219 A78-30196

DOE/NASA Mod-0 100KW wind turbine test results
18 p0266 N78-19628

GUSTS

Estimates of the number of large amplitude gusts
[PNL-2508] 20 p0610 N78-32649

H

HAIL

Low-cost silicon solar array project environmental hail model for assessing risk to solar collectors
[NASA-CR-157225] 19 p0442 N78-26541

HALL EFFECT

Hall effect on an rf induction discharge
17 p0070 A78-13857

Electrical and thermal instabilities and their suppression in thermally equilibrium MHD plasma
18 p0192 A78-26622

The formation of electrode arcs and the electric fluctuations in an MHD channel
18 p0194 A78-27137

Universal formula for the electroconductivity of a plasma formed from the combustion products of a hydrocarbon fuel --- in MHD generators
18 p0204 A78-28120

Two-dimensional analysis of diagonal MHD generator via equivalent circuit
19 p0293 A78-32833

MHD's target - Payoff by 2000
19 p0316 A78-35444

Electrical dissipation effects on propagation of magneto-hydrodynamic waves in anisotropic media
19 p0327 A78-36321

Electrical conductivity of a plasma composed of the combustion products of hydrocarbon fuels with alkali additions
19 p0341 A78-38965

Optimization of the current profile in MHD generators
19 p0364 A78-40834

Appearance of interelectrode arcs and electric fluctuations in an MHD channel
20 p0487 A78-45658

The physics of MHD generators
20 p0515 A78-52076

HALLEY'S COMET

Solar array conceptual design for the Halley's Comet ion drive mission, phase 2
[NASA-CR-155594] 18 p0240 N78-16438

HANDBOOKS

Coal gasification study handbook
[AD-A042385] 17 p0112 N78-10561

State energy conservation program sourcebook.
Volume 1: Overview and guide
[PB-271798/1] 17 p0143 N78-13609

State energy conservation program sourcebook.
Volume 2: State energy conservation plan handbook
[PB-271799/9] 17 p0143 N78-13610

State energy conservation program sourcebook.
Volume 3: Grants-in aid management handbook
[PB-271800/5] 17 p0144 N78-13611

State energy conservation program sourcebook.
Volume 4: Program measures and abstracts
[PB-271801/3] 17 p0144 N78-13612

Planner's energy workbook: A manual for exploring relationships between land use and energy utilization
[BNL-50633] 18 p0286 N78-21634

Legislative handbook on energy-related topics
[PB-276766/3] 19 p0390 N78-22477

EBDA facilities solar design handbook
[EBDA-77-65] 20 p0584 N78-30694

HARDWARE

ERDA/NASA advanced thermionic technology program
[NASA-CR-157117] 19 p0409 N78-24674

Hardware problems encountered in solar heating and cooling systems
[NASA-TM-78172] 19 p0420 N78-25539

HARTMAN FLOW

Insulating wall boundary layer in a Faraday MHD generator
20 p0610 N78-32868

HAWAII

Air flow in the central valley of Maui, Hawaii --- windpower generation potential
19 p0386 A78-43287

Wind studies in complex terrain
[UCRL-79430] 17 p0157 N78-14762

Explication for geothermal energy on Oahu, Hawaii
[AD-A046954] 18 p0241 N78-16445

OTEC thermal resource report for Hawaii
[TID-27950] 20 p0620 N78-33573

HAZARDS

Dispersion and analysis of methane in the atmosphere
[CL-1976-16] 19 p0450 N78-26644

HEALTH PHYSICS

Health and safety impacts of nuclear, geothermal, and fossil-fuel electric generation in California. Volume 2: Radiological health and related standards for nuclear power plants
[LBL-5285-VOL-2] 18 p0278 N78-20769

Health and economic costs of alternative energy sources
[IAEA-CN-36/448] 19 p0390 N78-22484

HEAT VALVES

Implanted energy conversion system
[PB-272609/9] 18 p0243 N78-16464

HEAT

Survey of the applications of solar thermal energy systems to industrial process heat. Volume 1: Summary
[TID-27348/1-VOL-1] 17 p0153 N78-14656

Cogeneration power systems
19 p0457 N78-27525

HEAT BALANCE

Heat balance of a solar house: Rapid calculation method --- French book
18 p0177 A78-23975

Steam bottoming plants for combined cycles
19 p0296 A78-33102

The OTEC program at Carnegie-Mellon University - Heat transfer research and power cycle transient modeling --- Ocean Thermal Energy Conversion
19 p0304 A78-33335

Heat balance of earth --- Russian book
20 p0492 A78-46579

HEAT CAPACITY MAPPING MISSION

HCMH energy budget data as a model input for assessing regions of high potential groundwater pollution
[E78-10111] 18 p0282 N78-21516

HEAT EXCHANGERS

Fluid flow control strategies in flat-plate and evacuated tube collectors --- solar collectors
17 p0047 A78-11260

Heat pump application in houses
17 p0068 A78-13452

- Air source heat pumps
17 p0068 A78-13453
- Standard and solar energy exchange-heat water installation
17 p0071 A78-14092
- Evaluation and design considerations for liquid-liquid direct contact heat exchangers for geothermal applications
[ASME PAPER 77-HT-2] 17 p0089 A78-17477
- Application of direct contact heat exchangers in geothermal systems
[ASME PAPER 77-HT-3] 17 p0089 A78-17478
- Testing of direct contact heat exchangers for geothermal brines
[ASME PAPER 77-HT-4] 17 p0089 A78-17479
- Analysis of a new concept for a high temperature direct coal-fired falling particle air pre-heater for MHD power generation
[ASME PAPER 77-HT-60] 17 p0089 A78-17492
- Specifics of heat exchanger design for a 2000-MWt dual cycle, MHD Topping-Steam Bottoming power plant
[ASME PAPER 77-HT-61] 17 p0090 A78-17493
- Advances in liquid fluidized-bed heat exchanger development --- using geothermal water
[ASME PAPER 77-HT-66] 17 p0090 A78-17498
- Recent developments in heat exchangers for vehicle gas turbines
[DGLR PAPER 77-075] 17 p0096 A78-18711
- Heat transfer for solar energy utilization
18 p0200 A78-27855
- Solar pond
18 p0200 A78-27860
- Comparisons of deep well and insulated shallow earth storage of solar heat
18 p0205 A78-28164
- Development and fabrication of a diffusion welded Columbian alloy heat exchanger --- for space power generation
[AINE PAPER A78-61] 18 p0228 A78-31500
- Performance and cost evaluation for a thermionic topping power plant
[ASME PAPER 77-WA/ENER-7] 19 p0297 A78-33145
- Cost-effectiveness study of heat pipe heat exchangers
[ASME PAPER 77-WA/HT-5] 19 p0298 A78-33171
- Compact heat exchangers for sea thermal power plants
19 p0303 A78-33330
- Analytical and experimental studies of OTEC heat transfer problems at Oak Ridge National Laboratory
19 p0303 A78-33331
- Enhanced performance heat exchangers --- for Ocean Thermal Energy Conversion
19 p0304 A78-33336
- Comments on sea water side enhancement for OTEC heat exchangers
19 p0304 A78-33338
- A design and producibility study of heat exchangers for Ocean Thermal Energy Conversion systems
19 p0304 A78-33340
- Studies of biofouling in Ocean Thermal Energy Conversion plants
19 p0305 A78-33342
- Hydrodynamic control of biofouling in OTEC heat exchangers
19 p0305 A78-33346
- Vehicular gas turbine with ceramic recuperative heat exchanger
19 p0311 A78-34486
- A large scale heat exchanger with polygonally configured heat pipe units
[AIAA 78-393] 19 p0317 A78-35588
- Optimization of heat exchangers for solar concentrators
20 p0477 A78-43981
- Simulation of a solar assisted and open cycle cooling/system using air as the transport medium
20 p0479 A78-43995
- Improving the efficiency of high-temperature power plants
20 p0484 A78-44988
- Ocean thermal energy conversion heat exchanger biofouling - Strategies of control
20 p0501 A78-49664

IGNEOUS ROCKS

Research on the physical properties of geothermal reservoir rocks. Summary report on collection of samples of volcanic rocks for petrophysical studies
[COO-2908-1] 17 p0141 N78-13584
Regional investigations of tectonic and igneous geology, Iran, Pakistan, and Turkey
[E78-10197] 20 p0591 N78-31495

IGNITERS

Evaluation of FIDC system --- fuel vapor injector/igniter and lean limit controller for automobile engines
[NASA-CR-157763] 20 p0626 N78-34007

IGNITION

Surface ignition of coal and other fuel particles in radiative and diffusive environment --- in MHD combustor 18 p0222 A78-30511

IGNITION LIMITS

Synthesis and flammability limits of low-Btu gas mixtures 20 p0516 A78-52550

IGNITION SYSTEMS

An approach to decision modeling for an ignition test reactor --- The Next Step Tokamak design 19 p0346 A78-39797
Engineering features of an upgradable ignition test reactor 19 p0349 A78-39878
A lower hybrid heating system for an ignition tokamak 19 p0354 A78-39972

The GPU-3 Stirling engine ground power unit ignition system
[GMR-2690-SECT-1.203] 19 p0438 N78-26253

IGNITION TEMPERATURE

A shock tube study of the ignition delay of methane at elevated temperatures 18 p0199 A78-27831

ILLINOIS

The Illinois program for comprehensive solar energy legislation
[PB-275565/0] 18 p0277 N78-20648
Morton Grove Lead Study: An investigation of the contribution of airborne lead from automobile exhaust to blood lead levels in suburban children
[PB-280717/0] 20 p0609 N78-32609

ILLUMINATING

Double sided /D.S./ solar cells to improve static concentration 20 p0520 A78-52798
Research design construction and evaluation of a low energy utilization school, phase 2
[PB-269407/3] 17 p0112 N78-10569

IMAGE RESOLUTION

Photosensing arrays with improved spatial resolution 18 p0204 A78-28134

IMAGE TRANSDUCERS

Photosensing arrays with improved spatial resolution 18 p0204 A78-28134

IMPACT DAMAGE

Crash testing of nuclear fuel shipping containers
[SAND-77-1462] 20 p0542 N78-28467

IMPACT TESTS

Statistical analysis and planning of multihundred-watt impact tests
[LA-6886-MS] 20 p0567 N78-30171

IMPEDANCE MEASUREMENTS

Experimental determination of series resistance of p-n junction diodes and solar cells 18 p0228 A78-31731

IMPERIAL VALLEY (CA)

Engineering aspects of geothermal development with emphasis on the Imperial Valley of California 18 p0228 A78-31742
A scenario for geothermal electric power development in Imperial Valley 18 p0228 A78-31743
Planning and design of additional East Mesa geothermal test facilities, phase 1B. Volume 3: Appendices
[SAN/1140-1/3-VOL-3-APP] 17 p0127 N78-12545

IMPLOSIONS

Implosion experiments with D₂, He-3 filled microspheres 18 p0235 A78-32440

Thermo-nuclear fusion study by glass laser 'Gekko II' 19 p0362 A78-40384

Computer simulation on laser plasma compression 19 p0362 A78-40386

Initial numerical studies of the behaviour of Z-pinch plasma under liner implosion conditions 19 p0380 A78-42260

IMPURITIES

Experimental determination of alkali impurity release from various dolomites 17 p0073 A78-14218
Effects of slagging in MHD generator ducts
[ASME PLPER 77-HT-59] 17 p0089 A78-17491
Impurity and gas throughput control for TNS --- The Next Step tokamaks 19 p0348 A78-39822

Divertors for impurity control and review of impurity effects in PPI tokamaks 19 p0377 A78-42203

Effect of neutral injection heating on the impurity level in the W VII A Stellarator 19 p0378 A78-42208

Surface and impurity studies in ORMAK and ISX --- tokamaks 19 p0378 A78-42210

Screening property of the limiter shadow region for heavy wall impurities --- in tokamak 19 p0378 A78-42213

Models for impurity production and transport in tokamaks 19 p0379 A78-42217

Relative importance of different impurity sources in tokamak reactors as estimated from particle balance equations 19 p0379 A78-42221

Impurity gradients and high efficiency solar cells 17 p0136 N78-13531

Impurity concentrations and surface charge densities on the heavily doped face of a silicon solar cell 17 p0136 N78-13534

Investigation of the topographical features of surface carrier concentrations in silicon solar cell material using electrolyte electroreflectance 17 p0136 N78-13535

Tokamak impurity report
[DOE/ET-0001] 19 p0434 N78-25920

INCENTIVE TECHNIQUES

Analysis of federal incentives used to stimulate energy production: An executive summary
[PNI-2410] 20 p0619 N78-33565

INCENTIVES

Economic incentives for the commercialization of OTEC --- Ocean Thermal Energy Conversion 19 p0301 A78-33307
The fuel efficiency incentive tax proposal: Its impact upon the future of the US passenger automobile industry 19 p0412 N78-25002
Solar energy incentives analysis: Psycho-economic factors affecting the decision making of consumers and the technology delivery system
[HCP/M2534] 19 p0463 N78-27584

INCIDENCE

On the relation between global insolation on horizontal and tilted surfaces 20 p0474 A78-43774

INCINERATORS

Overcoming obstacles to energy recovery from industrial wastes 17 p0006 A78-10637

Hazardous wastes and energy recovery 17 p0032 A78-11112
Modular incinerator energy recovery systems - The Siloam Springs experience 17 p0033 A78-11114

Energy recovery from municipal and industrial waste 17 p0037 A78-11146

Refuse incineration with heat recovery - Typical design and practical experience 17 p0037 A78-11147

Combination of refuse incineration with electric power generation 17 p0037 A78-11148

Refuse energy in the United States - Two generations of steam generating waterwall incinerators 17 p0037 A78-11150

INDEXES (DOCUMENTATION)

INDIUM

Trap induced photovoltage in thin films of
gold-cadmium sulphide-indium diodes
19 p0373 A78-42131

INDIUM ALLOYS

Solar cell collector
[NASA-CASE-LEW-12552-1]
19 p0419 N78-25527

INDIUM COMPOUNDS

Low cost, high efficiency solar cells using
indium-tin oxide on semiconductor /OSOS/ solar
cells
17 p0054 A78-11334

Electrical and photovoltaic characteristics of
indium-tin oxide/silicon heterojunctions
19 p0315 A78-35282

Electronic characterization of indium tin
oxide/silicon photodiodes --- for solar cells
20 p0510 A78-51243

Preparation and investigation of Sn doped
Si/n-In₂O₃ heterojunction
20 p0520 A78-52800

Indium tin oxide/silicon solar cells
20 p0525 A78-52862

Anomalous photovoltaic effect in thin films of
polycrystalline CuInSe₂
20 p0528 A78-52898

INDIUM PHOSPHIDES

InP/CdS solar cells
17 p0018 A78-10985

Indium phosphide films deposited by cylindrical
magnetron reactive sputtering
17 p0019 A78-10987

A simple measurement of absolute solar-cell
efficiency
17 p0079 A78-15850

Silicon monoxide antireflection coatings for
InP/CdS solar cells
18 p0221 A78-30305

A possible explanation for the photovoltaic effect
in indium tin oxide on InP solar cells
20 p0493 A78-47449

Chemistry and preparation of InP/CdS solar cells
20 p0536 A78-53497

The current status of the preparation of single
crystals, bicrystals, and epitaxial layers of
p-InP and of polycrystalline p-InP films for
photovoltaic applications
20 p0537 A78-53498

Indium phosphide/cadmium sulfide thinfilm
terrestrial solar cells
[AL0/3717-1]
19 p0462 N78-27581

INDIUM SULFIDES

CuInS₂ liquid junction solar cells
19 p0310 A78-34274

INDONESIA

Framework for a solar energy research and
development policy proposed for Indonesia and
its relevance to solar energy utilization in
building systems
20 p0543 N78-28521

INDUCTION MOTORS

Problem of end effect in a linear induction MHD
machine at arbitrary load current
18 p0167 A78-21395

Three-phase induction motor loads on a variable
frequency wind electric generator
18 p0231 A78-32050

The induction generator for wind energy conversion
18 p0236 A78-32507

Linear machine power requirements and system
comparisons --- for German magnetic levitation
revenue vehicles
20 p0510 A78-51271

Demonstration of an inductor
motor/alternator/flywheel energy storage system
[COO-4010-2]
17 p0141 N78-13579

Baseline tests of the power-train electric
delivery van
[NASA-TM-73765]
18 p0252 N78-17936

Inductive power coupling for an electric highway
system --- supplying power to electric motor
vehicles
[LBL-7262]
20 p0566 N78-29998

INDUCTORS

Pulse power systems employing inductive energy
storage
17 p0007 A78-10698

Pulsed superconducting inductive storage system
17 p0008 A78-10702

Superconductive inductor storage and converters
for pulsed power loads
17 p0008 A78-10703

Inductor network development for aircraft high
power supplies
[AD-A052750]
19 p0413 N78-25096

INDUSTRIAL AREAS

Multi-organizational strategies: An analytic
framework and case illustrations
[IIASA-RM-77-4]
17 p0122 N78-11864

INDUSTRIAL ENERGY

The economic viability of solar assisted
industrial process heat systems - The need for
government economic incentives
17 p0057 A78-11364

Survey of the applications of solar thermal energy
systems to industrial process heat
17 p0058 A78-11370

A solar collector for industrial and commercial
applications
17 p0058 A78-11371

Means of transport and the energy consumed by them
17 p0067 A78-13421

Energy economy in the investment policy of French
companies. I - The industrial attitude
17 p0069 A78-13469

Forty-nine theses on energy policy --- West German
situation
17 p0074 A78-14420

Combustion treatment of smoke and odors of
industrial origin - Energy recovery
17 p0082 A78-16475

SUBJECT INDEX

INDUSTRIAL MANAGEMENT

- Non-electrical uses of geothermal energy
17 p0082 A78-16635
- Relative evaluation of competing processes -
Energetic economy analysis of competing
processes of coal and oil chemistry
17 p0087 A78-17349
- Design and performance of an air collector for
industrial crop dehydration
17 p0104 A78-19828
- Process innovation and changes in industrial
energy use
18 p0175 A78-23559
- Industrial energy in transition - A petrochemical
perspective
18 p0175 A78-23560
- Solar energy in office and industrial buildings
18 p0181 A78-24760
- Development of a flow-model for energies and
products
18 p0187 A78-25946
- A short summary of present applications and hopes
for the development of heat pumps in France
18 p0197 A78-27789
- Can coal-oil mixtures make it as industrial fuels
18 p0206 A78-28210
- Cogeneration --- single site simultaneous
electricity/heat generation
18 p0216 A78-29226
- Preliminary assessment of nontechnical issues
related to industrial application of
solar-thermal-energy systems
18 p0232 A78-32112
- Technologies for the utilization of waste energy
18 p0232 A78-32116
- Ocean energy industrial complexes
19 p0301 A78-33311
- OTEC implementation problems for specific missions
--- Ocean Thermal Energy Conversion
19 p0302 A78-33315
- Refuse-derived fuel wins out over oil and coal at
new industrial power plant
19 p0315 A78-34974
- A survey of applications of fusion power
technology for the chemical and material
processing industries
19 p0368 A78-41812
- Solar energy for industrial processes - A
simplified design method
19 p0383 A78-42891
- Oil shale - Power source and raw material
20 p0507 A78-50252
- Fuel cells for public utility and industrial power
--- Book
20 p0533 A78-53437
- Hydrogen from nuclear energy
20 p0534 A78-53457
- Improvements in energy efficiency of industrial
electrochemical processes
[ANL/OEPH-77-2]
17 p0114 A78-10584
- Impact of natural gas shortage on major industrial
fuel-burning installations. Volume 1: Text
[PB-269365/3]
17 p0115 A78-10596
- Impact of natural gas shortage on major industrial
fuel-burning installations. Volume 2: Schedules
(data and tables)
[PB-269366/1]
17 p0116 A78-10597
- Impact of natural gas shortage on major industrial
fuel burning installations. Volume 3. Appendix:
Summary and analysis of fuel-burning
characteristics of MPBIS
[PB-269367/9]
17 p0116 A78-10598
- Industrial energy thrift scheme
[NPL-CHEM-68-PR-1]
17 p0121 A78-11510
- Energy System Analysis Procedure (ESAP)
[AD-A044131]
17 p0126 A78-12532
- Modeling and analysis of industrial energy usage
[NTR-7329]
17 p0151 A78-14641
- Survey of the applications of solar thermal energy
systems to industrial process heat. Volume 1:
Summary
[TID-27348/1-VOL-1]
17 p0153 A78-14656
- Industrial applications of solar energy
[SAN/1132-1]
18 p0242 A78-16457
- Fuel and energy price forecasts: Quantities and
long-term marginal prices, volume 1
[EPRI-EA-433-VOL-1]
18 p0286 A78-21637
- Energy oriented study of industrial cyclone
separators
[TREE-1174]
18 p0287 A78-21642
- Energy audit scheme
[NPL-CHEM-72]
19 p0399 A78-23602
- The energy/real gross domestic product ratio: An
analysis of changes during the 1966-1970 period
in relation to long-run trends
[PB-277235]
19 p0411 A78-24690
- Process heat in California: Applications and
potential for solar energy in the industrial,
agricultural and commercial sectors
[NASA-CR-157169]
19 p0419 A78-25535
- Industrial applications of solar total energy.
Volume 1: Summary
[SAN/1132-2/1-VOL-1]
19 p0424 A78-25587
- Industrial applications of solar total energy.
Volume 2: Technical
[SAN/1132-2/2-VOL-2]
19 p0424 A78-25588
- Solar total energy system: Large scale
experiment, Shenandoah, Georgia. Volume 1.
Section 1: Conclusions and recommendations.
Section 2: Systems requirements
[ALO-3987-1/1-VOL-1]
19 p0431 A78-25644
- Impact of alternate fuels on refractories and
refractory insulations
[ORNL/TM-5895-ADD]
19 p0436 A78-26226
- A project to reduce the impact of energy shortages
and cost increases on industrial production in
the southeast. Volume 1: Project overview
[PB-278078/1]
19 p0449 A78-26616
- A project to reduce the impact of energy shortages
and cost increases on industrial production in
the southeast. Volume 2: Case study and
technical assistance
[PB-278079/9]
19 p0449 A78-26617
- A project to reduce the impact of energy shortages
and cost increases on industrial production in
the southeast. Volume 3: Transfer package
[PB-278080/7]
19 p0449 A78-26618
- Overcoming institutional barriers to solid waste
utilization as an energy source --- electric
power plants
[HCP/L50172-01]
19 p0452 A78-27005
- Overcoming institutional barriers to solid waste
utilization as an energy source: Executive
summary --- electric power plants
[HCP/L50172-02]
19 p0453 A78-27006
- How industrial societies use energy
[EPRI-EA-707-SY]
19 p0461 A78-27572
- Agricultural and industrial process heat
20 p0550 A78-28620
- Energy conservation policy evaluation. Study
module 1A, volume 2: Technical appendix
[PB-279664/7]
20 p0565 A78-29620
- Department of Energy programs and objectives:
Fluid waste heat recovery and utilization ---
conference
[TID-28393]
20 p0606 A78-32562

- Computer model for refinery operations with
emphasis on jet fuel production. Volume 1:
Program description
[NASA-CR-135333]
18 p0272 A78-20350

INDUSTRIAL PLANTS

- Refuse energy in the United States - Two generations of steam generating waterwall incinerators 17 p0037 A78-11150
- Pollution abatement energy usage of gas treating and processing plants 17 p0073 A78-14161
- Profitability of a hydrogen network in a chemical complex 17 p0101 A78-18853
- Aspects relative to security and environment in the production and use of hydrogen in the new Esso refinery at Antwerp 17 p0101 A78-18854
- The solar breeder --- energy independent facility for photovoltaic panel manufacture 20 p0525 A78-52852
- Evaluation of coal feed systems being developed by the Energy Research and Development Administration [NASA-CR-155267] 17 p0124 A78-12419
- Lock hopper values for coal gasification plant service 17 p0134 A78-13270
- Energy consumption in commercial industries by census division - 1974 [PB-268851/3] 17 p0139 A78-13558
- Oil/gas complex conceptual design/economic analysis: Oil and SNG production [FE-1775-8] 17 p0161 A78-15575
- Sampling of water and wastewater [PB-272664/4] 17 p0163 A78-15957
- Solar energy for process heat: Design/cost studies of four industrial retrofit applications [NASA-CR-156139] 18 p0276 A78-20619
- Solar total energy system, large scale experiment, Shenandoah, Georgia. Volume 2, Section 3: Facility concept design [ALO/3987-1/2-VOL-2] 19 p0409 A78-24672
- Solar total energy system, large scale experiment, Shenandoah, Georgia, volume 3 [ALO/3987-1/3-VOL-3] 19 p0409 A78-24673
- Status of steam-iron pilot plant operations [CONF-771092-5] 19 p0415 A78-25250
- Potential for cogeneration of heat and electricity in California industry, phase 1 [NASA-CR-157168] 19 p0419 A78-25536
- Development work for an advanced coal gasification system for electric power generation from coal directed toward a commercial gasification generating plant, phase 2. Volume 14: System analysis [FE-1521-33] 19 p0426 A78-25602
- Industrial application of fluidized-bed combustion --- boiler and plant design [FE-2461-5] 19 p0436 A78-26190
- Fossil energy demonstration plants [TID-28182] 19 p0445 A78-26573
- Advanced industrial gas turbine technology readiness demonstration program. Phase 1: Design study [HCP/T5035-1] 20 p0542 A78-28468
- Study of capital requirements, cost estimates and economic analysis of a SRC-II (Solvent Refined Coal) plant under conditions related to the Federal Republic of Germany [BMFT-FB-T-77-64] 20 p0562 A78-29582
- Screening evaluation: Synthetic liquid fuels manufacture [EPRI-AP-523] 20 p0568 A78-30264
- Standard criteria for the economic evaluation of alternative pipeline and fuel gas demonstration plant design concepts [FE-2343-42] 20 p0583 A78-30683
- Applications of thermal energy storage to process heat storage and recovery in the paper and pulp industry [NASA-CR-159398] 20 p0592 A78-31537
- Technical evaluation report on the 51st (B) PEP Specialists' Meeting of the Propulsion and Energetics Panel on Seal Technology in Gas Turbine engines [AGARD-AR-1231] 20 p0600 A78-32104
- Alternative fuels demonstration program [ERDA-1547-VOL-2] 20 p0601 A78-32282
- Assessment of industrial applications for fuel cell cogeneration systems [NASA-CR-135429] 20 p0604 A78-32544
- Solar total energy system: Large scale experiment. Phase 2: Conceptual design [SE-3986-1] 20 p0619 A78-33566
- Fuel consumption: Industrial, residential, and general studies. Volume 1. A bibliography with abstracts [NTIS/PS-78/0709/2] 20 p0623 A78-33601
- Fuel consumption: Industrial, residential, and general studies. Volume 2. A bibliography with abstracts [NTIS/PS-78/0710/0] 20 p0623 A78-33602
- INDUSTRIAL SAFETY**
- Code of practice for the petroleum industry. Part 1: The handling, storage, and distribution of petroleum products [SABS-089-1977-PT-1] 19 p0402 A78-24366
- Occupational exposure to refined petroleum solvents. Criteria for a recommended standard [DHEW/PUB/NIOSH-77/192] 19 p0412 A78-24790
- First four years of operation of the LNG plant at Skikda (Algeria): Causes and remedies of the corrosion of cryogenic exchanges by mercury [DOE-TR-16] 20 p0567 A78-30223
- INDUSTRIAL WASTES**
- Prospects of energy recovery from the incineration of chemical plant wastes 17 p0006 A78-10635
- Experience with burning industrial wastes in steam-generating and high-temperature heat recovery systems 17 p0006 A78-10636
- Overcoming obstacles to energy recovery from industrial wastes 17 p0006 A78-10637
- Hazardous wastes and energy recovery 17 p0032 A78-11112
- Prospects of materials and energy from refuse in India 17 p0037 A78-11145
- Energy recovery from municipal and industrial waste 17 p0037 A78-11146
- Constraining the energy gobble --- industrial waste heat recovery techniques 17 p0096 A78-18674
- A continuous monitoring system for sulfur dioxide mass emissions from stationary sources [APCA PAPER 77-27,5] 18 p0185 A78-25400

SUBJECT INDEX

INTERNAL COMBUSTION ENGINES

- Variation of solar cell sensitivity and solar radiation on tilted surfaces
[NASA-TM-78921] 19 p0443 N78-26547
- A brief review of the United States solar resource assessment program
20 p0543 N78-28523
- INSPECTION**
Inspection manual for the enforcement of new source performance standards: Coal preparation plants
[PB-274262/5] 18 p0270 N78-19683
- INSTALLATION MANUALS**
Installation package - SIMS prototype system 1A
[NASA-CR-150524] 18 p0255 N78-18523
- Design and installation package for the Sunmat Flat Plate solar collector
[NASA-CR-150741] 20 p0592 N78-31536
- Installation package for a domestic solar heating and hot water system
[NASA-CR-150760] 20 p0604 N78-32547
- Installation package for a solar heating and hot water system
[NASA-CR-150757] 20 p0605 N78-32550
- Installation package for Sunpak solar collectors
[NASA-CR-150802] 20 p0615 N78-33528
- INSTALLING**
Modem power installations for telecommunications
[BLL-TRANS-3501-(7737.470)] 20 p0541 N78-28290
- Certification and verification for Calmac flat plate solar collector
[NASA-CR-150784] 20 p0615 N78-33532
- INSTRUMENT ERRORS**
Tutorial, test measurement accuracy --- for gas turbine engine performance
17 p0088 A78-17409
- INSULATED STRUCTURES**
Optimal proportioning of an insulated earth cylinder for storage of solar heat
17 p0084 A78-16836
- INSULATION**
The estimation of daily, clear-sky solar radiation intercepted by a tilted surface
17 p0044 A78-11230
- Impact of alternate fuels on refractories and refractory insulations
[ORNL/TM-5895-ADD] 19 p0436 N78-26226
- INSULATORS**
MHD electrode-insulator micro- and macro-structure
17 p0088 A78-17464
- Optical properties of selectively absorbing metal/insulator composite films
19 p0324 A78-36032
- Comparison between the efficiencies of MIS and SIS solar cell structures
20 p0520 A78-52804
- Development, testing, and evaluation of MHD-materials
[FE-6010-9] 19 p0441 N78-26380
- INTEGRAL EQUATIONS**
An integral equation method to calculate the transient behaviour of a photovoltaic solar cell
19 p0292 A78-32695
- INTEGRATED CIRCUITS**
A monolithic series-array solar-cell system
17 p0103 A78-19374
- Photosensing arrays with improved spatial resolution
18 p0204 A78-28134
- Infrared focal planes in intrinsic semiconductors --- technology review
18 p0204 A78-28139
- Solar cell system having alternating current output
[NASA-CASE-LEW-12806-1] 19 p0421 N78-25553
- INTERFACE STABILITY**
Stability and voltammetry of illuminated semiconductor-liquid interfaces
19 p0343 A78-39464
- INTERFACES**
Interface design considerations for terrestrial solar cell modules
17 p0023 A78-11030
- INTERFACIAL TENSION**
Interfacial effects in the recovery of residual oil by displacement: Studies at Northwestern University
[COO-0039-5] 18 p0244 N78-16494
- A mechanism for ultralow interfacial tension in systems containing microemulsions: Theoretical considerations and experiments with ultracentrifuge
20 p0557 N78-29175
- INTERFEROMETRY**
Practical interferometry at 1.06 microns --- for testing high energy fusion laser focusing lenses
19 p0360 A78-40223
- INTERLAYERS**
GaAs solar cell development
17 p0138 N78-13544
- Status of wraparound contact solar cells and arrays
[NASA-TM-78911] 19 p0443 N78-26543
- INTERMETALLICS**
Storage of hydrogen isotopes in intermetallic compounds
20 p0532 A78-53342
- INTERNAL COMBUSTION ENGINES**
Characteristics of water-emulsion fuels --- combustion of hydrocarbon emulsions
17 p0102 A78-18949
- National Conference on Internal Combustion Engines and Combustion, 3rd, University of Roorkee, Roorkee, India, December 10-12, 1976, Proceedings
18 p0198 A78-27826
- Some characteristics of oil consumption measured by hydrogen fueled engine
[ASLE PREPRINT 77-LC-53-1] 18 p0209 A78-28434
- Fuel vapourization - Economy with reduced exhaust emission
18 p0221 A78-30366
- The utilization of LaNi5 as a hydrogen-storage medium for heat engines
18 p0233 A78-32193
- Engine performance and exhaust emission characteristics of spark-ignition engines burning methanol and methanol-gasoline mixtures
19 p0321 A78-35703
- Performance and NOx emissions of spark ignited combustion engines using alternative fuels - Quasi one-dimensional modeling. I - Hydrogen fueled engines
19 p0333 A78-37299
- Development of a new combustion system /MCA-jet/ in gasoline engine
19 p0386 A78-43296
- General aviation internal combustion engine research programs at NASA-Lewis Research Center
[AIAA PAPER 78-932] 20 p0472 A78-43505
- Fifty years of combustion research at General Motors
20 p0499 A78-49337
- Performance and NOx emissions of spark ignited combustion engines using alternative fuels - Quasi one-dimensional modeling. II - Methanol fueled engines
20 p0516 A78-52548
- Performance analysis of a modified internal combustion engine
[AD-A045378] 17 p0135 N78-13442
- Alternative automotive engines and energy conservation
18 p0257 N78-18534
- State-of-the-art assessment of electric vehicles and hybrid vehicles
[NASA-TM-73756] 18 p0262 N78-18988
- Performance of conventionally powered vehicles tested to an electric vehicle test procedure
[NASA-TM-73768] 18 p0271 N78-20022
- Stirling engine feasibility study of an 80 to 100 hp engine of improvement potential for emissions and fuel economy
[COO-2631-22] 19 p0394 N78-23442
- Energy use and other comparisons between diesel and gasoline pickup trucks
[PB-277464] 19 p0404 N78-24564
- A collection of Stirling engine reports from General Motors' research, 1958 to 1970. Part 1.1: Model 3 ground power units design, construction and testing. Government contract reports
[GHR-2690-PT-1.1] 19 p0437 N78-26237
- Stirling engine ground power unit
[GHR-2690-SECT-1.108] 19 p0437 N78-26245
- Stirling engine Ground Power Unit model GPU 3 acceptance test report
[GHR-2690-SECT-1.110] 19 p0437 N78-26247

US Army Engineer Research and Development
Laboratories five hundred hour engineering
evaluation of the Stirling GPU 2-1
[GMR-2690-SECT-1.112] 19 p0437 N78-26249

Supercritical fuel injection system
[NASA-CASE-LPW-12990-1] 19 p0453 N78-27122

Stirling total energy systems study
[NCP/T2947-1] 19 p0461 N78-27570

An experimental study of reciprocating internal
combustion engines operated on hydrogen
20 p0542 N78-28454

Highway vehicle systems
[CONF-771037] 20 p0569 N78-30293

Catalytic combustion for the automotive gas
turbine engine
20 p0572 N78-30333

Operating with lean mixtures: A solution for the
future?
20 p0573 N78-30366

Automotive emissions --- fuel consumption and life
cycle costs of Post Office vehicles
20 p0574 N78-30371

The inertial storage transmission
20 p0575 N78-30384

Characteristics of a single-cylinder
hydrogen-fueled I.C. engine using various
mixture formation methods
20 p0577 N78-30398

A study on reformed fuel for an automotive
gasoline engine
20 p0577 N78-30400

Experimental evaluation of a flywheel energy
management automobile
20 p0578 N78-30407

Lean limit combustion in an expanding chamber
20 p0601 N78-32196

Dynamics of automotive sulfate emissions
[PB-280559/6] 20 p0610 N78-32613

A method of lowering toxicity of exhaust from
internal combustion engines
20 p0610 N78-32628

Hydrogen-fueled engine
[NASA-CASE-NPO-13763-1] 20 p0614 N78-33526

INTERNAL WAVES

The energy of near-surface internal waves in the
Strait of Georgia
17 p0092 A78-17948

INTERNATIONAL COOPERATION

Review of overseas solar technologies relative to
international cooperation
17 p0058 A78-11367

Energy supply-demand integrations to the year
2000: Global and national studies --- Book
18 p0165 A78-20618

Regimes for the ocean, outer space, and weather
--- Book
18 p0189 A78-26199

The search for a reasonable world energy policy -
Some basic considerations and options
18 p0196 A78-27782

Development co-operation and solar energy --- for
developing countries
20 p0497 A78-48813

Investigation of international energy economics
[BNW-2134] 17 p0140 N78-11571

Completion of the fuel cycle in small countries
[CONF-770323-5] 19 p0451 N78-26906

International coordination and planning for a more
effective utilization of solar energy
20 p0544 N78-28531

Energy interdependence: Today and tomorrow
[ORAU/IFA(O)-78-3] 20 p0607 N78-32575

INTERNATIONAL LAW

The geostationary orbit, focal point of space
telecommunication law
19 p0326 A78-36301

INTERNATIONAL SUN EARTH EXPLORER 2

Implementation of extreme-purity specifications in
the case of solar generators, taking into
account, as an example, the satellites GPOC and
ISPE-B
17 p0085 A78-16842

INTERNATIONAL SYSTEM OF UNITS

Units and symbols in solar energy
20 p0488 A78-45743

INTERNATIONAL TRADE

International energy trends: Monthly supplement
on oil trends
[NP-22885] 19 p0462 N78-27577

INTERPLANETARY SPACECRAFT

High-power, ultralow-mass solar arrays: FY-77
solar arrays technology readiness assessment
report, volume 1
[NASA-CR-157264] 19 p0457 N78-27530

High-power, ultralow-mass solar arrays: FY-77
solar arrays technology readiness assessment
report, volume 2
[NASA-CR-157265] 19 p0457 N78-27531

INVENTORIES

Remote sensing of strippable coal reserves and
mine inventory in part of the Warrior Coal Field
in Alabama
[NASA-CR-150781] 20 p0603 N78-32520

Integrated Inventories of Renewable Natural
Resources
[PR-281036/4] 20 p0609 N78-32589

INVERTED CONVERTERS (DC TO AC)

Inverters for commercial fuel cell power generation
17 p0009 A78-10733

Experimental investigation of a solar
cell/inverter system
17 p0054 A78-11339

Some results of investigations on the U-25 pilot
plant to attain its design parameters --- MHD
generator operation
17 p0066 A78-13153

Transistor inverters for satellite onboard
networks of higher power
19 p0365 A78-40865

Advanced semiconductor technology for alternate
energy sources: dc to ac inverters
[AD-A048806] 18 p0269 N78-19662

An inverter/controller subsystem optimized for
photovoltaic applications
[NASA-TN-78903] 19 p0452 N78-26995

INVESTMENTS

How much investment in conversion devices --- for
terrestrial solar energy utilization
17 p0004 A78-10617

Energy economy in the investment policy of French
companies. I - The industrial attitude
17 p0069 A78-13469

Production of synthetic methanol from air and
water using controlled thermonuclear reactor
power. II - Capital investment and production
costs
19 p0322 A78-35778

INVISCID FLOW

Invicid flow through wide-angle diffuser with
actuator disk --- for wind turbine augmentation
20 p0529 A78-53095

IODIDES

Thin film CdS-CuI heterojunction photocell
19 p0133 A78-17760

ION ACCELERATORS

Acceleration of one ampere negative ion beam to
energies up to 120 keV
19 p0348 A78-49812

The design philosophy and use of high voltage
power systems for multimegawatt ion beam
accelerator
19 p0354 A78-49974

ION ACOUSTIC WAVES

Mechanism for the omega/pe radiation in Tokamak
18 p0225 A78-11215

Effect of Faraday rotation on stimulated Brillouin
backscattering --- in laser heated nuclear
fusion reactor
19 p0369 A78-41909

Nonresonant pump field modification of the
side scatter threshold
19 p0381 A78-42264

Wave interaction in a beam-plasma system in
presence of dispersion and higher order
non-linear effects
20 p0485 A78-45245

ION BEAMS

Solar cells by ionized-cluster beam deposition and
epitaxial techniques
17 p0013 A78-10912

Fabrication of MOS cell by neutral ion beam
sputtering --- Oxide Semiconductor on Silicon
solar cells
17 p0027 A78-11062

Optical and electrical properties of ion beam
textured Kapton and Teflon
18 p0182 A78-24908

- International Topical Conference on High Power Electron and Ion Beam Research and Technology, 2nd, Cornell University, Ithaca, N.Y., October 3-5, 1977, Proceedings. Volumes 1 & 2
18 p0189 A78-26173
- Acceleration of one ampere negative ion beams to energies up to 120 keV
19 p0348 A78-39832
- Engineering of beam direct conversion for a 120-kV, 1-MW ion beam
19 p0348 A78-39834
- The design philosophy and use of high voltage power systems for megawatt ion beam accelerators
19 p0354 A78-39974
- ION CURRENTS**
New solid electrolytes --- for fast alkali-ion transport
20 p0531 A78-53336
- Polarizability enhancement of ionic conductivity for A⁺/ in A⁺/M2X6 series --- for fast ion transport
20 p0531 A78-53337
- Nonstoichiometry, order, and disorder in fluorite-related materials for energy conversion
20 p0532 A78-53340
- ION CYCLOTRON RADIATION**
Ion-cyclotron instability in the TFR tokamak
19 p0369 A78-42016
- Cyclotron oscillations of a large-larmor-radius plasma
19 p0380 A78-42262
- ION ENGINES**
Solar array conceptual design for the Halley's comet ion drive mission, phase 2
[NASA-CR-155594]
18 p0240 A78-16438
- ION EXCHANGE MEMBRANE ELECTROLYTES**
Solid Polymer Electrolyte (SPE) fuel cell technology program
[NASA-CR-151750]
20 p0561 A78-29567
- ION EXCHANGE RESINS**
Inorganic-organic separators for alkaline batteries
[NASA-CASE-LEW-12649-1]
19 p0419 A78-25530
- ION IMPACT**
Recent results on plasma-wall interaction in the T. F. R. tokamak
19 p0377 A78-42202
- ION IMPLANTATION**
Merits of ion-implantation processes in conjunction with appropriate annealing procedure for fabrication of silicon solar cells
17 p0015 A78-10945
- Silicon solar cells by ion implantation and pulsed energy processing
17 p0015 A78-10946
- Ion-implanted drift field silicon solar cell
19 p0335 A78-37904
- Study of ion implanted n⁺/p⁺ layers for silicon solar cells
20 p0518 A78-52782
- Applications of ion implantation for high efficiency silicon solar cells
17 p0137 A78-13538
- ION INJECTION**
Magnetics design for ripple-assisted beam injection into the ISX-B and TFTR tokamaks
19 p0356 A78-40013
- Effect of neutral injection heating on the impurity level in the W VII A Stellarator
19 p0378 A78-42208
- Electron and ion heating by neutral injection in the DTF tokamak
19 p0381 A78-42268
- ION MOTION**
Heat-transfer allowing for ion slip in an MHD channel
17 p0063 A78-12346
- Ionic thermoelectric power of superionic conductors
18 p0192 A78-26705
- Heat exchange in an MHD channel with allowance for the ion slippage
19 p0291 A78-32570
- Ionic and mixed conductors for energy storage and conversion systems
20 p0537 A78-53500
- ION PROBES**
Collection of ions by electric probes in combustion MHD plasmas - An overview
18 p0188 A78-26111
- ION PRODUCTION RATES**
Ionization equilibrium and radiative cooling of a high temperature plasma
18 p0227 A78-31423
- ION PROPULSION**
Extended performance solar electric propulsion thrust system study. Volume 4: Thruster technology evaluation
[NASA-CR-135781-VOL-4]
18 p0237 A78-16090
- Closed loop solar array-ion thruster system with power control circuitry
[NASA-CASE-LEW-12780-1]
19 p0387 A78-22149
- ION SCATTERING**
Evolution of stimulated Brillouin to stimulated ion Compton scattering in a CO₂ laser-plasma interaction experiment
18 p0235 A78-32425
- ION SOURCES**
Computer simulation of ion extraction
18 p0188 A78-25947
- The Princeton neutral injection power supply system
19 p0354 A78-39975
- The TFTR neutral beam power system --- Tokamak Fusion Test Reactor
19 p0354 A78-39976
- Performance of a developmental 120-keV, 10-A deuterium /14-A hydrogen/ neutral beam system
19 p0357 A78-40027
- ION TEMPERATURE**
Two-component, multiple-mirror reactor with depressed ion temperature
19 p0380 A78-42263
- Observation of a forbidden line of Fe XX and its application for ion temperature measurements in the Princeton Large Torus tokamak
20 p0498 A78-49246
- IONIC COLLISIONS**
The ambipolarity paradox in toroidal diffusion, revisited
19 p0380 A78-42259
- IONIC CRYSTALS**
Ionic thermoelectric power of superionic conductors
18 p0192 A78-26705

- Development of a Ti/Fe redox couple flow battery system 19 p0388 N78-22458

IRON OXIDES

- Fluidized-bed combustion of coal with lime additives - Catalytic sulfation of lime with iron compounds and coal ash 20 p0491 A78-46371
- Status of steam-iron pilot plant operations [CONF-771092-5] 19 p0415 N78-25250
- Design and cost study of a nickel-iron oxide battery for electric vehicles. Volume 2: Public report [ANL-K-3723-1] 20 p0594 N78-31551

IRRADIANCE

- Irradiance for skew rays incident upon a trough-like solar collector of arbitrary shape 17 p0104 A78-19829
- A comparative analysis of models describing the formation of irradiance fields in wide-aperture optical systems 18 p0187 A78-25733
- Equalizing an irradiance field on the surface of a receiver 18 p0187 A78-25734
- Solar irradiance, total and spectral --- data for cost-effective solar energy conversion 18 p0199 A78-27853
- Calibration standards and field instruments for the precision measurement of insolation 19 p0312 A78-34517
- Diffraction analysis for multiple-beam pellet irradiance 19 p0360 A78-40225
- Comparative analysis of models of irradiance field formation in wide aperture-optical systems 20 p0489 A78-46121
- Equalization of irradiation field on receiver surface 20 p0489 A78-46122

IRRADIATION

- Silicon double solar cell --- differential irradiation response of N⁺/P/N⁺ structure 20 p0525 A78-52865

IRREVERSIBLE PROCESSES

- Thermodynamics of thermochemical cycles in the decomposition of water 17 p0098 A78-18813
- Variational irreversible thermodynamics of heat and mass transfer in porous solids - New concepts and methods 19 p0313 A78-34603

IRRIGATION

- Wind power installations for water pumping in developing countries 18 p0171 A78-22247
- Calculations and in situ experimental data on a water pumping system directly connected to an 1/2 Kw photovoltaic converters array 20 p0527 A78-52890
- Photovoltaic power in less developed countries [CON-4094-1] 17 p0141 N78-13581
- Solar irrigation program plan, revision [SAND-77-0730-REV] 17 p0151 N78-14642

- Solar irrigation program [SAND-77-0380] 17 p0161 N78-15582
- Preliminary economic analysis of Solar Irrigation Systems (SIS) for selected locations [SAND-77-1403] 19 p0428 N78-25620
- Introductory workshops on remote sensing as related to geological problems in Georgia [E78-10152] 19 p0455 N78-27482
- Solar irrigation program status [SAND-78-0398C] 20 p0554 N78-28662

ISOMERIZATION

- Use of transition metal compounds to sensitize a photochemical energy storage reaction 17 p0083 A78-16830
- Photon energy storage in organic materials - The case of linked anthracenes 18 p0220 A78-30267
- Photoisomerization of bis 9-anthryl methane and other linked anthracenes: The role of excimers and biradicals in photodimerization [AD-A051136] 19 p0408 N78-24665

ISOTHERMAL PROCESSES

- Studies on coal reactivity - Kinetics of lignite pyrolysis in nitrogen at 808 C 17 p0079 A78-15831
- Stationary and dynamic behavior of heat pipes 19 p0364 A78-40864

ISOTOPE SEPARATION

- Study of a collisional plasma rotating between two cylinders 19 p0293 A78-32718

ISOTOPES

- Stable isotopic studies of Japanese geothermal systems 17 p0062 A78-11493
- Selenide isotope generators [CONF-770302-1] 17 p0114 N78-10581
- Preliminary design study of an alternate heat source assembly for a Brayton isotope power system [NASA-CR-135428] 20 p0549 N78-28608

ISOTOPICT LABELING

- Chemical and isotopic techniques in geothermal investigations 17 p0061 A78-11490

ITALY

- Some considerations on long term energy prospects [ISS-L-77/11] 20 p0554 N78-28667

J

JAPAN

- The progress and the development program of fusion technology in Japan 17 p0038 A78-11162
- Stable isotopic studies of Japanese geothermal systems 17 p0062 A78-11493
- Options of long-term energy strategy of Japan 18 p0195 A78-27778
- Energy use in Japan and the United States [BNL-50713] 20 p0582 N78-30674

JET AIRCRAFT

- Fuel efficiency - Where we are heading in the design of future jet transports 18 p0226 A78-31307
- Aircraft propulsion from the back room /Sixty-sixth Wilbur and Orville Wright Memorial Lecture/ 19 p0326 A78-36279

JET CONTROL

- Development of a new combustion system /MCA-jet/ in gasoline engine 19 p0386 A78-43296

JET ENGINE FUELS

- Increasing the resources of jet fuels 17 p0062 A78-11699
- Alternative hydrocarbon fuels for aviation 17 p0077 A78-15400
- The availability of jet fuel over the next two decades 17 p0102 A78-19222
- Future aviation turbine fuels [ATAA PAPER 78-268] 18 p0165 A78-20781
- Properties of fuels used in the Czechoslovak aircraft industry 18 p0217 A78-29588
- Fuel hydrogen content as an indicator of radiative heat transfer in an aircraft gas turbine combustor 19 p0296 A78-33114

Jet fuels from synthetic crudes
20 p0471 A78-43415

Gas turbine engine fuel from synthetic crude
20 p0471 A78-43416

Fuel consumption improvement in current transport engine
[AJAA PAPER 78-930] 20 p0484 A78-45097

Let's put fuel efficiency into perspective
20 p0493 A78-47269

Hydrocarbon group type determination in jet fuel by high performance liquid chromatography
[NASA-TM-73829] 17 p0130 N78-11233

Comparison tests on the 100-GPM electrokinetic fuel decontaminator and a 100-GPM military standard filter/separator
[AD-A048655] 18 p0253 N78-18226

Effect of fuel bound nitrogen on oxides of nitrogen emission from a gas turbine engine
[AD-A048182] 18 p0262 N78-19162

Computer model for refinery operations with emphasis on jet fuel production. Volume 2: Data and technical bases
[NASA-CR-135334] 18 p0262 N78-19326

Computer model for refinery operation with emphasis on jet fuel production. Volume 1: Program description
[NASA-CR-135333] 18 p0272 N78-20150

Computer model for refinery operations with emphasis on jet fuel production. Volume 3: Detailed systems and programming documentation
[NASA-CR-135335] 19 p0414 N78-25235

Alternate fuels nitrogen chemistry
[AD-A053299] 19 p0414 N78-25240

Aviation fuels beyond the 1980's --- liquefied gases and synthetic fuels
[NASA-TM-79510] 19 p0436 N78-26221

Impact of broad-specification fuels on future jet aircraft --- engine components and performance
19 p0453 N78-27059

Antimisting fuel spillage/airshear tests at Naval Weapons Center
[AD-A056113] 20 p0589 N78-31256

JET ENGINES

Thrust computing system applications to increase engine life and provide fuel conservation
18 p0227 A78-31311

JET IMPINGEMENT

Low-cost solar air heater
[COO-2929-6] 18 p0277 N78-20619

JET MIXING FLOW

Cold flow mixing rate data for pulverized coal reactors
19 p0328 A78-36616

JOURNAL BEARINGS

Hydrodynamic air lubricated compliant surface bearing for an automotive gas turbine engine. 1: Journal bearing performance
[NASA-CR-135368] 18 p0281 N78-21472

Hydrodynamic air lubricated compliant surface bearing for an automotive gas turbine engine. 2: Materials and coatings
[NASA-CR-135402] 20 p0559 N78-29449

JP-4 JET FUEL

Analysis of spray combustion in a research gas turbine combustor
19 p0333 A78-37297

JP-5 JET FUEL

Evaluation of coal-derived JP-5 fuels
20 p0471 A78-43417

Effects of high availability fuels on combustor properties
[AD-A054229] 20 p0568 N78-30259

JUNCTION DIODES

Experimental determination of series resistance of p-n junction diodes and solar cells
18 p0228 A78-31731

Dry barrier formation of Cu₂S-CdS junctions
20 p0526 A78-52881

Photovoltaic solar cells
20 p0531 A78-53332

K

KAPTON (TRADEMARK)

Optical and electrical properties of ion beam textured Kapton and Teflon
18 p0182 A78-24908

KENTUCKY

Strategic petroleum reserve: Central Rock Mine
[PB-270447/6] 17 p0119 N78-11255

Estimating environmental damage from surface mining of coal in Appalachia: A case study
[PB-279150/7] 20 p0560 N78-29551

Proceedings: 1st Kentucky Coal Refuse Disposal and Utilization Seminar
[PB-279121/4] 20 p0560 N78-29559

KEROGEN

Oil-shale kerosene - Low temperature degradation in molten salts
20 p0493 A78-47205

Thermal conversion of oil-shale kerosene using CO and water at elevated pressure
[IPRC-78/1] 20 p0617 N78-31552

KEROSENE

Generation of air pollutants from kerosene combustion in commercial and domestic glass houses
17 p0105 A78-20075

Aviation fuels - A supplier's perspective
18 p0226 A78-31308

Occupational exposure to refined petroleum solvents. Criteria for a recommended standard
[DHFW/PUB/NIOSH-77/192] 19 p0412 N78-24790

Antimisting fuel spillage/airshear tests at Naval Weapons Center
[AD-A056113] 20 p0589 N78-31256

KERR EFFECTS

Limitation of 3547 to 118° A conversion efficiency in Xe
18 p0215 A78-28928

KINETIC ENERGY

Thermal and kinetic analysis of the pyrolysis of coal
[PERS-AP-528] 20 p0594 N78-31552

KINETIC EQUATIONS

Finite harmonic radius equations in an arbitrary near-theta pinch geometry
19 p0382 A78-42891

KINETIC THEORY

Kinetic theory of plasma in the limiter-shadow region
19 p0378 A78-42212

KLYSTRONS

Solar power satellite 50 kW VKS-7773 cw klystron evaluation
[NASA-CR-151577] 17 p0110 N78-13106

KRYPTON FLUORIDE LASERS

Efficient amplification of a discharge-pumped KrF laser
20 p0484 A78-44762

L

LABORATORIES

The multiprogram laboratories: A national resource for nonnuclear energy research, development, and demonstration
[PB-281265/9] 20 p0624 N78-31607

LABORATORY EQUIPMENT

Coal desulfurization by low temperature chlorinolysis, phase 1
[NASA-CR-157172] 19 p0419 N78-25533

LAGRANGIAN EQUILIBRIUM POINTS

The economics of space industrialization - A phased approach
18 p0204 A78-27934

LAKES

The heat distribution in the Stechlin Lake as a result of anthropogenic effects
20 p0498 A78-49159

LAMINAR BOUNDARY LAYER

Analysis of the seeded combustion gas boundary layer near a cold electrode
17 p0083 A78-16814

LAMINAR FLOW

Laminar flow of a conducting liquid between coaxial cylinders in a traveling magnetic field
19 p0339 A78-38673

LAMINATES

Optimum design of wideband selective absorbers with provision for specified included layers --- for solar applications
19 p0323 A78-35796

Chemical conversion using sheet-silicate intercalates
20 p0532 A78-53343

LAND ICE

West Antarctic ice sheet and CO2 greenhouse effect
- A threat of disaster

18 p0175 A78-23492

LAND USE

Solar biomass energy - An overview of U.S. potential
- Remote-sensing methods for monitoring surface coal

18 p0193 A78-26967

mining in the northern Great Plains

18 p0206 A78-28247

The role of advanced transit in the implementation
of the polycentric city concept

19 p0329 A78-36697

Land use-energy simulation model: A
computer-based model for exploring land use and
energy relationships

18 p0241 N78-16450

Conference proceedings: A critical economic
balance: Water, land, energy, people

18 p0253 N78-17944

Applications of remote sensing in resource
management in Nebraska

18 p0273 N78-20567

Planner's energy workbook: A manual for exploring
relationships between land use and energy

18 p0286 N78-21634

Distributed technologies in California's energy
future: A preliminary report, volume 2

18 p0286 N78-21635

Land use configurations and the utilization of
distributed energy technology

19 p0418 N78-25512

Interaction of land-use patterns and residential
energy conservation

19 p0418 N78-25513

Introductory workshops on remote sensing as
related to geological problems in Georgia

19 p0455 N78-27482

A summary of the users perspective of LANDSAT-D
and reference document of LANDSAT users

20 p0591 N78-31506

Integrated Inventories of Renewable Natural
Resources

20 p0609 N78-32589

Land use planning issues and the Alaska gas
pipeline: A report to the President

20 p0614 N78-33522

LANDFORMS

Land contouring to optimize wind power
[AIAA PAPER 78-279]

18 p0166 A78-20786

LANDSAT D

A summary of the users perspective of LANDSAT-D
and reference document of LANDSAT users

20 p0591 N78-31506

LANDSAT SATELLITES

Landsat detection of hydrothermal alteration in
the Mogal Canyon Cauldron, New Mexico

17 p0075 A78-14815

Remote sensing of earth resources. Volume 5 -
Annual Remote Sensing of Earth Resources

18 p0198 A78-27823

Conference, 5th, Tullahoma, Tenn., March 29-31,
1976, Technical Papers

18 p0206 A78-28247

Remote-sensing methods for monitoring surface coal
mining in the northern Great Plains

18 p0206 A78-28247

LANTHANUM

Neutron and X-ray diffraction investigation of
deuterium storage in La7Ni3

20 p0510 A78-51321

LANTHANUM COMPOUNDS

The utilization of LaNi5 as a hydrogen-storage
medium for heat engines

18 p0233 A78-32193

LANTHANUM FLUORIDES

LaF3 solar cell

17 p0027 A78-11068

LARGE SPACE STRUCTURES

GSSPS - Taking a new approach to the space solar
power station --- Gravity-gradient-stabilized

17 p0066 A78-13072

Satellite Solar Power Station

17 p0078 A78-15423

Film reflectors in space --- Russian book on
orbiting solar power stations and solar sails

19 p0293 A78-32765

Self-powered electric propulsion of satellite
power systems

19 p0293 A78-32765

Structure assembly demonstration slated --- for
large space structures in low orbit

19 p0339 A78-38774

Attitude control of large solar power satellites
[AIAA 78-1266]

20 p0506 A78-50221

Design concept of geostationary platform
[AIAA PAPER 78-1642]

20 p0514 A78-51981

Large space structures at the Marshall Space
Flight Center

20 p0514 A78-51982

Thermal control requirements for large space
structures

20 p0514 A78-51999

Automatic fabrication of large space structures -
The next step

20 p0517 A78-52742

Construction in space: A proposed experiment in
support of the space solar power concept and
other large space systems

18 p0279 N78-21179

[NASA-TM-79435]

LARMOR RADIUS
Cyclotron oscillations of a large-Larmor-radius
plasma

19 p0380 A78-42262

Finite Larmor radius equations in an arbitrary
near-theta pinch geometry

19 p0382 A78-42491

LASER APPLICATIONS
Ribbon-to-ribbon crystal growth --- for solar cell
fabrication

17 p0014 A78-10929

Photoelectrolysis of water at high current density
- Use of ultraviolet laser excitation

17 p0062 A78-11927

Advancing technologies --- Book

18 p0225 A78-31151

Solar-powered global aerospace transportation
[AIAA PAPER 78-689]

19 p0293 A78-32761

A device with a sectioned photodetector and a
laser transmitter for determining the precision
characteristics of solar energy concentrators

19 p0326 A78-36137

High-power lasers --- industrial applications

19 p0382 A78-42446

A laser-powered flight transportation system
[AIAA PAPER 78-1484]

20 p0502 A78-49781

Laser-zone growth in a Ribbon-To-Ribbon, RTH,
process silicon sheet growth development for the
large area silicon sheet task of the low cost
silicon solar array project

18 p0240 N78-16437

[NASA-CR-155586]

18 p0281 N78-21441

A review of the thermoelectronic laser energy
converter (TELEC) program at Lewis Research Center

18 p0281 N78-21441

Preliminary tests using a laser particle-size
analyzer on geothermal brine

19 p0430 N78-25634

Laser ray trace and bi-directional reflectometry
measurements of various solar concentrators

19 p0444 N78-26564

Laser ray trace tester for parabolic trough solar
collectors

20 p0554 N78-28664

[SAND-78-0012C]

LASER DRILLING
In-situ laser retorting of oil shale

17 p0149 N78-14452

[NASA-CASE-LEW-12217-1]

LASER FUSION
Commercial application of laser fusion

17 p0004 A78-10605

Pulsed power systems for the LASL high energy gas
laser facility

17 p0007 A78-10691

Nuclear fusion by means of a laser

17 p0068 A78-13464

Controlled nuclear fusion, a challenge to the
engineer. II - Systems for fuel supply and fuel
removal, plasma heating, and vacuum generation

18 p0195 A78-27700

Laser-fusion experiments utilizing a 4/pi/
illumination system

18 p0235 A78-32434

Implosion experiments with D2, He-3 filled
microspheres

18 p0235 A78-32440

Laser fusion --- overview

19 p0314 A78-34953

Giant laser system readied for tests --- for
inertial fusion

19 p0316 A78-35300

- Intensity dependence of inverse bremsstrahlung absorption in an inhomogeneous standing wave
19 p0332 A78-37139
- An assessment of laser-driven fusion
19 p0338 A78-38418

LINE CURRENT

The potential for application of energy storage capacity on electric utility systems in the United States. II 17 p0030 A78-11087

LINEAR ARRAYS

High-temperature linear radiation-cavity solar collector with a Fresnel concentrator 20 p0614 N78-33524

LINEAR EQUATIONS

Sensitivity theory for general nonlinear algebraic equations with constraints [ORNL/TM-5815] 17 p0118 N78-10814

LINEAR PROGRAMMING

A linear programming model for assessing the regional impacts of energy development on water resources [PB-273022/4] 18 p0251 N78-17491

LINEAR SYSTEMS

Design, construction and test of a collector system using a linear asymmetric Fresnel reflector 17 p0059 A78-11374

Problem of end effect in a linear induction MHD machine at arbitrary load current 18 p0167 A78-21395

Linear machine power requirements and system comparisons --- for German magnetic levitation revenue vehicles 20 p0510 A78-51271

Linear Fresnel lenses and their use in photovoltaic generators 20 p0526 A78-52875

LINES OF FORCE

Reconnection of field lines and disruptive instability in Tokamaks 17 p0011 A78-10796

LININGS

Design aspects of a large toroidal stabilizing shell and vacuum liner assembly 17 p0040 A78-11184

Transport calculations for a wall-confined liner-compressed plasma 19 p0380 A78-42258

LIPIDS

Lipinites and lipid substances in an oil source rock 17 p0061 A78-11458

Ultrathin barriers and solar energy conversion --- photosynthetic pigmented bilayer lipid membrane 18 p0203 A78-27895

LIQUEFACTION

Study of the potential for improving the economics of hydrogen liquefaction through the use of centrifugal compressors and the addition of a heavy water plant [NASA-CR-145282] 17 p0159 N78-15564

LIQUEFIED GASES

Aviation fuels beyond the 1980's --- liquefied gases and synthetic fuels [NASA-TM-79510] 19 p0436 N78-26223

Alternative fuels with regard to LPG and methanol --- urban transportation 20 p0576 N78-30392

LIQUEFIED NATURAL GAS

Liquid hydrogen as energy source - Economic considerations through a comparison with imported liquefied natural gas 17 p0107 A78-20516

Research in a pre-vaporization combustion chamber on natural gas in liquid and gaseous states 19 p0323 A78-35897

Cold energy --- liquefied natural gas evaporation energy utilization 20 p0507 A78-50253

Allocation of petroleum feedstocks to synthetic natural gas plants [PB-273098/4] 18 p0251 N78-17490

The conversion of model coal liquids compounds to Naphtha species [PB-275891/0] 18 p0272 N78-20291

Cryogenic fluids density reference system: Provisional accuracy statement [PB-275450/5] 18 p0272 N78-20376

Approach to liquefied natural gas (LNG) safety and environmental control research [DOE/EV-0002] 19 p0437 N78-26227

Dispersion and analysis of methane in the atmosphere [CL-1976-16] 19 p0450 N78-26644

First four years of operation of the LNG plant at Skikda (Algeria): Causes and remedies of the corrosion of cryogenic exchanges by mercury [DOE-TB-16] 20 p0567 N78-30223

Tests at the FOS terminal on the lng behavior in large tanks [DOE-TB-17] 20 p0568 N78-30263

LIQUID AMMONIA

Optimization study of OT&C delivery systems based on chemical-energy carriers [ERDA/NSP-00033/76/TI] 19 p0409 N78-24677

LIQUID CHROMATOGRAPHY

High pressure liquid chromatographic studies of coal liquefaction kinetics 18 p0192 A78-26591

Organics in aqueous process streams of a coal conversion bench-scale unit using the hydrocarbonization process - HPLC and GC/MS analysis 18 p0232 A78-32104

Hydrocarbon group type determination in jet fuels by high performance liquid chromatography [NASA-TM-73829] 17 p0130 N78-13233

GLC analysis of n-paraffin distributions in crude oils and topped crude oils for oil identification [BERC/RI-77/12] 19 p0402 N78-24324

LIQUID COOLED REACTORS

Evaluation of a seafloor nuclear power supply and its potential applications [COO-4123-1] 18 p0277 N78-20643

LIQUID COOLING

Experimental study of temperature fields in liquids in the steady state regime --- for solar thermoelectric generator cooling 18 p0166 A78-21030

A simple test for determining a best flow rate through solar collectors [AIAA PAPER 78-900] 19 p0324 A78-36020

Cryostabilization of large superconducting magnets using pool boiled helium II 19 p0350 A78-39896

The helium liquefier-refrigerator and distribution system for the Large Coil Program Test Facility --- tokamak toroidal magnetic coils 19 p0352 A78-39936

Dielectric breakdown of liquid and vapor helium in bulk and across epoxy insulation 19 p0357 A78-40047

Liquid metal cooling concepts in solar power application 20 p0481 A78-44109

Liquid metal requirements for inertial confinement fusion 20 p0481 A78-44112

Energy economy with high temperature gasturbine 20 p0508 A78-50604

The use of liquid dielectrics for the cooling of photoelectric converters 20 p0510 A78-51316

Liquid-cooling technology for gas turbines review and status [NASA-TM-78906] 19 p0436 N78-26145

LIQUID FLOW

Experimental performance study of a 40 sq m vacuum flow flat plate solar collector array 17 p0042 A78-11216

Performance analysis of a black liquid absorbing collector /BLAC/ 17 p0042 A78-11217

Solar energy utilization - Liquid flat plate collectors 18 p0200 A78-27856

LIQUID HELIUM

Superconducting magnets for fusion reactors - The problem of a reliable and effective cooling system 19 p0350 A78-39897

The helium liquefier-refrigerator and distribution system for the Large Coil Program Test Facility --- tokamak toroidal magnetic coils 19 p0352 A78-39936

Dielectric breakdown of liquid and vapor helium in bulk and across epoxy insulation 19 p0357 A78-40047

Design and performance of large cryopumps for high power neutral injectors 19 p0359 A78-40108

Unit helium requirements for superconductive energy applications in the USA 20 p0475 A78-43825

[AAS 77-239] 19 p0329 A78-36716
- LOW SPEED WIND TUNNELS**
Applications of wind tunnels to investigations of wind-engineering problems
[AIAA 78-812] 18 p0233 A78-32366
- LOW TEMPERATURE**
Direct utilization of solar energy with the aid of low-temperature heating
18 p0213 A78-28591
The possibility of black zinc oxide as spectrally selective coating for low temperature solar collectors
20 p0491 A78-46196
- LOW TEMPERATURE ENVIRONMENTS**
Economic feasibility of strontium-90 fueled heaters for use in cold regions
[PNL-2476] 20 p0616 A78-33546
- LOW TEMPERATURE PHYSICS**
Dielectric relaxation in polymers at low temperatures
17 p0148 A78-14170
- LOW TEMPERATURE TESTS**
Thermoelectric power of tin films at low temperatures
18 p0217 A78-29427
- LOW VISIBILITY**
Computer simulation of the visual effects of smoke plumes
[LA-OR-78-689] 20 p0624 A78-33625
- LUBRICANTS**
Engine lubricants for use in methanol fueled highway vehicles
20 p0572 A78-30329

LUBRICATING OILS

- Some characteristics of oil consumption measured
by hydrogen fueled engine
[ASLE PREPRINT 77-LC-5B-1] 18 p0209 A78-28434
- A literature review: Problem definition studies
on selected toxic chemicals. Volume 4:
Occupational health and safety aspects of the
fog oils SGF No. 1 and SGF No. 2 and smoke
screens generated from them
[AD-A055903] 20 p0610 N78-32709

LUBRICATION SYSTEMS

- Oil cooling system for a gas turbine engine
[NASA-CASE-LPW-12321-1] 17 p0109 N78-10467

LUMINOUS INTENSITY

- Characteristics of high intensity /HI/
edge-illuminated multijunction silicon solar
cells - Experimental results and theory
17 p0023 A78-11026
- Recent experimental results on high intensity /HI/
edge-illuminated multijunction silicon solar cells
17 p0023 A78-11027
- High intensity solar cell
17 p0023 A78-11028
- Improved performance of solar cells for high
intensity applications
17 p0024 A78-11033
- General principles of calculating multielement
concentrating systems --- solar
collectors
19 p0326 A78-36136
- Intensity dependence of inverse bremsstrahlung
absorption in an inhomogeneous standing wave
19 p0332 A78-37139
- Deviation in solar cell characteristics from their
ideal behaviour
19 p0371 A78-42118

M

MACHINE TOOLS

- Advancing technologies --- Book
18 p0225 A78-31151
- Mechanics of cutting and boring. Part 6:
Dynamics and energetics of transverse rotation
machines
[AD-A045127] 17 p0135 N78-13444

MAGMA

- Stable isotopic studies of Japanese geothermal
systems
17 p0062 A78-11493
- Volcanoes as a source of geothermal energy
17 p0067 A78-13346
- Magma - A potential source of fuels
19 p0311 A78-34398
- The effect of dike intrusion on free convection in
conduction-dominated geothermal reservoirs
19 p0369 A78-42080
- Potential fuel production from magma
[SAND-77-0509] 19 p0403 N78-24383

MAGNESIUM COMPOUNDS

- Automotive hydrogen storage with magnesium hydride
20 p0571 N78-30323

MAGNESIUM OXIDES

- Study of the behavior of periclase materials in
gas flows containing alkali additions --- for
MHD channel linings
19 p0328 A78-36578

MAGNET COILS

- The analysis of superconducting magnet systems for
the M.H.D. energy conversion
18 p0229 A78-31752
- Design for the magnetic field requirements of the
tandem mirror experiment
19 p0349 A78-39889
- Pulsed power conversion with inductive storage ---
compression for superconducting coil fields
19 p0353 A78-39954
- Losses in a coil where the multifilamentary
composite is subjected to simultaneous
orthogonal and parallel induction variations ---
superconducting toroidal field magnet in Tokamak
19 p0356 A78-40008

MAGNETIC CIRCUITS

- Pulse power systems employing inductive energy
storage
17 p0007 A78-10698

MAGNETIC COILS

- Design, construction and operation of the DITE
divertor field system --- Divertor Injection
Tokamak Experiment
17 p0039 A78-11175
- TFTR Toroidal field coil design --- Tokamak Fusion
Test Reactor
19 p0345 A78-39785
- Manufacture, assembly and test of the toroidal and
poloidal magnetic field coils of ASDEX
19 p0345 A78-39789
- Design of the TEXT toroidal and poloidal field coils
--- Texas fusion plasma research tokamak
19 p0345 A78-39790
- The Alcator C magnetic coil systems
19 p0346 A78-39791
- Stress and deflection analysis of the PLT-coil
using ANSYS computer code
19 p0346 A78-39792
- Toroidal field ripple effects in TNS design ---
computer simulation model for Tokamak
19 p0347 A78-39810
- Hybrid equilibrium field coils for the ORNL TNS
19 p0347 A78-39812
- The coil winder for the magnet of the Mirror
Fusion Test Facility
19 p0350 A78-39901
- Potential damage to dc superconducting magnets due
to high frequency electromagnetic waves
19 p0350 A78-39902
- Magnetic forces in the PDX toroidal field coils
19 p0350 A78-39908
- PDX PF power tests --- Princeton Divertor
Experiment tokamak Poloidal Field coil system
19 p0351 A78-39909
- Bending free toroidal shells for tokamak fusion
reactors
19 p0351 A78-39915
- Lateral support structure for constant tension
D-shaped coils in tokamak fusion devices
19 p0351 A78-39916
- Electrical design of TNS --- Next Step tokamak
19 p0351 A78-39918
- General Electric conceptual design of a test coil
for the large coil program --- for
superconducting electromagnet construction
19 p0351 A78-39928
- Pulse coil concepts for the LCP facility --- Large
Coil Program to simulate tokamak coils
19 p0352 A78-39935
- Parametric study of plasma startup systems for
tokamaks
19 p0354 A78-39971
- An apparatus to examine pulsed parallel field
losses in large conductors --- of
superconducting magnetic coils in Tokamak
19 p0355 A78-40006
- Time dependent study of eddy current loss in a
superconducting composite --- for Tokamak
toroidal field coils
19 p0355 A78-40007
- Fast ramp superconductor for ohmic heating coils
--- of Tokamak Next Step reactor
19 p0356 A78-40009
- Superconducting energy storage coils
19 p0356 A78-40010
- Magnetics design for ripple-assisted beam
injection into the ISX-B and TFTR tokamaks
19 p0356 A78-40013
- Using computer graphics to analyze the placement
of neutral-beam injectors for the Mirror Fusion
Test Facility
19 p0357 A78-40026

MAGNETIC CONTROL

- Status and prospects for continued progress in
magnetic fusion energy research and development
18 p0181 A78-24756
- Destruction of magnetic surfaces near a separatrix
of a stellarator attributed to perturbations of
magnetic fields
18 p0217 A78-29433
- Theory of finite-beta-modified drift waves ---
electrostatic microinstabilities in magnetically
confined plasmas
20 p0538 A78-53681

MAGNETIC CORES

Magnetic field computations for ISX using GFUN-3D
 --- Impurity Study experiment iron core tokamak
 computerized design 19 p0356 A78-40019

MAGNETIC DIFFUSION

Eddy current losses and transient magnetic forces
 in pulsed fusion reactors 17 p0039 A78-11172
 Transport calculations for a wall-confined
 liner-compressed plasma 19 p0380 A78-42258

MAGNETIC EFFECTS

Direct energy conversion of exhaust fusion plasma
 by magnetic deflection 19 p0348 A78-39815
 Performance of a turbomolecular pump in a pulsed
 magnetic field --- for controlled fusion
 experiments 19 p0352 A78-39938
 Pulsed power conversion with inductive storage ---
 compression for superconducting coil fields 19 p0353 A78-39954

MAGNETIC FIELD CONFIGURATIONS

The transformer design for a proposed technical
 feasibility Tokamak reactor 17 p0039 A78-11171
 The poloidal field circuit in the Joint European
 Torus /JET/ 17 p0039 A78-11177
 Poloidal field equilibrium calculations for JET
 --- Joint European Torus 17 p0040 A78-11178
 Conceptual design problems in future reversed
 field pinch experiments 17 p0040 A78-11181
 The practical feasibility of a bundle divertor for
 a Tokamak power reactor 17 p0041 A78-11188
 An expression for beta in linked Min-B
 configurations --- fusion reactor economic
 feasibility parameter 18 p0173 A78-22836
 Destruction of magnetic surfaces near a separatrix
 of a stellarator attributed to perturbations of
 magnetic fields 18 p0217 A78-29433
 Heliotron as a D-D fusion reactor - Preliminary
 analysis 18 p0220 A78-30226
 Collapse of Alfvén waves 18 p0224 A78-31008
 Coaxial MHD generator 18 p0229 A78-31751
 The analysis of superconducting magnet systems for
 the M.H.D. energy conversion 18 p0229 A78-31752
 A small tokamak 'Nova II' 19 p0327 A78-36319
 Mode mixing of large scale fluctuations in JFT-2
 tokamak 19 p0332 A78-37147
 Design of the TEXT toroidal and poloidal field coils
 --- Texas fusion plasma research tokamak 19 p0345 A78-39790
 Engineering features of ISX-B --- Tokamak reactor
 design 19 p0347 A78-39802
 Design of an electrostatic end-plugged
 plasma-confinement device 19 p0347 A78-39806
 Toroidal field ripple effects in TNS design ---
 computer simulation model for Tokamak 19 p0347 A78-39810
 Hybrid equilibrium field coils for the ORNL TNS 19 p0347 A78-39812
 Design for the magnetic field requirements of the
 tandem mirror experiment 19 p0349 A78-39889
 Magnetic forces in the PDX toroidal field coils 19 p0350 A78-39908
 PDX PF power tests --- Princeton Divertor
 Experiment tokamak Poloidal Field coil system 19 p0351 A78-39909
 Parametric study of plasma startup systems for
 tokamaks 19 p0354 A78-39971

Poloidal field coil design for a fusion-fission
 breeder reactor 19 p0354 A78-39977

Magnetics design for ripple-assisted beam
 injection into the ISX-B and TFTR tokamaks 19 p0356 A78-40013
 Magnetic field computations for ISX using GFUN-3D
 --- Impurity Study experiment iron core tokamak
 computerized design 19 p0356 A78-40019
 Shear stabilization of collisional drift instability 19 p0369 A78-42022
 Tearing-mode-stable diffuse-pinch configurations
 --- of plasmas 19 p0380 A78-42261
 Cyclotron oscillations of a large-Larmor-radius
 plasma 19 p0380 A78-42262
 Reversed-field pinch-burn dynamics --- of
 contained plasmas 19 p0381 A78-42266
 Reversed-field configuration generated by a
 rotating relativistic electron beam 19 p0382 A78-42492
 Allowing for the action of the yoke of an
 induction MHD-machine by introducing new
 boundary conditions 20 p0497 A78-48558
 Magnetic confinement fusion energy research 20 p0497 A78-48910

MAGNETIC FIELDS

Reconnection of field lines and disruptive
 instability in Tokamaks 17 p0011 A78-10796
 The UHMAR-II study and magnet design 17 p0038 A78-11169
 Numerical methods for studying compressed magnetic
 field generators 17 p0102 A78-18908
 Evaluation of the feedback in MHD conduction
 machines 18 p0167 A78-21397
 High magnetic field MHD generator program
 [FE-2341-1] 18 p0245 A78-16874
 Magnetic confinement fusion energy research
 [COO-3077-143] 18 p0270 A78-19673

MAGNETIC FLUX

Explosive magnetic flux compression plate
 generators as fast high-energy power sources 17 p0008 A78-10705
 Superconducting magnetic energy storage 17 p0074 A78-14649

MAGNETIC INDUCTION

Development of inductive storage for generation of

Fuel gas production from animal waste, phase 1
[COO-2991-17] 18 p0280 N78-21321
- METAL AIR BATTERIES**
An iron-air vehicle battery
18 p0174 A78-23241
- METAL COATINGS**
Analytical investigation of thermal barrier
coatings for advanced power generation
combustion turbines
[ASME PAPER 77-WA/ENER-13] 19 p0298 A78-33151
Solar cell collector
[NASA-CASE-LEW-12552-1] 19 p0419 N78-25527
- METAL COMBUSTION**
Steady metal combustor as a closed thermal energy
source
18 p0233 A78-32141
Metals in the combustible fraction of municipal
solid waste
[PB-272946/5] 18 p0245 N78-16499
- METAL COMPOUNDS**
Sputtered metal silicide solar selective absorbing
surfaces
18 p0221 A78-30303
Metal alkyl grown GaAs solar cells
20 p0521 A78-52810
- METAL CRYSTALS**
Investigation of the electrical characteristics of
low-temperature thermionic power generators
18 p0227 A78-31338
- METAL CUTTING**
Slicing of silicon into sheet material. Silicon
sheet growth development for the large area
silicon sheet task of the low cost silicon solar
array project
[NASA-CR-157080] 19 p0406 N78-24629
- METAL FATIGUE**
Corrosion fatigue of 5086-H34 aluminum in sea water
--- for ocean thermal energy conversion
19 p0305 A78-33344
- METAL FIBERS**
Investigation of the effective thermal
conductivity of metal-fiber wicks in
low-temperature heat pipes
19 p0308 A78-33573
- METAL FILMS**
Solar cells by ionized-cluster beam deposition and
epitaxial techniques
17 p0013 A78-10912
An optimum thickness indicator for evaporating
metals on Schottky barrier solar cells
18 p0182 A78-24967
The role of macrorelief of semiconductor branches
during their commutation in thermoelements ---
semiconductor-metal contacts for thermoelectric
solar batteries
18 p0187 A78-25736
Thin-film black-white coatings for the receivers
of solar energy installations
18 p0215 A78-28897
Thermoelectric power of tin films at low
temperatures
18 p0217 A78-29427
On the role of macrorelief of semiconductor
branches during their commutation in
thermoelements --- semiconductor-metal contacts
for thermoelectric solar batteries
20 p0489 A78-46124
Thin-film black-and-white coatings for solar
energy collectors
20 p0490 A78-46137
- METAL HYDRIDES**
Technical and economic aspects of hydrogen storage
in metal hydrides
17 p0099 A78-18842
The storage of hydrogen in the form of metal
hydrides - An application to thermal engines
17 p0100 A78-18845
Toxicological aspects of the use of hydrogen in
the future as main energy source
17 p0101 A78-18855
Metal hydrides as chemical heat pumps
20 p0500 A78-49645
Solid metal hydrides - Properties relating to
their application in solar heating and cooling
20 p0532 A78-53341
- Storage of hydrogen isotopes in intermetallic
compounds
20 p0532 A78-53342
- Metal hydrides as hydrogen storage media and their
applications
20 p0534 A78-53460
- HYCSOS: A chemical heat pump and energy system
based on metal hydrides
[ANL-77-39] 18 p0238 N78-16334
Metal hydride development program at Brookhaven
National Library
[BNL-23574] 19 p0461 N78-27568
Electrolysis based hydrogen storage system
[BNL-50760] 19 p0462 N78-27580
Reversible metal hydride-air fuel cell
[AD-A056591] 20 p0616 N78-33540
- METAL IONS**
An ionic model for the systematic selection of
chemical decomposition reactions for energy
storage
17 p0051 A78-11307
Ionization and recombination rate coefficients of
highly ionized molybdenum ions from spectroscopy
of tokamak plasmas
19 p0369 A78-42015
- METAL JOINTS**
Study of diffusion processes in low-temperature
thermal elements --- for solar energy conversion
19 p0326 A78-36135
- METAL OXIDE SEMICONDUCTORS**
Single crystal and polycrystalline GaAs solar
cells using AMOS technology
17 p0025 A78-11044
Experimental study of the interface properties of
MOS tunnel devices
17 p0026 A78-11053
Low cost, high efficiency solar cells using
indium-tin oxide on semiconductor /OSOS/ solar
cells
17 p0054 A78-11334
Photo-voltaic properties of metal-oxide-CdS solar
cells
20 p0509 A78-50900
A Schottky-barrier solar cell on sliced
polycrystalline GaAs
20 p0510 A78-51068
The importance of the electron affinity of
oxide-semiconductors as used in solar cells
20 p0537 A78-53653
Impurity concentrations and surface charge
densities on the heavily doped face of a silicon
solar cell
17 p0136 N78-13534
Innovations in microelectronics and solid state at
North Carolina Agricultural and Technical State
University
18 p0237 N78-16280
Solar cell collector
[NASA-CASE-LEW-12552-1] 19 p0419 N78-25527
- METAL OXIDES**
Fabrication of OSOS cells by neutral ion beam
sputtering --- Oxide Semiconductor On Silicon
solar cells
17 p0027 A78-11062
Oxide ceramics for electrodes on open-cycle MHD
generators
19 p0328 A78-36556
Thermoelectric power and ac conductivity of A-type
Nd2O3
19 p0332 A78-36964
- METAL PARTICLES**
Optimization of particulate type selective solar
absorber
17 p0044 A78-11233
Selective absorption of solar energy in ultrafine
chromium particles
17 p0070 A78-13785
Ultrafine chromium particles for photothermal
conversion of solar energy
19 p0339 A78-38553
Selective absorption of solar energy in granular
metals - The role of particle shape
19 p0369 A78-41910
- METAL PLATES**
Explosive magnetic flux compression plate
generators as fast high-energy power sources
17 p0008 A78-10705

Metallographic analysis of a steel plate which failed in service in a coal gasifier
17 p0077 A78-15354

METAL POWDER
Coatings of ultrafine chromium particles - Efficient selective absorbers of solar energy
17 p0106 A78-20117
Methanation catalysts: Activity, adsorption and degradation studies of nickel and nickel bimetallic catalysts for methanation
20 p0611 N78-33161

METAL SHEETS
A sheet-metal roof as a solar absorber
18 p0179 A78-24344
Floating substrate process: Large-area silicon sheet task low-cost solar array project
[NASA-CR-157759]
20 p0612 N78-33265

METAL SHELLS
The mechanical structure of the Joint European Torus
17 p0040 A78-11182
Design aspects of a large toroidal stabilizing shell and vacuum liner assembly
17 p0040 A78-11184
Large-scale thermal energy storage using sodium hydroxide /NaOH/
17 p0051 A78-11309

METAL SURFACES
Optical properties of selectively absorbing metal/insulator composite films
19 p0324 A78-36032
Experimental studies of selective coatings for solar energy collectors
19 p0375 A78-42151
Development of selective solar surfaces
19 p0375 A78-42152
Investigation of plasma-wall interaction by the aid of a plasma accelerator
19 p0379 A78-42218
Materials compatibility problems in magnetic fusion energy - A review
20 p0480 A78-44107
Test data on electrical contacts at high surface velocities and high current densities for homopolar generators
[CONF-771029-121]
19 p0467 N78-27924

METAL VAPOR LASERS
Sodium vapor heat pipe laser cell
[AIAA 78-3921]
19 p0317 A78-35587

METALLIZING
Solar energy reflector using metallised polystyrene
19 p0371 A78-42110

METALLURGY
Solar power plant with folding concentrator for carrying out industrial processes in space
20 p0537 A78-53519
Energy considerations in electrohydrometallurgy [IS-M-83]
17 p0120 N78-11505
Metallurgical studies of high temperature alloy capsules after long time cyclic corrosion tests as containers for lithium fluoride
[GMP-2690-SECT-7.109]
19 p0440 N78-26335

METALS
Problem of the vulnerability of materials to radiation in relation to atomic and thermonuclear power engineering
18 p0180 A78-24748
Environmental transport model of heavy metals
18 p0215 A78-28946
A baseline of logistic and power requirements for full-scale manufacturing of metallic materials in earth orbit
[AAS 77-237]
19 p0329 A78-36712
A baseline of logistic and power requirements for full-scale manufacturing of metallic materials in earth orbit
[AAS 77-237]
20 p0475 A78-43881
A home central electric system
[NASA-TM-75084]
17 p0159 N78-15561
Two-phase working fluids for the temperature range 50 to 350 C
[NASA-CR-135255]
18 p0238 N78-16329
Metals in the combustible fraction of municipal solid waste
[PB-272946/5]
18 p0245 N78-16499
Materials technology assessment for Stirling engines
20 p0570 N78-30318
High performance metal/air fuel cells. Part 1: General review
[UCID-17558-PT-1]
20 p0594 N78-31549

METEORITIC DAMAGE

Buried impact craters in the Williston Basin and adjacent area --- as possible oil field sites
20 p0480 A78-44047

METEOROLOGICAL INSTRUMENTS

Solar radiation and energy measurements --- solar cell meter for meteorological monitoring
17 p0009 A78-10732

METEOROLOGICAL PARAMETERS

Characterization of terrestrial service environments - The simultaneous occurrence of combined conditions of solar insolation and climatic variables
17 p0049 A78-11283

Estimation of availability of solar energy
17 p0049 A78-11285

Concentration by conical and cylindrical concentrators of radiation scattered by near-solar regions of the sky
17 p0064 A78-12387

Classification of methods for controlling the productivity of wind and solar power stations
18 p0187 A78-25737

Solar energy availability prediction from climatological data
18 p0199 A78-27854

Meteorology and wind energy utilization
18 p0210 A78-28558

The effect of certain major parameters on the annual effectiveness of solar systems for residential dwellings
[ASME PAPER 77-WA/SOL-3]
19 p0299 A78-33191

On the relation between insolation and climatological variables. III - The relation between normal incidence solar intensity, total insolation, and weather at Fort Hood, Texas. IV - Construction of a model year of solar intensity and climate
19 p0322 A78-35781

Pocone and foci line concentration of radiation scattered by circumsolar parts of the sky
19 p0331 A78-36864

Classification of wind and solar power plant output regulation modes
20 p0489 A78-46125

Intraregional variations of solar radiation in the eastern United States
20 p0514 A78-51926

Estimates of the number of large amplitude gusts [PNL-2508]
20 p0610 N78-32649

METEOROLOGICAL SERVICES

Estimating the energy conservation potential of ventilation control through weather data analysis [PB-273949/8]
18 p0261 N78-18655

METEOROLOGY

Wind energy mission analysis, appendices A-J [COO-2578-1-3]
17 p0152 N78-14647

The quality of NOAA's ocean research and development program: An evaluation [PB-277095/6]
18 p0290 N78-21980

METEOSAT SATELLITE

Improved mesh interconnector technology for the Meteosat solar array
17 p0016 A78-10957

METHANE

Biomass as an energy mechanism
17 p0033 A78-11116

Methane production from waste
17 p0037 A78-11144

Quenching of nitric-oxide formation in methane-air flames by secondary-air injection
17 p0081 A78-16338

Current and future fuels for transport aircraft
17 p0096 A78-18669

Biomass - Progress and plans --- fermentation, thermochemical conversion and methane production
18 p0182 A78-24764

A shock tube study of the ignition delay of methane at elevated temperatures
18 p0199 A78-27831

Possibilities of biomass from the ocean - The Marine Farm Project
18 p0208 A78-28362

A critical analysis of bioconversion with microalgae --- methane production
18 p0208 A78-28364

The biogas facility at Benediktbeuern
18 p0221 A78-30323

- Research in a pre-vaporization combustion chamber on natural gas in liquid and gaseous states 19 p0323 A78-35897
- Study of the thermodynamics of coal gasification 19 p0337 A78-38200

MICROBALANCES

American Vacuum Society, National Symposium, 24th,
and Conference on Microbalance Techniques, 15th,
Boston, Mass., November 8-11, 1977, Proceedings
19 p0324 A78-36030

MICROCHANNELS

Microchannel plate response to hard X-rays --- for
imaging recompression beam fuel pellet implosion
19 p0360 A78-40267

MICROCLIMATOLOGY

Building application of solar energy. Study no.
2: Representative buildings for solar energy
performance analysis and market penetration
[NASA-CR-155325] 17 p0125 N78-12527

MICROCRACKS

Microcrack technology for geothermal exploration
and assessment
[PB-271940/9] 17 p0157 N78-14725

MICROELECTRONICS

Specialized complex electromechanical systems -
Computer and microelectronics technology in
control systems /Some results of the
International Electrotechnology Congress -
Moscow, 1977/
19 p0325 A78-36129
Innovations in microelectronics and solid state at
North Carolina Agricultural and Technical State
University
18 p0237 N78-16280

MICROORGANISMS

Investigation of converting the product of coal
gasification to methane by the action of
microorganisms, phase 1
[FE-2203-16] 18 p0280 N78-21319

MICROPARTICLES

Implosion experiments with D2, He-3 filled
microspheres
18 p0235 A78-32440

MICROPHONES

Probe-tube microphone for pressure-fluctuation
measurements in harsh environments
17 p0077 A78-15155

MICROPROCESSORS

The microprocessor controlled and instrumented
solar energy project
17 p0091 A78-17556
A microprocessor-based control system for solar
heated/cooled residential dwellings
18 p0176 A78-23896
Microprocessor-based solar cell measurement system
19 p0365 A78-40919
Preliminary design package for RS600
microprocessor control subsystem
[NASA-CR-150628] 19 p0405 N78-24611
RS-600 programmable controller: Solar heating and
cooling
[NASA-CR-150744] 20 p0562 N78-29579

MICROSEISMS

Microseisms in geothermal exploration: Studies in
Grass Valley, Nevada
20 p0587 N78-30746

MICROSTRUCTURE

Ceramic microstructures '76: With emphasis on
energy related applications; Proceedings of the
Sixth International Materials Symposium,
University of California, Berkeley, Calif.,
August 24-27, 1976
17 p0088 A78-17451
Study of diffusion processes in low-temperature
thermal elements --- for solar energy conversion
19 p0326 A78-36135

MICROWAVE ATTENUATION

Estimates of satellite-to-earth microwave
attenuation by cloud, rain, oxygen, and water
vapor
[AD-A052581] 19 p0404 N78-24431

MICROWAVE CIRCUITS

Recent advances in solid state microwave devices
20 p0511 A78-51528

MICROWAVE SCATTERING

Ion-cyclotron instability in the TFR tokamak
19 p0369 A78-42016

MICROWAVE TRANSMISSION

The potential of satellite solar power
17 p0002 A78-10411
Solar power satellite status report
17 p0097 A78-18750
New developments in electromagnetic energy beaming
18 p0224 A78-30883

The beamed power microwave transmitting antenna
19 p0340 A78-38841
Solar power satellite developments
20 p0511 A78-51490
Solar-cell power supplies for radio communication
and TV broadcasting equipment
20 p0527 A78-52892
Microwave power converter
[NASA-CASE-NPO-14068-1] 18 p0264 N78-19609
Solar power satellite system definition study.
Part 2, volume 4: Microwave power transmission
systems
[NASA-CR-151668] 18 p0271 N78-20158
Space solar power. Description of concept,
results of preliminary studies, requirements for
evaluation
[NASA-TM-79436] 18 p0284 N78-21611
Solar power satellites
[NASA-TM-79434] 18 p0284 N78-21612
Satellite Power System (SPS) concept development
and evaluation program plan, July 1977 - August
1980
[NASA-TM-79400] 20 p0563 N78-29593
Ionosphere/microwave beam interaction study
[NASA-CR-151821] 20 p0579 N78-30475
Design, fabrication and testing of a CFA for use
in the solar power satellite
[NASA-CR-159410] 20 p0589 N78-31143
Microwave electric power transmission. A
bibliography with abstracts
[NTIS/PS-78/0580/7] 20 p0590 N78-31379
Research plan for study of biological and
ecological effects of the solar power satellite
transmission system
[NASA-CR-30444] 20 p0603 N78-32316
MICROWAVE TUBES
Design, fabrication and testing of a CFA for use
in the solar power satellite
[NASA-CR-159410] 20 p0589 N78-31143
MICROWAVES
Proposed high-power microwave source using a
superconducting cavity as an energy storage
[IPPJ-T-30] 18 p0240 N78-16436
MILITARY AIRCRAFT
Research needs for U.S. Army aircraft propulsion
[AIAA PAPER 78-45] 18 p0172 A78-22558

Executive summary
[AD-A055213] 20 p0605 N78-32552
MILITARY TECHNOLOGY
Military applications of solar cell power
17 p0022 A78-11018
DOD photovoltaic energy conversion systems market
inventory and analysis, volume 2
[PB-273970/4] 18 p0243 N78-16470
MINERAL DEPOSITS
Geothermal energy utilization --- Book
18 p0198 A78-27824
Underground mineral extraction
[NASA-CASE-NPO-14140-1] 19 p0403 N78-24387
Bibliography of New Mexico geology and mineral
technology, 1971-1975
[PB-278348/8] 19 p0451 N78-26699
Western gas sands project
[NVO/0655-100] 20 p0563 N78-29597
A study of alteration associated with uranium
occurrences in sandstone and its detection by
remote sensing methods, volume 1 --- spectral
reflectance of rocks in Utah and Wyoming
[NASA-CR-157600] 20 p0591 N78-31511
A study of alteration associated with uranium
occurrences in sandstone and its detection by
remote sensing methods, volume 2 --- spectral
reflectance of rocks in Utah and Wyoming
[NASA-CR-157601] 20 p0591 N78-31512
Remote sensing of strippable coal reserves and
mine inventory in part of the Warrior Coal Field
in Alabama
[NASA-CR-150781] 20 p0603 N78-32520
MINERAL EXPLORATION
Industrial use of geological remote sensing from
space
17 p0075 A78-14787
Landsat detection of hydrothermal alteration in
the Nogal Canyon Cauldron, New Mexico
17 p0075 A78-14815

Remote-sensing applications for mineral exploration
 --- Book 20 p0532 A78-53376

Foreseeable energy and mineral resource problems
 --- remote sensors for resource exploration and management 20 p0532 A78-53377

Exploration for fossil and nuclear fuels from orbital altitudes 20 p0533 A78-53382

The role of remote sensing for energy development 20 p0533 A78-53383

Tectonic atlas of uranium potential in crystalline rocks of the eastern US [GJBX-69(77)] 19 p0400 N78-23666

MINERAL OILS
 Occupational exposure to refined petroleum solvents. Criteria for a recommended standard [DHEW/PUB/NIOSH-77/192] 19 p0412 N78-24790

MINERALOGY
 Hydrothermal alteration in active geothermal fields 19 p0339 A78-38770

MINERALS
 The physical transformation of the mineral matter in pulverized coal under simulated combustion conditions 17 p0079 A78-15834

Effect of coal minerals on reaction rates during coal liquefaction 18 p0190 A78-26579

Effects of coal minerals on the hydrogenation, desulfurization, and solvent extraction of coal 18 p0229 A78-31870

Geological and geothermal data use investigations for application explorer mission-A: Heat capacity mapping mission [E78-10092] 18 p0263 N78-19570

A summary of the users perspective of LANDSAT-D and reference document of LANDSAT users [E78-10208] 20 p0591 N78-31506

MINES (EXCAVATIONS)
 Developing an experimental oil shale mine 17 p0032 A78-11107

The engineering properties of Texas lignite and associated rocks in relation to the stability of an in situ gasification chamber 17 p0071 A78-14072

The application of LANDSAT-1 imagery for monitoring strip mines in the new river watershed in northeast Tennessee, part 2 [E78-10032] 17 p0125 N78-12506

Geology and gas content of coalbeds in vicinity of bureau of mines, Bruceton, Pa. [PB-271875/7] 17 p0145 N78-13624

Onsite control of sedimentation utilizing the modified block-cut method of surface mining [PB-272244/5] 17 p0159 N78-15552

Preliminary evaluation of sulfur variability in low-sulfur coals from selected mines [PB-275000/8] 18 p0261 N78-18566

Preliminary study of the favorability for uranium in selected areas in the Basin and Range Province, Nevada [GJBX-74(77)] 19 p0391 N78-22534

Advancing coal mining technology research, development, and demonstration in fiscal year 1977 [PB-278001/3] 19 p0456 N78-27511

A closed network queue model of underground coal mining production, failure, and repair [NASA-CR-157554] 20 p0580 N78-30636

Remote sensing of strippable coal reserves and mine inventory in part of the Warrior Coal Field in Alabama [NASA-CR-150781] 20 p0603 N78-32520

Projects to expand fuel sources in Eastern states: An update of Information Circular 8725. Survey of Planned or proposed coal mines, coal and noncoal conversion plants, electric generating plants, oil refineries, uranium enrichment facilities, and related infrastructure, in states east of the Mississippi River (as of July 1977) [BM-IC-8765] 20 p0621 N78-33581

MINICOMPUTERS
 CODAS - The proposed control and data acquisition system for JET --- Joint European Torus 19 p0355 A78-39986

MINIMAX TECHNIQUE
 Optimum testing period for new thermomechanical equipment 18 p0225 A78-31245

MINING
 Some opportunities in teleoperated mining 18 p0222 A78-30507

An assessment of overburden stability in the in-situ gasification of Texas lignite 20 p0496 A78-48550

Underground coal gasification 20 p0517 A78-52721

Sampling of water and wastewater [PB-272664/4] 17 p0163 N78-15957

Underground mineral extraction [NASA-CASE-NPO-14140-1] 19 p0403 N78-24387

A life-cycle description of underground coal mining [NASA-CR-157346] 20 p0548 N78-28586

Implementation of Public Law 95-87 [GPO-28-863] 20 p0556 N78-28990

Oil shale mining, processing, uses, and environmental impacts, volume 2. Citations from the NTIS data base [NTIS/PS-78/0423/0] 20 p0560 N78-29551

Oil shale mining, processing, uses, and environmental impacts, volume 2. Citations from the engineering index data base [NTIS/PS-78/0424/8] 20 p0560 N78-29552

The relative costs of producing syncrude from oil shales of various grades under varying conditions [ERG-022] 20 p0589 N78-31268

Projects to expand fuel sources in eastern states: Survey of planned or proposed coal mines, coal and noncoal conversion plants, electric generating plants oil refineries, uranium enrichment facilities, and related infrastructure, in states east of the Mississippi River [PB-281249/3] 20 p0609 N78-32590

MINNESOTA
 Energy emergency conservation and allocation plan [PB-274492/8] 18 p0270 N78-19675

Energy consumption of advanced wastewater treatment at Ely, Minnesota [PB-278270/4] 19 p0452 N78-26998

MINORITY CARRIERS
 MIS solar cell calculations 17 p0024 A78-11039

Large open-circuit photovoltages in silicon minority carrier MIS solar cells 17 p0025 A78-11046

Diffusion length measurement by a simple photoresponse technique --- for MIS and Schottky barrier solar cells 17 p0026 A78-11050

Influence of junction roughness on solar-cell characteristics 17 p0075 A78-14745

The efficiency of grating solar cells 18 p0178 A78-24131

Solar cell behaviour under variable surface recombination velocity and proposal of a novel structure 19 p0334 A78-37469

Minority carrier lifetime measurement of silicon solar cell 19 p0335 A78-37903

Effect of minority carrier diffusion length on efficiency of Schottky barrier solar cell 19 p0373 A78-42129

A collection-velocity model for predicting efficiency of Schottky barrier solar cells 20 p0521 A78-52805

MIRRORS
 Lens-mirror combinations with maximal concentration --- evaluated for solar energy applications 17 p0001 A78-10170

Mirrors for solar energy application 17 p0045 A78-11242

Optical analysis of the Fixed Mirror/Distributed Focus /PMDF/ solar energy collector 17 p0059 A78-11377

Concentrating collectors --- for solar energy conversion 18 p0200 A78-27859

Solar furnaces 18 p0200 A78-27861

- Determination of the geometrical concentration of a solar collector using a spherical mirror

- MOIRE EFFECTS**
- The development and use of the moire method in solar engineering problems
18 p0187 A78-25731
- Development and application of the moire method in solar engineering problems
20 p0489 A78-46120

MOLECULAR BEAMS

Molecular-beam epitaxy in space 17 p0103 A78-19472

MOLECULAR DIFFUSION

Optically thin diffusion barriers enhance the life of metal/metal oxide selective surfaces 17 p0045 A78-11241

Models for impurity production and transport in tokamaks 19 p0379 A78-42217

MOLECULAR EXCITATION

Power deposition in volumetric /U-235/F6-He fission-pumped nuclear lasers 18 p0235 A78-32436

MOLECULAR PUMPS

Performance of a turbomolecular pump in a pulsed magnetic field --- for controlled fusion experiments 19 p0352 A78-39938

MOLECULAR WEIGHT

Investigations of the effects of shear degradation on the rheological behavior of ultra-high molecular weight water soluble polymers as applied to enhance oil recovery 18 p0237 A78-16171

MOLTEN SALT ELECTROLYTES

Demand sensitive energy storage in molten salts 18 p0220 A78-30264

Optical properties of solar-absorbing oxide particles suspended in a molten salt heat transfer fluid 19 p0312 A78-34513

Eutectic mixtures for solar heat storage 20 p0487 A78-45742

Molten carbonate fuel cell research at ORNL [ORNL/TM-5886] 17 p0151 A78-14639

Molten salt thermal energy storage systems [NASA-CR-135419] 19 p0405 A78-24618

Molten carbonate fuel cell research at ORNL. 2: Theoretical and experimental transport studies, thermochemistry, and electron microscopy [ORNL/TM-6168/V2] 19 p0448 A78-26601

Molten-salt thermal-energy storage systems [CONF-770955-3] 19 p0460 A78-27556

Physical properties data compilations relevant to energy storage. 1. Molten salts: Eutectic data --- bibliography [PB-280795/6] 20 p0598 A78-31589

MOLTEN SALTS

Production of low-Btu gas from wastes, using molten salts 18 p0197 A78-27804

MOLYBDENUM

Ionization and recombination rate coefficients of highly ionized molybdenum ions from spectroscopy of tokamak plasmas 19 p0369 A78-42015

MOLYBDENUM COMPOUNDS

Deactivation and attrition of Co-Mo catalyst during H-Coal operations --- coal gasification and liquefaction 18 p0190 A78-26582

MOLYBDENUM OXIDES

Thermodynamic studies of some electrode materials --- thermochemistry of oxide bronzes 20 p0531 A78-53335

MOLYBDENUM SULFIDES

Hydrogenation of phenanthrene over a commercial cobalt molybdenum sulfide catalyst under severe reaction conditions --- hydrocarbon fuel from coal liquefaction 18 p0190 A78-26580

MON (SEMICONDUCTORS)

Optically thin diffusion barriers enhance the life of metal/metal oxide selective surfaces 17 p0045 A78-11241

MOMENTS OF INERTIA

A variable inertia flywheel as an energy storage system 20 p0592 A78-31529

MOMENTUM THEORY

Momentum theory and flow states for windmills 18 p0234 A78-32420

MOMENTUM TRANSFER

A cross flow wind turbine 18 p0169 A78-22233

A wind energy conversion system based on the tracked vehicle airfoil concept 18 p0169 A78-22234

MONITORS

Design review package for the on-site monitor for solar heating and cooling systems [NASA-CR-150590] 18 p0275 A78-20611

Loose-parts monitoring: Present status of the technology, its implementation in US reactors, and some recommendations for achieving improved performance [CONF-770902-5] 18 p0282 A78-21483

Monitoring solar radiation for solar energy 20 p0542 A78-28502

MONTANA

Microcrack technology for geothermal exploration and assessment [PB-271940/9] 17 p0157 A78-14725

Legislative handbook on energy-related topics [PB-276766/3] 19 p0390 A78-22477

Bell Creek Field micellar-polymer pilot demonstration [BERC/TPR-77/13] 19 p0413 A78-25226

The bioenvironmental impact of a coal-fired power plant, Colstrip, Montana, December 1977 [PB-280326/0] 20 p0587 A78-30736

MOORING

Cold water transport, cold water pipe, and deep water mooring line analysis - A parametric approach --- for Ocean Thermal Energy Conversion 19 p0303 A78-33327

MOTOR VEHICLES

The technical evaluation of transport drive systems 17 p0067 A78-13422

Improving the emission performance of vehicles in the field [APCA PAPER 77-3,4] 18 p0184 A78-25386

Development of the experimental gas turbine bus 20 p0508 A78-50601

Advantages of 3-shaft KTT gas turbine configurations for automotive applications 20 p0508 A78-50602

Hybrid drive for motor vehicles with a preponderantly intermittent method of operation [NASA-TM-75215] 17 p0124 A78-12418

Priority treatment for high occupancy vehicles: Project status report --- bus and carpool lanes [PB-270529/1] 17 p0129 A78-12907

Typical vehicle diurnal [PB-270690/1] 17 p0145 A78-13633

Shift schedules for emissions and fuel economy testing [PB-274865/5] 18 p0261 A78-18594

State-of-the-art assessment of electric vehicles and hybrid vehicles [NASA-TM-73756] 18 p0262 A78-18988

Transit bus propulsion systems alternate power plant installation [PB-276612/9] 19 p0387 A78-22385

Alternative fuels utilization program [UCID-17645] 19 p0414 A78-25241

Energy losses in heavy commercial vehicles [PB-277354] 19 p0417 A78-25434

Inducing the development and adoption of socially efficient automotive technology [PB-279454/3] 20 p0559 A78-29465

The development of 40-150 kw Stirling engines in Sweden and their application in mining equipment, total energy systems and road vehicles 20 p0573 A78-30346

Development of a compact gas generator for fuel gasification aboard a motor vehicle 20 p0573 A78-30367

Automotive emissions --- fuel consumption and life cycle costs of Post Office vehicles 20 p0574 A78-30371

Alternative fuels with regard to LPG and methanol --- urban transportation 20 p0576 A78-30392

Hybrid heat engine propulsion of urban buses 20 p0578 A78-30405

Electric and hybrid-vehicle power-train development 20 p0578 A78-30406

Study of exhaust emissions from 1966 through 1976 model-year light-duty vehicles in Denver, Chicago, Houston and Phoenix [PB-280725/3] 20 p0610 A78-32611

MULTIPHASE FLOW

A dispersion model for the Solvent Refined Coal process 18 p0230 A78-31871

MUTATIONS

- Mutational analysis of *Chlamydomonas reinhardtii* -
Application to biological solar energy conversion
18 p0207 A78-28357

N

N-P-N JUNCTIONS

- Solar cell behaviour under variable surface
recombination velocity and proposal of a novel
structure
19 p0334 A78-37469
- Silicon double solar cell --- differential
irradiation response of N+/P/N+ structure
20 p0525 A78-52865

N-TYPE SEMICONDUCTORS

- Analysis of epitaxial drift field N on P silicon
solar cells

20 p0611 A78-33161

NICKEL ALLOYS

Electron emission from nickel-alloy surfaces in cesium vapor

18 p0188 A78-26112

Advanced processing techniques for the manufacture of nickel-base alloy discs from powder

20 p0494 A78-47474

Analysis of the failure of the nickel tank used for LiOH thermal energy storage for the Calvaix automobile

[GMR-2690-SECT-7.106] 19 p0440 N78-26332

Methanation activity of Raney nickel catalysts: Effect of proportion of NiAl₃ and Ni₂Al₃ in precursor alloys

[PB-279656/3] 20 p0557 N78-29198

NICKEL CADMIUM BATTERIES

Alternate power sources session: Nuclear battery hybrid configuration study

[AD-A055182] 20 p0593 N78-31546

NICKEL COATINGS

Some experimental results on selective absorbing surfaces for low temperature solar collectors

--- electroplated black nickel coatings

[DLR-FB-77-23] 17 p0156 N78-14686

Performance evaluation of two black nickel and two black chrome solar collectors

[NASA-CR-150497] 18 p0249 N78-17470

Selective coating for solar panels --- using black chrome and black nickel

[NASA-CASE-LEW-12159-1] 18 p0263 N78-19599

Some experimental results on selective absorbing surfaces for low temperature solar collectors

--- electroplated black nickel coatings

[ESA-TT-432] 19 p0390 N78-22482

NICKEL COMPOUNDS

The utilization of LaNi₅ as a hydrogen-storage medium for heat engines

18 p0233 A78-32193

Design and cost study of a nickel-iron oxide battery for electric vehicles. Volume 2: Public report

[ANL-K-3723-1] 20 p0594 N78-31551

NICKEL HYDROGEN BATTERIES

NTS-2 nickel hydrogen battery performance --- Navigation Technology Satellite

[AIAA 78-536] 19 p0294 A78-32885

NICKEL ZINC BATTERIES

Design and cost study of nickel-zinc batteries for electric vehicle

[ANL-K-76-3541-1] 17 p0114 N78-10585

Electric vehicle propulsion batteries: Design and cost study for nickel/zinc battery manufacture, task A

[ANL-K-77-3542-1] 17 p0142 N78-13594

Develop nickel-zinc battery suitable for electronic vehicle propulsion. Task A: Design and cost study

[ANL-K-77-3558-1] 17 p0143 N78-13607

Rapid, efficient charging of lead-acid and nickel-zinc traction cells

[NASA-TM-78901] 19 p0405 N78-24616

NIOBIUM ALLOYS

Development and fabrication of a diffusion welded Columbian alloy heat exchanger --- for space power generation

[AIME PAPER A78-61] 18 p0228 A78-31500

NITINOL ALLOYS

Nitinol engine development --- Ni-Ti alloy for thermal-to-mechanical energy converter

17 p0056 A78-11348

NITRIC ACID

Nitric acid cycle process for extracting thermal energy from low-level heat sources --- for Ocean Thermal Energy Conversion

19 p0315 A78-35171

NITRIC OXIDE

Quenching of nitric-oxide formation in methane-air flames by secondary-air injection

17 p0081 A78-16338

Nitric oxide formation in hydrocarbon-air flames

18 p0199 A78-27834

Formation and growth of thermal NO_x in hydrocarbon combustion

18 p0227 A78-31498

Fundamentals of nitric oxide formation in fossil fuel combustion

[FE-2018-5] 17 p0130 N78-13175

NITRIDES

Materials for fuel cells

[PB-269518/7] 17 p0113 N78-10573

NITROGEN

Physiological studies of nitrogen fixation by blue-green algae

17 p0128 N78-12647

Preliminary performance tests of a GPU-3 Stirling engine on hydrogen, helium, and nitrogen

[GMR-2690-SECT-1.206] 19 p0438 N78-26256

NITROGEN COMPOUNDS

Combined gas chromatographic-mass spectrometric analyses of nitrogen bases in light oil from a coal liquefaction product

19 p0363 A78-40594

Characterization of nitrogen compounds in tar produced from underground coal gasification

19 p0368 A78-41814

NITROGEN OXIDES

NO_x-O₃ photochemistry in power plant plumes - Comparison of theory with observation

17 p0001 A78-10059

Physical mechanisms governing the oxidation of volatile fuel nitrogen in pulverized coal flames

17 p0078 A78-15828

Reactions of fuel-nitrogen compounds under conditions of inert pyrolysis

18 p0173 A78-22822

Character and transformation of pollutants from major fossil-fuel energy sources

[APCA PAPER 77-15,1] 18 p0185 A78-25406

Formation and growth of thermal NO_x in hydrocarbon combustion

18 p0227 A78-31498

Further studies with a hydrogen engine

[SAE PAPER 780233] 19 p0307 A78-33381

Evaluation of NO_x/emission characteristics of alcohol fuels for use in stationary combustion systems

19 p0321 A78-35705

Performance and NO_x/emissions of spark ignited combustion engines using alternative fuels - Quasi one-dimensional modeling. I - Hydrogen fueled engines

19 p0333 A78-37299

The effect of burner design and operational factors on the emission of nitrogen oxides when burning an anthracite/slurry mixture

19 p0335 A78-37861

Reducing nitrogen oxides in the flue gases from gas/oil-fired boilers at high-capacity power stations

19 p0335 A78-37862

The reduction of nitrogen oxide emission in oil-burning installations

20 p0469 A78-43402

Emission control technology for sulphur oxides and nitrogen oxides from flue gases in Japan

20 p0474 A78-43748

Mathematical modelling of dispersion and chemical reactions in a plume - Oxidation of NO to NO₂ in the plume of a power plant

20 p0489 A78-46028

Visual impact of plumes from power plants - A theoretical model

20 p0489 A78-46051

Performance and NO_x emissions of spark ignited combustion engines using alternative fuels - Quasi one-dimensional modeling. II - Methanol fueled engines

20 p0516 A78-52548

Reduction of nitrogen oxide emissions from field operating package boilers, phase 3

[PB-269277/0] 17 p0121 N78-11526

Burner design criteria for NO_x control from low-Btu gas combustion. Volume 1: Ambient fuel temperature

[PB-272614/9] 17 p0163 N78-15607

Standards support and environmental impact statement. Volume 2: Promulgated standards of performance for lignite-fired steam generators

[PB-279008/7] 19 p0466 N78-27621

Hydrogen engine NO_x control by water induction

20 p0575 N78-30377

Control techniques for nitrogen oxides emissions from stationary sources - second edition

[PB-280034/0] 20 p0599 N78-31612

NITROGEN TETROXIDE

Characteristics of the utilization of N2O4 in
solar gas-turbine power plants 19 p0335 A78-37947

NOAA SATELLITES

The quality of NOAA's ocean research and
development program: An evaluation
[PB-277095/6] 18 p0290 N78-21980

NOBLE METALS

Development of catalysts for exhaust emission
control 20 p0574 N78-30372

NOCTURNAL VARIATIONS

Nocturnal boundary-layer wind maxima and the
problem of wind power assessment 18 p0179 A78-24314

NOISE INTENSITY

Solar power satellite system definition study.
Part 2, volume 8: SPS launch vehicle ascent and
entry sonic overpressure and noise effects
[NASA-CR-151672] 18 p0272 N78-20163

NONAQUEOUS ELECTROLYTES

Solid electrolyte and elevated temperature water
electrolysis 17 p0098 A78-18832

The development of beta-alumina for use in
electro-chemical cells - A survey 20 p0498 A78-49288

The influence of the composition of the solution
on GaAs-electrolyte photovoltaic cell
characteristics 20 p0526 A78-52879

New solid electrolytes --- for fast alkali-ion
transport 20 p0531 A78-53336

Polarizability enhancement of ionic conductivity
for A⁺/ in A⁺/M2X6 series --- for fast ion
transport 20 p0531 A78-53337

The sodium-sulfur battery - Problems and promises
20 p0531 A78-53338

Metal chalcogenides as reversible electrodes in
nonaqueous lithium batteries 20 p0537 A78-53502

NONDESTRUCTIVE TESTS

Nondestructive evaluation needs for coal
liquefaction
[ANL-77-61] 19 p0426 N78-25606

NONEQUILIBRIUM PLASMAS

Stability of nonequilibrium plasmas 17 p0063 A78-12352

Two-dimensional analysis of a diagonal-type
nonequilibrium plasma MHD generator 17 p0073 A78-14274

Calculation of electron heating in a
nonequilibrium MHD channel 18 p0193 A78-27133

Stability of nonequilibrium plasma 19 p0291 A78-32575

Coal fired non-equilibrium, Closed Cycle MHD/steam
power generation
[ASME PAPER 77-WA/ENER-8] 19 p0298 A78-33146

Nonequilibrium processes under conditions of
T-layer formation --- in MHD generator 20 p0483 A78-44535

Electron heating in channel of nonequilibrium
magnetohydrodynamic generators 20 p0486 A78-45654

The physics of MHD generators 20 p0515 A78-52076

NONFERROUS METALS

The significance of domestic refuse recycling for
raw material requirements and energy consumption
of the nonferrous metals industry 19 p0332 A78-36945

NONLINEAR EQUATIONS

Non-linear saturation of the trapped-ion mode by
mode coupling in two dimensions 20 p0538 A78-53683

NONLINEAR SYSTEMS

Non-linear analysis of solar-cells-series resistance
20 p0526 A78-52869

NONNEWTONIAN FLUIDS

Transient flow of non-Newtonian power-law fluids
in porous media 20 p0613 N78-33374

NONUNIFORM FLOW

Effect of flow inhomogeneity on plasma instability
near a channel wall 17 p0002 A78-10245

NONUNIFORM PLASMAS

The effect of coherent structures on open-cycle
generators
[AIAA PAPER 78-1173] 19 p0368 A78-41870
Nonequilibrium processes under conditions of
T-layer formation --- in MHD generator 20 p0483 A78-44535

NORTH CAROLINA

Innovations in microelectronics and solid state at
North Carolina Agricultural and Technical State
University 18 p0237 N78-16280

NORTH DAKOTA

Legislative handbook on energy-related topics
[PB-276766/3] 19 p0390 N78-22477

NORTH SEA

Offshore oil pollution
[STP21-A76054] 17 p0122 N78-11535

Study of satellite communications system serving
off-shore oil and gas exploitation activities in
European sea areas, volume 1 --- forecasting
offshore structures and requirements based on ECS
[CWJ1/C-640003-VOL-1] 17 p0134 N78-13308

Study of satellite communications system serving
off-shore oil and gas exploitation activities in
European sea areas, volume 2 --- transmission
system analysis
[CWJ1/C-640003-VOL-2] 17 p0134 N78-13309

Study of satellite communications system serving
off-shore oil and gas exploitation activities in
European sea areas, volume 3
[CWJ1/C-640003-VOL-3] 17 p0134 N78-13310

Study of satellite communications system serving
off-shore oil and gas exploitation activities in
European sea areas, volume 4
[CWJ1/C-640003-VOL-4] 17 p0134 N78-13311

Study of satellite communications system serving
off-shore oil and gas exploitation activities in
European sea areas. Volume 5: Summary
[CWJ1/C-640003-VOL-5-SUMM] 17 p0134 N78-13312

NOSTOC

Isoprenoid hydrocarbons produced by thermal
alteration of Nostoc muscorum and
Rhodospirillum rubrum spheroides 18 p0167 A78-22008

NOZZLE DESIGN

Acceleration nozzles of MHD generators with
deformation of supersonic flow 17 p0002 A78-10244

NOZZLE FLOW

Study of the driving forces of heat and mass
transfer in a nozzle reflux device for heating
air by water 18 p0172 A78-22543

NUCLEAR AUXILIARY POWER UNITS

Heat pipe reactors for space power applications
[LA-UR-77-296] 17 p0153 N78-14653

NUCLEAR ELECTRIC POWER GENERATION

Energy technology IV; Proceedings of the Fourth
Conference, Washington, D.C., March 14-16, 1977
18 p0180 A78-24751

Status and prospects for continued progress in
magnetic fusion energy research and development
18 p0181 A78-24756

Nonconventional alternatives for conversion of
nuclear energy 18 p0229 A78-31772

An economic comparison of three technologies -
Photovoltaics, nuclear power, co-generating
engines 19 p0321 A78-35752

Is solar power more dangerous than nuclear
19 p0341 A78-38998

Energy resources --- on natural and nuclear energy
technology and efficiency 19 p0385 A78-43072

Regenerative fuel cells --- Russian book
20 p0529 A78-53125

Technology assessment in a dialectic key
[IIASA-PP-77-1] 17 p0123 N78-11896

Coal and nuclear generating costs
[EPRI-PS-455-SR] 17 p0155 N78-14674

Evaluation of a seafloor nuclear power supply and
its potential applications
[COO-4123-1] 18 p0277 N78-20643

- An evaluation of the national energy plan
[EMD-77-48] 19 p0396 W78-23566
- Analysis of nuclear systems satisfying US energy needs
[GA-A-14848] 20 p0599 W78-31891
- NUCLEAR ELECTRIC PROPULSION**
Comment on 'Heat-pipe reactors for space power applications'
19 p0364 A78-40826
- Optimize out-of-core thermionic energy conversion for nuclear electric propulsion

OZONATES

Ozonation of coal gasification plant wastewater
18 p0222 A78-30560

OZONE

NO_x-O₃ photochemistry in power plant plumes -
Comparison of theory with observation
17 p0001 A78-10059
Oxidant measurements in western power plant
plumes. Volume 1: Technical analysis
[EPRI-2A-421-VOL-1]
19 p0400 N78-23614

P

P-I-N JUNCTIONS

Thin silicon film p-i-n photodiodes with internal
reflection
18 p0205 A78-28142

P-N JUNCTIONS

The influence of the horizontal and vertical
structure of the p-n junction in Cu₂S-CdS solar
cells
17 p0018 A78-10975
Recent results on II-VI heterojunctions for
photovoltaic solar energy conversion
17 p0018 A78-10983
Thin film heterojunction and homojunction solar
cells utilizing I-III-VI₂ ternary compound
semiconductors
17 p0018 A78-10984
A pn junction silicon sensor for high-intensity
solar flux mapping
17 p0023 A78-11023
An analysis of optimum loading conditions for P-N
junction solar cells
17 p0030 A78-11092
Influence of junction roughness on solar-cell
characteristics
17 p0075 A78-14745
Limits on the yield of photochemical solar energy
conversion
17 p0079 A78-15847
An optical scanning technique for evaluating
silicon solar cells
17 p0091 A78-17553
The efficiency of grating solar cells
18 p0178 A78-24131
On the theory of homojunction and heterojunction
solar cells
18 p0192 A78-26616
Spectral responses limitation mechanisms of a
shallow junction n/+/-p photodiode
18 p0205 A78-28141
Diffusion lengths in amphoteric GaAs heteroface
solar cells
18 p0216 A78-29195
The sun on a semiconductor
18 p0223 A78-30743
Theoretical analysis of a novel MPN gallium
arsenide Schottky barrier solar cell
18 p0227 A78-31385
Experimental determination of series resistance of
p-n junction diodes and solar cells
18 p0228 A78-31731
Junction potentials of strongly illuminated
n/+/-p-p/+/- solar cells
19 p0292 A78-32693
An integral equation method to calculate the
transient behaviour of a photovoltaic solar cell
19 p0292 A78-32695
The influence of interface states and energy
barriers on the efficiency of heterojunction
solar cells
19 p0309 A78-34008
The influence of tunneling effects on the
efficiency of heterojunction solar cells
19 p0309 A78-34048
Influence of an insulating layer on the efficiency
of a semiconductor-insulator-semiconductor /SIS/
heterojunction solar cell
19 p0316 A78-35287
Modeling solar cells for use as optical detectors
- Background illumination effects
19 p0333 A78-37189
Silicon solar cell designs based on physical
behavior in concentrated sunlight
19 p0334 A78-37462
Influence of bandgap narrowing on the performance
of silicon n-p solar cells
19 p0334 A78-37464

Polycrystalline silicon p-n junctions ---
fabrication of low cost solar cells
19 p0334 A78-37467

Ion-implanted drift field silicon solar cell
19 p0335 A78-37904

Deviation in solar cell characteristics from their
ideal behaviour
19 p0371 A78-42118

Solar-cell design based on a distributed diode
analysis
20 p0475 A78-43926

Characteristics of silicon photovoltaic cells with
inversion layers
20 p0495 A78-48404

Back-reflection effect on the long-wavelength
spectral response of solar cells
20 p0507 A78-50300

Graded band-gap pAl/x/Ga/1-x/As-nGaAs
heterojunction solar cells prepared by molecular
beam epitaxy
20 p0516 A78-52625

The MIS and MISIM solar cell
20 p0520 A78-52801

Preparation of Ga/1-x/Al/x/Sb p-n homojunctions
and study of the photovoltaic effect
20 p0521 A78-52812

Transition region recombination in solar cells
20 p0526 A78-52871

Vapor-phase-epitaxial growth of n-AlAs/p-GaAs
solar cells
20 p0536 A78-53496

Chemistry and preparation of InP/CdS solar cells
20 p0536 A78-53497

Multicomponent tetrahedral compounds for solar cells
20 p0537 A78-53499

Characterization of solar cells for space
applications. Volume 3: Electrical
characteristics of OCLI hybrid MLAR solar cells
as a function of intensity and temperature
[NASA-CR-157605]
20 p0604 N78-32545

P-TYPE SEMICONDUCTORS

Analysis of epitaxial drift field N on P silicon
solar cells
17 p0012 A78-10904

Characteristics of chalcocite /Cu_x/S/ films
produced by different methods and some
properties of solar cells made from such films
17 p0018 A78-10977

Solar cells based on tunnel
metal-insulator-semiconductor structures
17 p0024 A78-11038

M-I-S solar cell - Theory and experimental results
17 p0025 A78-11040

A Be p-silicon MIS solar cell
20 p0494 A78-48056

Progress on aluminum p-type silicon SBSCs ---
Schottky Barrier Solar Cells
20 p0519 A78-52791

The current status of the preparation of single
crystals, bicrystals, and epitaxial layers of
p-InP and of polycrystalline p-InP films for
photovoltaic applications
20 p0537 A78-53498

PACIFIC NORTHWEST (US)

Economics and projections for geothermal
development in the Northwest --- Washington,
Oregon and Idaho
17 p0082 A78-16769

Our energy future: Where is reality
[BNWL-SA-6029]
17 p0140 N78-13574

Integrating policy analysis
[PB-279217/4]
20 p0565 N78-29621

Impact of increased coal consumption in the
Pacific Northwest
[BNWL-RAP-21]
20 p0586 N78-30717

Integrating policy analysis: Study module 7.
Volume 2: Technical appendix
[PB-280037/3]
20 p0598 N78-31587

PACKAGING

Double-sided solar cell package
[NASA-CASE-NPO-14199-1]
19 p0389 N78-22470

PACKING DENSITY

High efficiency, long life terrestrial solar panel
[NASA-CR-157060]
19 p0407 N78-24649

PACKINGS (SEALS)

Solar energy systems. Standards for rubber seals
[PB-280114/0]
20 p0591 N78-31444

PAINTS

Radiative cooling of TiO₂ white paint
18 p0206 A78-28171

PAKISTAN

Regional investigations of tectonic and igneous
geology, Iran, Pakistan, and Turkey
[E78-10197] 20 p0591 N78-31495

PANELS

Performance characteristics of a solar battery
concentrator system using Si and CdS cells
19 p0372 A78-42126
Selective coating for solar panels --- using black
chrome and black nickel
[NASA-CASE-LEW-12159-1] 18 p0263 N78-19599
Stainless steel panel for selective absorption of
solar energy and the method of producing said
panel
[NASA-CASE-MFS-23518-3] 19 p0421 N78-25557
Hexagon solar power panel
[NASA-CASE-NPO-12148-1] 19 p0456 N78-27515
Installation package for concentrating solar
collector panels
[NASA-CF-150780] 20 p0604 N78-32548

PAPER (MATERIAL)

Applications of thermal energy storage to process
heat storage and recovery in the paper and pulp
industry
[NASA-CR-159398] 20 p0592 N78-31537

PARABOLIC BODIES

Laser ray trace tester for parabolic trough solar
collectors
[SAND-78-0012C] 20 p0554 N78-28664

PARABOLIC DIFFERENTIAL EQUATIONS

G2M, a two-dimensional diffusion time scale
tokamak code
18 p0231 A78-32066

PARABOLIC REFLECTORS

All-dielectric compound parabolic concentrator
17 p0001 A78-10152
Estimated cost of electricity produced by four
types of compound parabolic concentrators
17 p0055 A78-11342
Design and analysis of a uniaxial tracking device
with a cylindrical parabolic solar concentrator
system
17 p0058 A78-11372
Parabolic collector for total energy systems
application
17 p0059 A78-11376
Non-evacuated solar collectors with compound
parabolic concentrators
17 p0059 A78-11378
Use of the gravity field to shape large linear
solar concentrators with fixed focal axis
17 p0082 A78-16633
Thermomigration of silicon wafers in a solar furnace
17 p0084 A78-16837
Asymmetrical non-imaging cylindrical solar
concentrators
17 p0104 A78-19831
Choice of the optimal parabolocylindrical
concentrator with a tubiform receiver
17 p0107 A78-20424
Influence of system exactness on the concentration
factor of cylinder-parabolic solar energy
collectors
18 p0176 A78-23920
A comparative analysis of models describing the
formation of irradiance fields in wide-aperture
optical systems
18 p0187 A78-25733
Concentrating collectors --- for solar energy
conversion
18 p0200 A78-27859
Solar furnaces
18 p0200 A78-27861
Concentration of the sun's rays using catenary
curves
18 p0214 A78-28843
Truncated 'focones' and 'foclines' --- for solar
concentrators
19 p0331 A78-36858
Natural convection in compound parabolic
concentrators - A finite-element solution ---
for solar collectors
19 p0337 A78-38269
Non-tracking solar concentration for solar cell
19 p0371 A78-42111

A simple technique of fabrication of paraboloidal
concentrators
19 p0375 A78-42188

Comparative analysis of models of irradiance field
formation in wide aperture-optical systems
20 p0489 A78-46121

PARABOLOID MIRRORS

Properties of a solar cell array with mirrors and
radiators
[DGLR PAPER 77-011] 18 p0179 A78-24405
A paraboloid-toroidal conical concentrator as a
secondary concentrator of solar energy
18 p0187 A78-25732
A device with a sectioned photodetector and a
laser transmitter for determining the precision
characteristics of solar energy concentrators
19 p0326 A78-36137
Thermal deformations of solar concentrators
19 p0335 A78-37945

PARAFFINS

Efficiency of paraffin wax as a thermal energy
storage system
17 p0049 A78-11295
GLC analysis of n-paraffin distributions in crude
oils and topped crude oils for oil identification
[BERC/RI-77/12] 19 p0402 N78-24324

PARALLEL PLATES

Solar and infrared radiation properties of
parallel-plate honeycomb
[AIAA PAPER 78-901] 19 p0324 A78-36019

PARKS

Photovoltaic applications in the southwest for the
National Park Service
[COO-4094-3] 17 p0161 N78-15578

PARTICLE ACCELERATION

The Princeton neutral injection power supply system
19 p0354 A78-39975

PARTICLE ACCELERATORS

A 40-kV, 26-ms neutral-beam power supply for TMX
--- Tandem Mirror Experiment
19 p0353 A78-39964
Performance of a developmental 120-keV, 10-A
deuterium /14-A hydrogen/ neutral beam system
19 p0357 A78-40027
Thermal-mechanical design of a 150-mA,
direct-current, 400-keV accelerator for
production of 14-MeV neutrons
19 p0357 A78-40032

PARTICLE DIFFUSION

Particulate deposition in direct fired MHD air
preheaters
[ASME PAPER 77-HT-65] 17 p0090 A78-17497

PARTICLE EMISSION

Neutral particle emission of the pulsator plasma
during high-density discharges --- in tokamaks
19 p0379 A78-42216
Elemental particle-size emissions from coal-fired
power plants - Use of an inertial cascade impactor
20 p0488 A78-46023
Potential for automotive fuel economy improvement
18 p0258 N78-18543
Characterization of methanol/gasoline blends as
automotive fuel: Performance and emissions
characteristics
[PB-277135/0] 19 p0393 N78-23261
Stirling engine program
20 p0573 N78-30348
Results and status of the NASA aircraft engine
emission reduction technology programs
[NASA-TN-79009] 20 p0611 N78-33102

PARTICLE ENERGY

Measurements of high-energy deuterons in the
plasma-focus device
18 p0235 A78-32439

PARTICLE MOTION

Relative importance of different impurity sources
in tokamak reactors as estimated from particle
balance equations
19 p0379 A78-42221

PARTICLE SIZE DISTRIBUTION

The physical transformation of the mineral matter
in pulverized coal under simulated combustion
conditions
17 p0079 A78-15834
Physical and morphological studies of
size-classified coal fly ash
18 p0222 A78-30555

Aerosol size distributions and aerosol volume formation for a coal-fired power plant plume 19 p0366 A78-41254

Elemental particle-size emissions from coal-fired power plants - Use of an inertial cascade impactor 20 p0488 A78-46023

Preliminary tests using a laser particle-size analyzer on geothermal brine [UCID-17637] 19 p0430 N78-25634

PARTICLE TRAJECTORIES

Long-time-scale simulation of resonant particle effects in Langmuir and whistler waves 18 p0231 A78-32068

Intense relativistic electron-beam trajectories and their effect on beam heating of toroidally confined plasma 19 p0310 A78-34237

Particle trajectories in swirling flows --- coal combustion gas turbine technology 20 p0502 A78-49805

PARTICLES

Particulate control highlights: Research on electrostatic precipitator technology [PB-276643/4] 19 p0391 N78-22495

PARTICULATE SAMPLING

The microstructure of pulverized coal-air flames. I - Stabilization on small burners and direct sampling techniques 17 p0078 A78-15829

Physical and morphological studies of size-classified coal fly ash 18 p0222 A78-30555

Operation and maintenance of particulate control devices on coal-fired utility boilers [PB-274104/9] 18 p0251 N78-17505

PASSAGEWAYS

Priority treatment for high occupancy vehicles: Project status report --- bus and carpool lanes [PB-270529/1] 17 p0129 N78-12907

PASSENGER AIRCRAFT

Improved energy efficiency for small CTOL transport aircraft 18 p0226 A78-31305

Fuel efficiency - Where we are heading in the design of future jet transports 18 p0226 A78-31307

PASSENGERS

Intercity rail energy intensity for passenger movement 18 p0258 N78-18546

Near-term electric vehicle program, phase 1 [SAN/1295-1] 18 p0273 N78-20448

Phase 1: Definition of intercity transportation comparison framework. Volume 2: Methodology --- operations research of passenger and freight transportation systems [NASA-CR-152152-VOL-2] 20 p0556 N78-28994

PATENTS

Secondary batteries: Recent advances --- Book on technical information based on U.S. patents 20 p0512 A78-51674

PAYLOADS

On the relationship between gross vehicle weight, payload, effective range, and cost of electric vehicles [SAE PAPER 780220] 19 p0307 A78-33379

PELLETS

Diffraction analysis for multiple-beam pellet irradiance 19 p0360 A78-40225

Laser acceleration of reactor-fuel pellets 20 p0538 A78-53690

PELTIER EFFECTS

Recrystallization of semiconducting polycrystalline ribbons using the Peltier effect --- for solar cell production 20 p0531 A78-53333

PERFORMANCE

Solar energy systems. Survey of materials performance [PB-273305/3] 18 p0244 N78-16475

Test and evaluation of 23 electric vehicles for state-of-the-art assessment [NASA-TM-73850] 18 p0252 N78-17937

Design review package for the on-site monitor for solar heating and cooling systems [NASA-CR-150590] 18 p0275 N78-20611

PERFORMANCE PREDICTION

Potential of GaAs solar cells for Air Force space power systems 17 p0019 A78-10994

Nominal cost and performance objectives for photovoltaic panels in nonconcentrating central station applications 17 p0021 A78-11007

Performance and cost assessment of photovoltaic system concepts 17 p0021 A78-11011

Theoretical method to determine monthly efficiency of flat plate solar collectors 17 p0029 A78-11084

A detailed model of flat plate solar collectors 17 p0042 A78-11213

Performance analysis and experience for flat plate collector with absorber operating in a vacuum 17 p0042 A78-11215

Performance analysis of a black liquid absorbing collector /BLAC/ 17 p0042 A78-11217

Analysis of a matrix solar collector 17 p0043 A78-11222

An approximate equation for predicting the solar transmittance of transparent honeycombs --- flat plate collector efficiency 17 p0044 A78-11231

Optimization of solar heating in residential buildings using a stochastic performance model 17 p0046 A78-11252

Moderate-level-of-rigor methods for solar heating system performance prediction 17 p0046 A78-11254

Prediction of the monthly and annual performance of solar heating systems 17 p0047 A78-11255

Simplified techniques for sizing residential solar heating systems 17 p0047 A78-11256

Dual phase annual cycle, index of application --- solar system for heating and cooling of buildings 17 p0050 A78-11299

Non-evacuated solar collectors with compound parabolic concentrators 17 p0059 A78-11378

Long-term average performance predictions for compound parabolic concentrator solar collectors 17 p0059 A78-11379

Seasonal solar collector performance with maximum storage 17 p0078 A78-15410

Prediction of average collector efficiency from climatic data 17 p0084 A78-16834

A method of testing for rating thermal storage devices based on thermal performance 17 p0084 A78-16838

A computer model for large-scale offshore wind-power systems 17 p0093 A78-18089

Solar energy collector orientation and tracking mode 17 p0104 A78-19827

Design and performance of an air collector for industrial crop dehydration 17 p0104 A78-19828

The effect of off-south orientation on the performance of flat-plate solar collectors 17 p0104 A78-19830

Effects of phase-change energy storage on the performance of air-based and liquid-based solar heating systems 17 p0104 A78-19832

Computer aided aerogenerator analysis and performance 18 p0169 A78-22229

A performance prediction model for the Darrieus turbine --- for wind energy conversion 18 p0170 A78-22237

An aerodynamic performance theory for the Darrieus wind turbine 18 p0171 A78-22250

Experimental and analytical studies of the aerodynamic performance of windmills [AIAA PAPER 78-277] 18 p0172 A78-22612

On the theory of homojunction and heterojunction solar cells 18 p0192 A78-26616

SUBJECT INDEX

PERFORMANCE TESTS

Mode of operation and characteristics of Darrieus rotors 18 p0210 A78-28560

The effect of hub fairings on wind turbine rotor performance 18 p0219 A78-30039

Synchronization of wind turbine generators against an infinite bus under gusting wind conditions [IEE PAPER P 77 675-2] 18 p0219 A78-30196

Prediction of the monthly and annual performance of solar heating systems 18 p0220 A78-30270

Solar heating design, by the f-chart method --- Book 18 p0224 A78-31071

Some contributions to aerodynamic theory for vertical-axis wind turbines 19 p0291 A78-32534

Junction potentials of strongly illuminated n/p-p-p/solar cells 19 p0292 A78-32693

Performance characteristics of air-cooled solar collectors as determined by computer simulation 19 p0294 A78-33027

Solar powered Rankine cycle/vapor compression cycle modeling and performance prediction 19 p0295 A78-33036

Design and calculated performance and cost of the ECAS Phase II open cycle MHD power generation system [ASME PAPER 77-WA/ENER-5] 19 p0297 A78-33143

The Mist Flow OTEC Plant --- convective lift to achieve hydraulic head in Ocean Thermal Energy Conversion 19 p0306 A78-33352

An overview of aerospace gas turbine technology of relevance to the development of the automotive gas turbine engine [SAE PAPER 780075] 19 p0306 A78-33364

Experimental and theoretical analysis of Wankel engine performance [SAE PAPER 780416] 19 p0308 A78-33388

Performance and economics of advanced energy conversion systems for coal and coal-derived fuels 19 p0309 A78-34078

Thermic diode solar panels for space heating 19 p0314 A78-34936

Performance and NO_x/ emissions of spark ignited combustion engines using alternative fuels - Quasi one-dimensional modeling. I - Hydrogen fueled engines 19 p0333 A78-37299

Silicon solar cell designs based on physical behavior in concentrated sunlight 19 p0334 A78-37462

Influence of bandgap narrowing on the performance of silicon n-p solar cells 19 p0334 A78-37464

Effects of temperature on the performance of silicon solar cells 19 p0371 A78-42117

Deviation in solar cell characteristics from their ideal behaviour 19 p0371 A78-42118

Calculation procedure for determining the thermal performance of solar domestic hot water and space heating systems 19 p0375 A78-42149

Solar energy for industrial processes - A simplified design method 19 p0383 A78-42891

Study of the performance of flat plate collectors in the transient regime 19 p0384 A78-42892

The theoretical and experimental performance of a solar heater equipped with flat plate collectors 19 p0384 A78-42893

Simulation study of a flywheel powered electric vehicle utilizing the modern high energy density energy storage flywheel 19 p0385 A78-43044

Comparative performance of several flat plate designs --- solar collector efficiency 20 p0476 A78-43970

Analytical model of flat plate solar collectors 20 p0476 A78-43973

On the prediction of melting rate in a solar energy storage subsystem utilizing latent heat 20 p0478 A78-43985

Field study of a solar energy assisted heat pump heating system 20 p0478 A78-43987

Medium power voltage multipliers with a large number of stages 20 p0486 A78-45435

Determining typical weather for use in solar energy simulations 20 p0487 A78-45741

Optimum design point geometry and performance of propeller type wind turbines 20 p0502 A78-49840

A collection-velocity model for predicting efficiency of Schottky barrier solar cells 20 p0521 A78-52805

Method for minimizing the cost/Watt of complete photovoltaic systems and applications 20 p0527 A78-52889

Advantages of thin silicon solar cells for use in space [AAS PAPER 78-024A] 20 p0537 A78-53610

Selenide isotope generators [CONF-770302-1] 17 p0114 N78-10581

Performance analysis of a modified internal combustion engine [AD-A045378] 17 p0135 N78-13442

Investigation of methods to improve heat pump performance and reliability in a northern climate. Volume 3: Appendices B, C, D [BPRI-EM-319-VOL-3-APP-B] 17 p0139 N78-13565

Thermal performance of MSFC hot air collectors under natural and simulated conditions [NASA-CR-150506] 18 p0256 N78-18525

Solar power satellite system definition study. Part 2, volume 8: SPS launch vehicle ascent and entry sonic overpressure and noise effects [NASA-CR-151672] 18 p0272 N78-20163

Performance potential of combined cycles integrated with low-Btu gasifiers for future electric utility applications [NASA-TM-73775] 19 p0395 N78-23557

Study of test methods for large flexible solar arrays (VFLSA) --- dynamic characteristics [ESA-CR(P)-1016] 19 p0411 N78-24688

Solar energy and the heat pump in a northern climate [BPRI-EA-407] 19 p0462 N78-27583

Integration of infra-red ambient temperature and wind conditions in flat collector performance prediction 20 p0545 N78-28537

Small scale electric power generation by means of a stationary Spherical Reflector/Tracking Absorber (SRTA) solar collector system in developing countries 20 p0546 N78-28552

Performance characteristics of automotive engines in the United States. Second series, Report No. 1: 1976 Chevrolet Vega 140 (CID (2.3 liters), 2V --- to determine fuel consumption and emissions [PB-281774/0] 20 p0613 N78-33455

Performance characteristics of automotive engines in the United States. Second series, report no. 2: 1976 Chevrolet 305 CID (5.0 liters), 2V --- to determine fuel consumption and emissions [PB-281775/7] 20 p0613 N78-33456

Performance characteristics of automotive engines in the United States. Second series, report no. 3: 1977 Chrysler 225 CID (3.7 liters), 2V --- to determine fuel consumption and emissions [PB-281776/5] 20 p0613 N78-33457

Performance characteristics of automotive engines in the United States. First series, report no. 12: 1975 Perkins diesel 247 CID (4.0 liters), FI --- to determine fuel consumption and emissions [PB-281777/3] 20 p0613 N78-33458

Performance characteristics of automotive engines in the United States. First series, report no. 13: 1975 American Motors, 258 CID (4.2 liters), 1V --- to determine fuel consumption and emissions [PB-281778/1] 20 p0613 N78-33459

PERFORMANCE TESTS

The role of defects on the performance of epitaxial and diffused solar cells fabricated on BFG 'ribbon' silicon --- edge-defined growth process technology 17 p0012 A78-10905

- Qualification of European high efficiency solar cells for future ESA satellites 17 p0014 A78-10936
- Comparative testing of high efficiency silicon solar cells 17 p0014 A78-10937
- Status of the ERDA/NASA Photovoltaic Tests and Applications Project 17 p0022 A78-11014

PLASMA SPECTRA
Finite hybrid elements to compute the ideal
magnetohydrodynamic spectrum of an axisymmetric
plasma
18 p0231 A78-32067

Surface and impurity studies in ORMAK and ISX ---
tokamaks
19 p0378 A78-42210

PLASMA SPRAYING
Analytical investigation of thermal barrier
coatings for advanced power generation
combustion turbines
[ASME PAPER 77-WA/ENER-13]
19 p0298 A78-33151

Friction and wear of several compressor gas-path
seal movements
[NASA-TP-1128]
17 p0158 N78-15229

PLASMA TEMPERATURE
Temperature sheaths on probes or electrodes in MHD
plasmas
19 p0336 A78-38108

Plasma edge cooling during RF heating
19 p0342 A78-39389

PLASMA TURBULENCE
Turbulence theory for the dissipative trapped
electron instability --- in tokamak toroidal
devices
19 p0382 A78-42487

PLASMA WAVES
Collapse of Alfvén waves
18 p0224 A78-31008

PLASMA-ELECTROMAGNETIC INTERACTION
Integral characteristics of an induction MHD
device at large parameters of electromagnetic
interaction
18 p0204 A78-28087

Intensity dependence of inverse bremsstrahlung
absorption in an inhomogeneous standing wave
19 p0332 A78-37139

Integral characteristics of induction-type MHD
machines with large electromagnetic-interaction
parameters
20 p0499 A78-49604

PLASMA-PARTICLE INTERACTIONS
Long-time-scale simulation of resonant particle
effects in Langmuir and whistler waves
18 p0231 A78-32068

Measurements of high-energy deuterons in the
plasma-focus device
18 p0235 A78-32439

Intense relativistic electron-beam trajectories
and their effect on beam heating of toroidally
confined plasma
19 p0310 A78-34237

Microchannel plate response to hard X-rays --- for
imaging recompression beam fuel pellet implosion
19 p0360 A78-40267

Wave interaction in a beam-plasma system in
presence of dispersion and higher order
non-linear effects
20 p0485 A78-45245

Beta-dependence of the particle and energy
confinement times in the low collisionality
regime in toroidal systems
20 p0491 A78-46185

PLASMAS (PHYSICS)
Major features of D-T Tokamak fusion reactor systems
[EPRI-472-1]
17 p0147 N78-13903

High magnetic field MHD generator program
[FE-2341-1]
18 p0245 N78-16874

PLASMA TIONS
Development of fast neutral beam injectors at
Fontenay-aux-Roses
17 p0012 A78-10879

PLASTIC COATINGS
Technique of testing silazane coatings --- for
solar concentrators
19 p0331 A78-36859

PLASTICIZERS
Inorganic-organic separators for alkaline batteries
[NASA-CASE-LEW-12649-1]
19 p0419 N78-25530

PLASTICS
Radiation heat losses in solar collectors with
plastic covers
19 p0316 A78-35362

PLATINUM
Optimization of PtDoped Kocite: Electrodes in
H3PO4 fuel cells
[AD-A053300]
19 p0422 N78-25562

Catalyst sintering studies --- phosphoric acid
fuel cells
[EPRI-EM-661]
20 p0620 N78-33577

PLUMES
NOx-O3 photochemistry in power plant plumes -
Comparison of theory with observation
17 p0001 A78-10059

Comparison of calculated and observed
characteristics of plumes from two coal-fired
power plants located in complex terrain
18 p0167 A78-21821

Conversion rates of SO2 to submicron sulfate in
the plume of a coal-fired power plant in the
western United States
[APCA PAPER 77-39,1]
18 p0185 A78-25412

A study of production and growth of sulfate
particles in plumes from a coal-fired power plant
19 p0366 A78-41251

Nuclei formation rates in a coal-fired power plant
plume
19 p0366 A78-41253

Aerosol size distributions and aerosol volume
formation for a coal-fired power plant plume
19 p0366 A78-41254

Sulfur budget of a power plant plume
19 p0366 A78-41275

An observation of cooling tower plume effects on
total solar radiation
20 p0488 A78-46025

- Mathematical modelling of dispersion and chemical reactions in a plume - Oxidation of NO to NO₂ in the plume of a power plant

- A pumping station powered by a photovoltaic converter in the Sahel
20 p0524 A78-52846
- Optimization of a pumping station powered by a photovoltaic converter
20 p0524 A78-52847
- Water pumping system using solar power from photovoltaic source
20 p0527 A78-52891
- Implanted energy conversion system
[PB-272609/9] 18 p0243 N78-16464
- Pump/control system minimum operating cost testing
[NASA-CR-150604] 18 p0275 N78-20617
- Solar irrigation program status
[SAND-78-0398C] 20 p0554 N78-28662

PURIFICATION

- Purification and characterization of metallurgical silicon
18 p0219 A78-30191
- Purification processes for coal gasification
20 p0471 A78-43413
- Solar silicon via the Dow Corning process
[NASA-CR-157065] 19 p0406 N78-24637

PURITY

- High-purity silicon for solar cell applications
19 p0344 A78-39567

PYRANOMETERS

- Solar energy measuring equipment
18 p0201 A78-27869

PYROHRELIONETERS

Solar energy measuring equipment 18 p0201 A78-27869

PYROLYSIS

Pyrolysis of solid wastes for production of gaseous fuels and chemical feedstocks 17 p0035 A78-11131

The Garrett pyrolysis process 17 p0036 A78-11141

The Andco-Torrax process - A slagging pyrolysis solid waste conversion system 17 p0036 A78-11142

Partial oxidation of refuse using the Purox system 17 p0036 A78-11143

Energy recovery from municipal and industrial waste 17 p0037 A78-11146

Studies on coal reactivity - Kinetics of lignite pyrolysis in nitrogen at 808 C 17 p0079 A78-15831

Coal pyrolysis at fire-level heat flux 17 p0079 A78-15835

A fluidized bed solar reactor - A thermochemical application 18 p0165 A78-20623

Reactions of fuel-nitrogen compounds under conditions of inert pyrolysis 18 p0173 A78-22822

Entropy production, efficiency, and economics in the thermochemical generation of synthetic fuels. I - The hybrid sulfuric acid process 18 p0174 A78-22867

Energy from municipal refuse 18 p0182 A78-24763

Energy from wastes - An overview of present technologies and programs 18 p0197 A78-27803

The nature of pyrolytic oil from municipal solid waste 18 p0197 A78-27806

Fuels from wood waste 18 p0198 A78-27810

Pyrolytic gasification of Kraft black liquors 18 p0198 A78-27811

Pyrolysis of subbituminous coal in relation to in-situ coal gasification 18 p0229 A78-31750

Waste pyrolysis - Alternative fuel source 19 p0333 A78-37172

Pyrolysis of 1,2-diphenylethane in the presence of tetralin 19 p0342 A78-39124

Engineering development of a short residence time, coal hydrolysis process 19 p0362 A78-40592

Economic evaluation of synthetic natural gas production by short residence time hydrolysis of coal 19 p0363 A78-40593

Water in synthetic fuel production: The technology and alternatives --- Book 19 p0365 A78-41000

Oil shale retorting - Effects of particle size and heating rate on oil evolution and intraparticle oil degradation 19 p0367 A78-41521

Fluid bed processing of agglomerating coals 20 p0472 A78-43420

Survey of pyroconversion processes for biomass 20 p0505 A78-50147

Pyrolysis: Flameless competition - Gasification of trash for the recovery of material 20 p0507 A78-50254

Pyrolysis and assessment of pyrolysis systems --- For solid waste treatment and energy recovery 20 p0512 A78-51785

Direct and indirect energy recovery via pyrolysis in Multiple Hearth Furnaces 20 p0513 A78-51787

Pyrolysis of municipal solid waste to fuels and chemicals 20 p0513 A78-51789

Qualitative and quantitative studies of volatiles from coal pyrolysis using mass spectrometry and gas chromatography 17 p0119 A78-11207

Pyrolysis of industrial wastes for oil and activated carbon recovery 17 p0147 A78-13967

[PB-270961/6]

Hydrogasifier development for the Hydrane process [FE-2518-4] 19 p0415 A78-25244

Optimization of pyrolytic conversion of coal to clean fuel --- computer programs 19 p0427 A78-25609

Solid waste utilization: Pyrolysis [ANL/CES/FE-77-15] 19 p0435 A78-26038

Incineration studies, volume 2. Citations from the engineering index data base --- waste disposal [NTIS/PS-78/0367/9] 20 p0556 A78-28999

Conversion of trash to gasoline [AD-A055113] 20 p0589 A78-31257

Thermal and kinetic analysis of the pyrolysis of coals [EPRI-AP-528] 20 p0594 A78-31552

Q

QUALITATIVE ANALYSIS

Evaluation of in situ coal gasification processes on a regional basis [ORNL-5279] 19 p0431 A78-25647

QUALITY

Metering low-quality steam-water flows [UCRL-52271] 18 p0263 A78-19455

QUALITY CONTROL

Engineering estimate of the quality of facets obtained by a deformation method of form giving --- mirrors for solar collectors 18 p0214 A78-28890

Optimum testing period for new thermomechanical equipment 18 p0225 A78-31245

Technological evolution of the quality of facets produced by deformational forming --- mirrors for solar collectors 20 p0490 A78-46130

Model code for energy conservation in new building construction [SAN/1230-1] 20 p0585 A78-30704

Organization of certification program for solar collectors [PB-280025/8] 20 p0586 A78-30711

Quality assurance program document for 75 mW radioisotope thermoelectric generator program [SA-A-14807] 20 p0596 A78-31573

QUARTZ CRYSTALS

Tectonic atlas of uranium potential in crystalline rocks of the eastern US [GJBX-69(77)] 19 p0400 A78-23666

QUENCHING (COOLING)

Quenching of nitric-oxide formation in methane-air flames by secondary-air injection 17 p0081 A78-16338

R

RADIAL DISTRIBUTION

Radial profile of dc toroidal current driven by RP travelling field 20 p0493 A78-47295

Ball to separator contact forces in angular contact ball bearings under thrust and radial loads [NASA-CR-2976] 18 p0281 A78-21469

RADIAL FLOW

Calculation of unsteady two-dimensional magnetohydrodynamic flows in a radial channel 20 p0496 A78-48557

RADIANT COOLING

Radiative cooling of TiO2 white paint 18 p0206 A78-28171

Ionization equilibrium and radiative cooling of a high temperature plasma 18 p0227 A78-31423

Optimization and design calculation of a radiative cooling system for a Stirling-engine energy unit --- operating in planetary environment 20 p0495 A78-48403

RADIANT FLUX DENSITY

An analytic evaluation of the flux density due to sunlight reflected from a flat mirror having a polygonal boundary 17 p0053 A78-11328

Photoelectric radiation-density meter --- for concentrator focal region measurement 18 p0215 A78-28892

RADIANT HEATING

SUBJECT INDEX

- Photoelectric radiation densitometer --- for
concentrator focal region measurement
20 p0490 A78-46132
- RADIANT HEATING**
Equalizing an irradiance field on the surface of a
receiver
18 p0187 A78-25734
Equalization of irradiation field on receiver
surface
20 p0489 A78-46122
Portable linear-focused solar thermal energy
collecting system
[NASA-CASE-NFO-13734-1]
17 p0111 N78-10554
- RADIATION DAMAGE**
New developments in vertical-junction solar cells
--- groove structure to promote radiation
resistance
17 p0012 A78-10907
Comparative testing of high efficiency silicon
solar cells
17 p0014 A78-10937
Electron and proton degradation of commercially
available solar cell/coverslide components
17 p0015 A78-10938
Photon degradation of electron and proton
irradiated silicon solar cells
17 p0015 A78-10940
Problem of the vulnerability of materials to
radiation in relation to atomic and
thermonuclear power engineering
18 p0180 A78-24748
Annealing of GaAs solar cells damaged by electron
irradiation
18 p0219 A78-30192
Recovery of shallow junction GaAs solar cells
damaged by electron irradiation
20 p0515 A78-52198
Advantages of thin silicon solar cells for use in
space
[AAS PAPER 78-Q24A]
20 p0537 A78-53610
Solar Cell High Efficiency and Radiation Damage
[NASA-CP-2020]
17 p0136 N78-13527
Ultraviolet damage in solar cell assemblies with
various UV filters
17 p0138 N78-13551
Energy and technology review
[UCRL-52000-77-6]
20 p0584 N78-30697
- RADIATION DETECTORS**
Thermal detector of solar energy with selective
coating and vacuum thermal-insulation
20 p0518 A78-52774
- RADIATION DISTRIBUTION**
A comparative analysis of models describing the
formation of irradiance fields in wide-aperture
optical systems
18 p0187 A78-25733
Diffraction analysis for multiple-beam pellet
irradiance
19 p0360 A78-40225
Solar energy for use as a source of power
19 p0370 A78-42104
Comparative analysis of models of irradiance field
formation in wide aperture-optical systems
20 p0489 A78-46121
Principles of the mathematical modeling of the
energy structure of solar radiation regimes
20 p0495 A78-48408
- RADIATION DOSAGE**
Health and safety impacts of nuclear, geothermal,
and fossil-fuel electric generation in
California. Volume 2: Radiological health and
related standards for nuclear power plants
[LBL-5285-VOL-2]
18 p0278 N78-20769
- RADIATION EFFECTS**
Junction potentials of strongly illuminated
n+/p-p/p+/ solar cells
19 p0292 A78-32693
Microchannel plate response to hard X-rays --- for
imaging recompression beam fuel pellet implosion
19 p0360 A78-40267
- RADIATION HAZARDS**
Comparative evaluation of the radiation danger to
the public caused by atmospheric emissions from
thermal and atomic electric power plants
18 p0166 A78-21349
- RADIATION MEASUREMENT**
Spectral distribution of global solar radiation at
Poona
19 p0370 A78-42106
- Radiation measurements for solar energy utilization
19 p0370 A78-42109
First results obtained from the Swiss mobile
system for solar radiation measurements
20 p0543 N78-28511
- RADIATION MEASURING INSTRUMENTS**
Solar radiation and energy measurements --- solar
cell meter for meteorological monitoring
17 p0009 A78-10732
Solar energy measuring equipment
18 p0201 A78-27869
Photoelectric radiation-density meter --- for
concentrator focal region measurement
18 p0215 A78-28892
A device with a sectioned photodetector and a
laser transmitter for determining the precision
characteristics of solar energy concentrators
19 p0326 A78-36137
Photoelectric radiation densitometer --- for
concentrator focal region measurement
20 p0490 A78-46132
- RADIATION PRESSURE**
Effects of solar radiation pressure on the orbit
of the Solar Power Satellite
18 p0230 A78-31916
Orbital motion of the solar power satellite
[NASA-CR-151603]
17 p0158 N78-15148
- RADIATION SHIELDING**
The use and performance of graphite and metal
ISSECs in tokamak fusion reactors --- Internal
Spectral Shifter and Energy Converter shield
18 p0195 A78-27579
High temperature blankets for the production of
synthetic fuels
19 p0359 A78-40093
Mechanical design and analysis for a EPR first
wall/blanket/shield system --- for tokamak
Experimental Power Reactor
19 p0359 A78-40095
- RADIATION TOLERANCE**
Comparative radiation resistance calculation for
graded- and constant-composition n
Al/x/Ga/1-x/As-p Al/z/Ga/1-z/As solar cells
19 p0338 A78-38551
Radiation tests of SEP solar cells
17 p0138 N78-13548
- RADIATIVE HEAT TRANSFER**
The emission characteristics of liquid-fuel flames
18 p0222 A78-30496
Fuel hydrogen content as an indicator of radiative
heat transfer in an aircraft gas turbine combustor
19 p0296 A78-33114
Radiation heat losses in solar collectors with
plastic covers
19 p0316 A78-35362
Marine thermic energy and the combination of
solar, radiative and aeolian energies
19 p0328 A78-36623
Radiative heat transfer in axially symmetric
hollow collectors of high-temperature solar
installations
19 p0331 A78-36860
Absorption of solar radiation in ponds
20 p0487 A78-45737
Intraregional variations of solar radiation in the
eastern United States
20 p0514 A78-51926
Selective paints for solar absorbers
18 p0237 N78-16177
Conceptual design of a heat pipe radiator
[LA-6939-MS]
18 p0273 N78-20471
- RADIATIVE TRANSFER**
Surface ignition of coal and other fuel particles
in radiative and diffusive environment --- in
MHD combustor
18 p0222 A78-30511
Radiation transfer through specular passages - A
simple approximation
19 p0369 A78-42030
- RADIATORS**
Properties of a solar cell array with mirrors and
radiators
[DGLR PAPER 77-011]
18 p0179 A78-24405
- RADIO FREQUENCIES**
Coal thickness gauge using RRAS techniques, part 1
--- radiofrequency resonance absorption
[NASA-CR-150625]
18 p0273 N78-20573

RADIO FREQUENCY HEATING

- Plasma edge cooling during RF heating 19 p0342 A78-39389
 A lower hybrid heating system for an ignition tokamak 19 p0354 A78-39972
 Radial profile of dc toroidal current driven by RF travelling field 20 p0493 A78-47295

RADIO FREQUENCY INTERFERENCE

- Engineering tests for energy storage cars at the Transportation Test Center. Volume 2: Performance power consumption and radio frequency interference tests [PB-269401/6] 17 p0110 N78-10484

RADIO OBSERVATION

- Ion-cyclotron instability in the TFR tokamak 19 p0369 A78-42016

RADIO RELAY SYSTEMS

- New energies in telecommunications 20 p0524 A78-52849

RADIOACTIVE CONTAMINANTS

- Comparative evaluation of the radiation danger to the public caused by atmospheric emissions from thermal and atomic electric power plants 18 p0166 A78-21349

RADIOACTIVE ISOTOPES

- The employment of the X-ray fluorescence radioisotope technique for the determination of sulfur in fuel oils 20 p0492 A78-46488
 Heat source component development program [BMI-X-679] 17 p0141 N78-13580
 Prediction of thermoelectric battery power and voltage for a 15 year lifetime MB-75 mW (B) battery [GA-A-14718] 19 p0446 N78-26576
 Statistical analysis and planning of multihundred-watt impact tests [LA-6886-MS] 20 p0567 N78-30171

RADIOACTIVE MATERIALS

 PLT OH system operation --- Princeton Large
 Torus-Ohmic Heating
 19 p0357 A78-40064
 Status of the West German terrestrial photovoltaic
 program
 20 p0522 A78-52820
- REMOTE HANDLING**
 Some opportunities in teleoperated mining
 18 p0222 A78-30507
- REMOTE REGIONS**
 Insolation and wind - A natural combination for
 self-sufficient power systems
 17 p0022 A78-11017
- REMOTE SENSORS**
 Instrumental sensing of stationary source emissions
 --- sulphur dioxide remote sensing for
 coal-burning power plants
 17 p0001 A78-10056
 Remote sensing - A burgeoning science --- Canadian
 programs
 17 p0063 A78-12214
 Applications of Seasat to the offshore oil, gas
 and mining industries
 [AIAA 77-1583] 17 p0069 A78-13666
 Future onshore and offshore exploration by remote
 sensing from space
 [AIAA 77-1550] 17 p0069 A78-13681
 Industrial use of geological remote sensing from
 space
 17 p0075 A78-14787
 Energy and remote sensing --- satellite
 exploration, monitoring, siting
 17 p0075 A78-14805
 Remote sensing of earth resources. Volume 5 -
 Annual Remote Sensing of Earth Resources
 Conference, 5th, Tullahoma, Tenn., March 29-31,
 1976, Technical Papers
 18 p0198 A78-27823

SUBJECT INDEX

RESEARCH AND DEVELOPMENT

- Remote-sensing methods for monitoring surface coal mining in the northern Great Plains 18 p0206 A78-28247
- The detection of hydrocarbon sheets on the sea 18 p0209 A78-28395
- Remote monitoring of the Gravelly Run thermal plume at Hopeville and the thermal plume at the Surry nuclear power plant on the James River 19 p0313 A78-34905
- Remote leak detection for the TFTR --- Tokamak Fusion Test Reactor 19 p0352 A78-39939
- Instrumentation for in situ coal gasification. I - Background and overview 19 p0367 A78-41522
- Highlights of the LLL Hoe Creek No. 2 underground coal gasification experiment 19 p0367 A78-41524
- Detection of heat loss from buildings through aerial thermography Applications and methodology 20 p0469 A78-43325
- Remote-sensing applications for mineral exploration --- Book 20 p0532 A78-53376
- Foreseeable energy and mineral resource problems --- remote sensors for resource exploration and management 20 p0532 A78-53377
- The role of remote sensing for energy development 20 p0533 A78-53383
- Energy and remote sensing 17 p0149 A78-14497
- Application of remote sensing to geothermal anomaly mapping in the Caldas Novas County, Goias [INPE-1129-TPT/070] 17 p0149 A78-14610
- Remote sensing applications in hydro-geothermal exploration of the northern basin and range province 18 p0238 A78-16405
- Photovoltaic remote instrument applications: Assessment of the near-term market [NASA-TM-73881] 18 p0271 A78-19710
- Subsystem design package for Mod 2 site data acquisition system: Solar heating and cooling [NASA-CR-150588] 18 p0274 A78-20609
- A study of alteration associated with uranium occurrences in sandstone and its detection by remote sensing methods, volume 1 --- Spectral reflectance of rocks in Utah and Wyoming [NASA-CR-157600] 20 p0591 A78-31511
- A study of alteration associated with uranium occurrences in sandstone and its detection by remote sensing methods, volume 2 --- Spectral reflectance of rocks in Utah and Wyoming [NASA-CR-157601] 20 p0591 A78-31512
- Optical characteristics of the earth's surface and atmosphere from the point of view of the remote sensing of natural resources: Review of the contemporary status of the problem [NASA-TM-75548] 20 p0625 A78-33642
- REMOVAL**
- Sulfur control in coal fired power plants - A probabilistic approach to policy analysis 20 p0528 A78-53047
- REPLACING**
- Oil and gas replacement cost: Development and production. Volume 2: Exhibits [TID-28043/2] 19 p0418 A78-25515
- REPORTS**
- Bibliography of earth science reports for 1976 [UCID-17476-76] 17 p0149 A78-14451
- Solar irrigation program [SAND-77-0380] 17 p0161 A78-15582
- Central receiver solar thermal power system, phase 1 [SAP/1110-76/3] 17 p0161 A78-15583
- Gas generator research and development: Bi-gas process [PE-1207-29] 18 p0241 A78-16447
- Preliminary system analysis of a fixed mirror solar power central station [EPRI-PR-434 (6-77)] 18 p0241 A78-16452
- Industrial applications of solar energy [SAN/1132-1] 18 p0242 A78-16457
- Silicon photovoltaic cells in thermophotovoltaic conversion [EPRI-PR-478] 18 p0242 A78-16460
- Engineering analysis and testing of water-trickle solar collectors [ORO-4927-77/1] 18 p0242 A78-16461
- Prototype solar heating and hot water systems [NASA-CR-150525] 18 p0250 A78-17482
- RESEARCH**
- RANN: Research Applied to National Needs. Wind Energy Conversion Research [PE-271942/5] 18 p0270 A78-19677
- RESEARCH AND DEVELOPMENT**
- Fusion research in the European Community 17 p0001 A78-10102
- Power from the oceans' thermal gradients 17 p0006 A78-10652
- National program for MHD power generation 17 p0010 A78-10745
- Neutral beam injector research and development work in the USA 17 p0012 A78-10878
- The current status of the U.S. photovoltaic conversion program 17 p0020 A78-10998
- Status of the ERDA photovoltaic material and device studies 17 p0020 A78-10999
- Terrestrial solar cell R & D in the UK 17 p0020 A78-11003
- DCD/ERDA terrestrial photovoltaic systems demonstration program 17 p0022 A78-11016
- Energy development III 17 p0028 A78-11069

- The progress and the development program of fusion technology in Japan 17 p0038 A78-11162
- Review of overseas solar technologies relative to international cooperation 17 p0058 A78-11367
- U.S. energy conversion research needs 17 p0069 A78-13624
- Investigation of wind energy --- technical concepts and research problems 17 p0072 A78-14102
- ERDA's Solar Energy Research and Development Program 18 p0180 A78-24753
- Status and prospects for continued progress in magnetic fusion energy research and development 18 p0181 A78-24756
- Design of superconducting magnets for full scale MHD generators 18 p0183 A78-25108
- Oil shale - Its time has come 18 p0196 A78-27784
- The Syncrude Project and the future of heavy oil development 18 p0196 A78-27785
- Directions for research --- for space manufacturing colonization and scientific research 18 p0203 A78-27930
- Solar progress Down Under --- solar energy research in Australia 18 p0206 A78-28199
- Solar energy research in the European Economic Community 18 p0212 A78-28578
- Harnessing the wind --- review of wind turbine machines 18 p0216 A78-29222
- Industrialization of space - Myth or the reality of tomorrow 18 p0218 A78-29660
- A view of the government's role in energy research and development for the civilian sector 18 p0220 A78-30275
- Energy and environment /64th Thomas Hawksley Lecture/ --- overall optimization concept of energy sources diversification [ONERA, TP NO. 1978-20] 18 p0224 A78-31123
- Political and economic justification for immediate realization of a syn fuels industry 19 p0310 A78-34225
- The German research and technology program concerning advanced tracked ground-transportation systems 19 p0329 A78-36700

- Design related RD&D assessment for TNS --- tokamak technology
19 p0349 A78-39877
- Experimental work on oil shale at Lawrence Livermore laboratory and predictions of retorting characteristics of oil shales
19 p0367 A78-41518
- Key-note address - Solar energy research and development
19 p0370 A78-42102
- Unrealities in the energy R & D program
19 p0385 A78-43276
- Energy analysis and energy RD&D - Planning and decisionmaking
20 p0481 A78-44123
- Magnetohydrodynamic energy for electric power generation
20 p0484 A78-44875
- Research challenge - Clean energy from coal
20 p0492 A78-46474
- Controlled fusion - Progress to date
20 p0494 A78-47485
- Nuclear process heat for coal gasification and hydrogen production
20 p0499 A78-49335
- Fluidized-bed energy technology: Coming to a boil --- Book
20 p0516 A78-52500
- Introduction to the 1977 Photovoltaic Solar Energy Conference
20 p0518 A78-52777
- The photovoltaic project of the Commission of the European Communities
20 p0522 A78-52816
- Current status of the U.S. terrestrial photovoltaic conversion program
20 p0522 A78-52817
- Photovoltaic conversion - French research and development activities
20 p0522 A78-52818
- Photovoltaics activity in Mexico
20 p0522 A78-52821
- Italian activities in the field of photovoltaic conversion
20 p0523 A78-52822
- Photovoltaic system in 'Sunshine Project' national R & D program in Japan
20 p0523 A78-52823
- Integrated environmental analysis and the development of new energy technologies [BNL-22676]
17 p0117 N78-10614
- Baseline gas turbine development program [COO-2749-16]
17 p0120 N78-11405
- Scenarios for chemical technology --- forecasts for the year 2000 [BNFT-FB-T-77-01]
17 p0123 N78-11897
- Translations on eastern Europe: Scientific affairs, no. 566 [JPRS-70283]
17 p0147 N78-13849
- Survey of research and development activities in the Netherlands on heat pumps for residential heating [CTI-76-09497]
17 p0156 N78-14684
- Western energy resources and the environment: Geothermal energy [PB-271561/3]
17 p0156 N78-14687
- Heat pipe development [NASA-CR-156669]
18 p0238 N78-16327
- Gas generator research and development: Bi-gas process [FE-1207-29]
18 p0241 N78-16447
- Bibliography of Lewis Research Center technical contributions announced in 1976 [NASA-TM-73860]
18 p0252 N78-17921
- The quality of NOAA's ocean research and development program: An evaluation [PB-277095/6]
18 p0290 N78-21980
- Characterization of substances in products, effluents and wastes from synthetic fuel development processes [BNWL-2224]
19 p0410 N78-24683
- Superconducting power transmission line materials research and conductor development [SAN/0326-1]
19 p0416 N78-25342
- Development and coordination of a program of energy-related oceanographic research and the continental shelves of the Gulf of Mexico [ORO-5017-3]
19 p0434 N78-25742
- A collection of Stirling engine reports from General Motors' research, 1958 to 1970. Part 6: Regenerators [GMR-269-PT-6]
19 p0439 N78-26318
- Tri-Lity. Research and development needs in advanced energy technology [HELI-SA-1191-REV]
19 p0442 N78-26450
- Advanced fuel cell development [ANL-77-79]
19 p0445 N78-26571
- Applied science and research applications, recent research reports, February 1978 [PB-278530/1]
19 p0452 N78-26986
- Research and development for fuels from woody biomass [TID-28024]
20 p0541 N78-28263
- Inertial Confinement Fusion (ICF) [UCRL-79856]
20 p0556 N78-28953
- Improved Stirling engine development
20 p0570 N78-30315
- Support research and development on separations technology [ORNL/TM-5843]
20 p0583 N78-30685
- Future needs and opportunities in the air traffic control system [GPO-98-931]
20 p0588 N78-31076
- Environmental challenges of the President's energy plan: Implications for research and development [GPO-96-834]
20 p0593 N78-31543
- Solar heating and cooling systems design and development [NASA-CR-150786]
20 p0604 N78-32546
- Solar energy research at LASL [LA-7115-PR]
20 p0608 N78-32581
- RESEARCH FACILITIES**
- Master control and data system for the 5MW solar thermal test facility [SAND-78-0205C]
19 p0460 N78-27562
- Environmental monitoring at major US Energy Research and Development Administration contractor sites: Calendar year, 1976, volume 1 [ERDA-77-104/1-VOL-1]
19 p0466 N78-27635
- Environmental monitoring at major US Energy Research and Development Administration contractor sites: Calendar year 1976, volume 2 [ERDA-77-104/2-VOL-2]
19 p0466 N78-27636
- Facilitating data interchange with ERDA [BNL-22595]
19 p0468 N78-27988
- RESEARCH MANAGEMENT**
- Unrealities in the energy R & D program
19 p0385 A78-43276
- Energy management as a scientific discipline
17 p0111 N78-10558
- Preliminary assessment for designing experiments using federal innovation processes [PB-270089/6]
17 p0122 N78-11863
- Energy conservation R and D objectives workshop. Volume 1: Working papers [CONF-770305-PT-1]
17 p0139 N78-13568
- Solar irrigation program plan, revision [SAND-77-0730-REV]
17 p0151 N78-14642
- The quality of NOAA's ocean research and development program: An evaluation [PB-277095/6]
18 p0290 N78-21980
- Petroleum industry involvement in alternative sources of energy [GPO-93-800]
19 p0408 N78-24661
- Alternative fuels utilization program [UCID-17645]
19 p0414 N78-25241
- Report on ERDA workshop with southeastern states and cities on improving coordination in energy R&D and D especially for solar programs [TID-27778]
19 p0423 N78-25571
- An agenda for technology assessment in the materials field. Volume 1: Principal findings --- energy technology requirements and impact [PB-278639/0]
19 p0453 N78-27009
- An agenda for technology assessment in the materials field. Volume 2: Appendices --- energy technology requirements and impact [PB-278640/8]
19 p0453 N78-27010
- Thermodynamic and transport properties of interstitial hydrogen isotopes in metal systems [COO-3551-44]
20 p0611 N78-33224
- Benefits derived from the outer continental shelf environmental studies program are questionable [PB-281782/3]
20 p0614 N78-33520
- ERDA facilities: A national resource for resolving energy problems [ERDA-77-80]
20 p0623 N78-33597

- The multiprogram laboratories: A national resource for nonnuclear energy research, development, and demonstration
[PB-281265/9] 20 p0624 N78-33607

SCHOOLS

Application of solar energy to schools and residences 18 p0181 A78-24759

Research design construction and evaluation of a low energy utilization school, phase 2 [PB-269407/3] 17 p0112 N78-10569

State-of-the-art of functional use data measuring energy consumption in the commercial sector [PB-269906/4] 17 p0115 N78-10592

SCHOTTKY DIODES

Efficiency calculations for thin film polycrystalline semiconductor Schottky barrier solar cells 17 p0013 A78-10920

A contribution to Schottky barrier solar cell theory 17 p0025 A78-11041

Cuprous oxide Schottky barrier photovoltaic cells 17 p0025 A78-11042

Controlling open circuit voltage in silicon Schottky /MIS/ solar cells 17 p0025 A78-11043

Solar cells using Schottky barriers on amorphous silicon 17 p0025 A78-11045

Diffusion length measurement by a simple photoresponse technique --- for MIS and Schottky barrier solar cells 17 p0026 A78-11050

Improvement of efficiency in Si Schottky barrier solar cells 17 p0026 A78-11051

The effects of illumination on the depletion-region recombination currents in Schottky-barrier solar cells 17 p0026 A78-11052

The structure and Schottky barrier diode properties of polycrystalline GaAs films grown by the close spaced vapour transport technique on Mo substrates 17 p0027 A78-11060

Dye sensitization of Schottky barrier solar cells 17 p0055 A78-11340

Enhancement of MIS solar-cell 'efficiency' by peripheral collection 17 p0070 A78-13797

Thin Pt and Pd silicide Schottky barriers for silicon solar cells 18 p0171 A78-22267

An optimum thickness indicator for evaporating metals on Schottky barrier solar cells 18 p0182 A78-24967

Theoretical analysis of a novel MPN gallium arsenide Schottky barrier solar cell 18 p0227 A78-31385

SnO₂/Si solar cells - Heterostructure of Schottky-barrier or MIS-type device 19 p0338 A78-38550

Dependence of Schottky barrier solar cell efficiency on the thickness of the interfacial layer 19 p0373 A78-42128

Effect of minority carrier diffusion length on efficiency of Schottky barrier solar cell 19 p0373 A78-42129

Back-wall Schottky barrier solar cells - with and without an interfacial layer 19 p0373 A78-42130

Comparative calculations for thin-film and bulk single-crystal Schottky-barrier solar cells 20 p0482 A78-44429

A Schottky-barrier solar cell on sliced polycrystalline GaAs 20 p0510 A78-51068

Electronic characterization of indium tin oxide/silicon photodiodes --- for solar cells 20 p0510 A78-51243

Progress on aluminium p-type silicon SBSCs --- Schottky Barrier Solar Cells 20 p0519 A78-52791

Schottky /MIS/ solar cells on ribbon silicon 20 p0520 A78-52802

A collection-velocity model for predicting efficiency of Schottky barrier solar cells 20 p0521 A78-52805

On the improvement of Schottky solar cells 20 p0526 A78-52870

High voltage, high current Schottky barrier solar cell [NASA-CASE-NPO-13482-1] 17 p0135 N78-13526

Silicon Schottky photovoltaic diodes for solar energy conversion [PB-274041/3] 18 p0251 N78-17493

SCIENTIFIC SATELLITES

International Scientific-Technological Conference on Space, 17th, Rome, Italy, March 25, 26, 1977, Proceedings --- and scientific satellites for earth resources monitoring; solar and alternate energy sources 17 p0065 A78-12876

SCREENING

Screening property of the limiter shadow region for heavy wall impurities --- in tokamak 19 p0378 A78-42213

SCREENS

A literature review: Problem definition studies on selected toxic chemicals. Volume 4: Occupational health and safety aspects of the fog oils SGP No. 1 and SGP No. 2 and smoke screens generated from them [AD-A055903] 20 p0610 N78-32709

SCREWS

Injection of coal by screw feed 17 p0133 N78-13264

The use of twin screw extruders for feeding coal against pressures of up to 1500 PSI 17 p0134 N78-13269

SCRUBBERS

Scrubbers win the energy-SO₂ controversy 17 p0002 A78-10300

Control of fine particulate from coal-fired utility boilers [APCA PAPER 77-14,1] 18 p0185 A78-25410

Coal dryer emission control with the energy saving centripetal vortex wet scrubber [APCA PAPER 77-17,5] 18 p0185 A78-25424

Startup and operation of the Research-Cottrell/Bahco scrubber for removal of SO₂ and particulates from flue gas at Rickenbacker Air Force Base, Columbus, Ohio 18 p0232 A78-32108

Fume formation in ammonia scrubbers [ASME PAPER 77-WA/APC-2] 19 p0297 A78-33127

Sulfur dioxide removal at Salt River Project's Coronado Generating Station 20 p0504 A78-50133

Critical analysis of sulfur dioxide removal systems for power generation applications 20 p0504 A78-50134

Interface design problems between coal fired boilers and SO₂ scrubbing systems 20 p0504 A78-50135

Flue gas desulfurization in venturi scrubbers and spray towers 20 p0504 A78-50136

A review of the preliminary operating results of the flue gas desulfurization unit at the Valmont Generating Station 20 p0504 A78-50137

Design of a spray tower scrubber for Coal Creek Station 20 p0504 A78-50141

Flue gas desulfurization systems: Design and operating considerations. Volume 1: Executive summary [PB-280253/6] 20 p0598 N78-31598

Flue gas desulfurization systems: Design and operating considerations. Volume 2: Technical report [PB-280254/4] 20 p0598 N78-31599

Cleaning coal with coal: Coal humic acids for removal of acids, alkali, salinity, and heavy metal pollutants associated with the use of coal as a fuel [PB-280580/2] 20 p0599 N78-31608

SEA STATES

Operational sea state and design wave criteria - State-of-the-art of available data for U.S.A. coasts and the equatorial latitudes --- Ocean Thermal Energy Conversion platform design 19 p0302 A78-33322

SEA WATER

Kinetics of chemical processes involved in the decontamination of seawater with respect to oil hydrocarbons 18 p0193 A78-26818

- The detection of hydrocarbon sheets on the sea
18 p0209 A78-28395
- Studies of biofouling in Ocean Thermal Energy
Conversion plants
19 p0305 A78-33342
- Corrosion fatigue of 5086-H34 aluminum in sea water
--- for ocean thermal energy conversion
19 p0305 A78-33344
- Compatibility studies for the
ammonia-titanium-seawater system as related to
Ocean Thermal Energy Conversion
19 p0305 A78-33345
- Potential of open cycle OTEC - A general survey
--- Ocean Thermal Energy Conversion
19 p0305 A78-33347
- Sea thermal power cycles
19 p0306 A78-33348
- Preliminary analysis of the effects of sea water
leakage on the performance of the ammonia cycle
--- in Ocean Thermal Energy Conversion plants
19 p0306 A78-33351
- Nitric acid cycle process for extracting thermal
energy from low-level heat sources --- for Ocean
Thermal Energy Conversion
19 p0315 A78-35171
- Solar energy prospects in Saudi Arabia
19 p0345 A78-39671
- Energy-quality calculations for freshwater
chemical potential
20 p0596 A78-31566
- SEALING**
Seals for geothermal roller drill bits
[ASME PAPER 77-PET-53]
17 p0077 A78-15081
- SEALS (STOPPERS)**
The development of a regenerator seal for
vehicular use --- for automatic gas turbine
engines
20 p0508 A78-50587
- Friction and wear of several compressor gas-path
seal movements
[NASA-TP-11281]
17 p0158 A78-15229
- Evaluation of reciprocating seals for Stirling
cycle engine application
20 p0570 A78-30317
- Technical evaluation report on the 51st(B) PEP
Specialists' Meeting of the Propulsion and
Energetics Panel on Seal Technology in Gas
Turbine engines
[AGARD-AR-123]
20 p0600 A78-32104
- SEAMS (JOINTS)**
Advanced interconnect for use with ultrasonic seam
welding on solar cells
17 p0016 A78-10958
- SEARCH PROFILES**
Summary report of availability of geothermal data
for potential direct heat application in Nevada
[NVO/0671-1]
20 p0584 A78-30693
- SEASAT-A SATELLITE**
Applications of Seasat to the offshore oil, gas
and mining industries
[AIAA 77-1583]
17 p0069 A78-13666
- SEAWEEDES**
The U.S. Navy's Ocean Food and Energy Farm Project
17 p0007 A78-10657
- The anaerobic digestion of *Macrocyctis pyrifera*
under mesophilic conditions --- for synthetic
fuel recovery
17 p0035 A78-11135
- Possibilities of biomass from the ocean - The
Marine Farm Project
18 p0208 A78-28362
- Biological constraints on seaweed culture --- for
biomass conversion systems
18 p0208 A78-28368
- SECONDARY INJECTION**
Quenching of nitric-oxide formation in methane-air
flames by secondary-air injection
17 p0081 A78-16338
- SECURITY**
Report on emergency electrical power supply
systems for nuclear fuel cycle and reactor
facilities security systems
[Y/SUB-77-14263/1]
19 p0416 A78-25340
- SEDIMENTARY ROCKS**
Regional investigations of tectonic and igneous
geology, Iran, Pakistan, and Turkey
[E78-10197]
20 p0591 A78-31495
- SEDIMENTS**
Thermal alteration experiments on organic matter
in recent marine sediments as a model for
petroleum genesis
17 p0097 A78-18784
- Modeling in the oceans and ocean sediments and
their response to fossil fuel carbon dioxide
emissions
20 p0535 A78-53464
- Onsite control of sedimentation utilizing the
modified block-cut method of surface mining
[PB-272244/5]
17 p0159 A78-15552
- Hydrogeochemical and stream-sediment survey of the
National Resource Evaluation (NRE) program:
Western United States
[UCID-16911-77-2]
19 p0434 A78-25722
- SEISMOLOGY**
Instrumentation for in situ coal gasification. I -
Background and overview
19 p0367 A78-41522
- SELECTION**
Site selection for MSFC operational tests of solar
heating and cooling systems
[NASA-CR-150537]
18 p0263 A78-19602
- SELECTIVE DISSEMINATION OF INFORMATION**
What does it concern --- technological information
dissemination and social response
18 p0218 A78-29873
- The role of scientific and technical information
in critical period management, volume 1
[PB-272178/5]
17 p0157 A78-14939
- SELENIDES**
Selenide isotope generators
[CONF-770302-1]
17 p0114 A78-10581
- SELF ALIGNMENT**
An automatic alignment system for a multibeam
laser system --- for use in fusion reactors
19 p0359 A78-40222
- SEMICONDUCTING FILMS**
Solar cells by ionized-cluster beam deposition and
epitaxial techniques
17 p0013 A78-10912
- The structure and Schottky barrier diode
properties of polycrystalline GaAs films grown
by the close spaced vapour transport technique
on Mo substrates
17 p0027 A78-11060
- Rheotaxy for large grain thin film solar cell
fabrication
17 p0027 A78-11067
- Low cost, high efficiency solar cells using
indium-tin oxide on semiconductor /OSOS/ solar
cells
17 p0054 A78-11334
- Evaluation of the CdS/CdTe heterojunction solar cell
17 p0062 A78-11815
- Silicon films as selective absorbers for solar
energy conversion
17 p0070 A78-13905
- Molecular-beam epitaxy in space
17 p0103 A78-19472
- Thin silicon film p-i-n photodiodes with internal
reflection
18 p0205 A78-28142
- Observations of anisotropic diffused layer sheet
resistance in EFG silicon ribbon solar cells ---
Edge-defined Film-fed Growth
18 p0223 A78-30648
- High conductivity ZnSe films --- for solar cells
19 p0310 A78-34256
- American Vacuum Society, National Symposium, 24th,
and Conference on Microbalance Techniques, 15th,
Boston, Mass., November 8-11, 1977, Proceedings
19 p0324 A78-36030
- Thickness dependence of structural and electrical
properties of CdS films for solar cells
19 p0325 A78-36035
- Structure and morphology of chemical-sprayed CdS
films
19 p0325 A78-36036
- Photoelectric properties of CdS thin films
obtained by vacuum evaporation from the
heterogeneous CdS.Cr2O3 system
19 p0333 A78-37261
- Calculation of photocurrent and limit efficiency
of p-CdTe - n-CdS film-type photocells
19 p0335 A78-37944

Low-resistivity ZnCdS films for use as windows in heterojunction solar cells 19 p0369 A78-41913

Evaporated CdS film based heterojunction solar cells 19 p0372 A78-42122

Technology of Cu₂S-CdS solar cells - German state-of-the-art 19 p0373 A78-42127

Photovoltaic system in 'Sunshine Project' national R & D program in Japan 20 p0523 A78-52823

Spray preparation of cuprous sulfide layers 20 p0523 A78-52831

Recrystallization of semiconducting polycrystalline ribbons using the Peltier effect --- for solar cell production 20 p0531 A78-53333

Prospects for the use of amorphous semiconductors in solar energy conversion 20 p0533 A78-53420

Silicon films on foreign substrates for solar cells 20 p0536 A78-53491

II-VI compounds in solar energy conversion 20 p0536 A78-53493

CdS thin films for terrestrial solar cells 20 p0536 A78-53494

The current status of the preparation of single crystals, bicrystals, and epitaxial layers of p-InP and of polycrystalline p-InP films for photovoltaic applications 20 p0537 A78-53498

SEMICONDUCTOR DEVICES

High efficiency and large area GaAl/As-GaAs solar cells 17 p0026 A78-11054

The operation of the semiconductor-insulator-semiconductor /SIS/ solar cell theory 18 p0192 A78-26717

Direct heat pipe cooling of semiconductor devices [AIAA 78-450] 19 p0319 A78-35626

Analysis of the characteristics of semiconductor photocells in the 100-400 K temperature range 19 p0336 A78-37950

A model for the current-voltage curve of photoexcited semiconductor electrodes 19 p0343 A78-39457

Competitive oxidation at semiconductor photoanodes 19 p0344 A78-39466

Solar energy conversion using semiconducting photoanodes 20 p0469 A78-43388

Photovoltaic and photoconductive infrared detectors 20 p0483 A78-44572

A possible explanation for the photovoltaic effect in indium tin oxide on InP solar cells 20 p0493 A78-47449

'Wet-type' solar cells with semiconductor electrodes 20 p0499 A78-49639

Optimization of the exponential distribution of dopant in the base of a semiconductor photocell 20 p0518 A78-52772

Effect of temperature on the operational parameters of pCdTe-nCdS thin-film photocells 20 p0518 A78-52773

A novel electrochemical solar cell 20 p0522 A78-52815

Advanced semiconductor technology for alternate energy sources: dc to ac inverters [AD-A048806] 18 p0269 N78-19662

SEMICONDUCTOR DIODES

Nonreflecting vertical junction silicon solar cell optimization [AD-A046150] 17 p0151 N78-14636

SEMICONDUCTOR JUNCTIONS

Structures for photocells - Homojunctions, heterostructures or heterojunctions 17 p0003 A78-10552

Model of the CdS/Cu₂S heterojunction 17 p0017 A78-10974

A contribution to Schottky barrier solar cell theory 17 p0025 A78-11041

Vapor-phase-epitaxial growth, processing and performance of AlAs-GaAs heterojunction solar cells 17 p0026 A78-11055

Computer analysis of heterojunction and graded bandgap solar cells 17 p0026 A78-11056

Improved GaAs solar cells with very thin junctions 17 p0026 A78-11057

Photocells employing smooth AlGaAs-GaAs heterojunctions to extend the spectral response range 17 p0062 A78-11668

Photocells with intermediate conversion of radiation and which operate at an increased concentration /2500-fold/ of solar radiation 18 p0172 A78-22795

Simplified fabrication of GaAs homojunction solar cells with increased conversion efficiencies 18 p0216 A78-29199

AlGaAs-GaAs graded-heterostructure photocells with expanded sensitivity spectrum 19 p0300 A78-33271

CuInS₂ liquid junction solar cells 19 p0310 A78-34274

Electrical and photovoltaic characteristics of indium-tin oxide/silicon heterojunctions 19 p0315 A78-35282

Analysis of generation in space charge regions of solar cells 19 p0334 A78-37466

A simple theory of back surface field /BSF/ solar cells 19 p0338 A78-38552

- Process to reduce the manufacturing cost of monocrystalline silicon solar cells 20 p0518 A78-52780

The MIS and MISIM solar cell
20 p0520 A78-52801

A new approach for developing solar photovoltaic cells
20 p0527 A78-52887

Multicomponent tetrahedral compounds for solar cells
20 p0537 A78-53499

Novel silicon crystals and method for their preparation
[NASA-TM-75195] 18 p0290 A78-21957

Heterostructure single crystal silicon photovoltaic cell. Type A: Semiconductor heterojunction silicon devices
[TID-27910] 19 p0462 A78-27579

SINTERING
Solar conversion efficiency of pressure sintered cadmium selenide liquid junction cells
19 p0344 A78-39469

Catalyst sintering studies --- phosphoric acid fuel cells
[EPRI-EM-661] 20 p0620 A78-33577

SITES
Evaluation of offshore site for wind energy generation
17 p0029 A78-11080

Candidate locations for SPS rectifying antennas
[NASA-TM-78146] 17 p0138 A78-13553

Site dependent factors affecting the economic feasibility of solar powered absorption cooling
[NASA-CR-150533] 18 p0255 A78-18524

Site selection for MSFC operational tests of solar heating and cooling systems
[NASA-CR-150537] 18 p0263 A78-19602

Site selection feasibility for a solar energy system on the Fairbanks Federal Building
[NASA-CR-150559] 18 p0268 A78-19645

SIZE (DIMENSIONS)
Piping design considerations in a solar-Rankine power plant --- pipe size
17 p0158 A78-15085

SIZE DETERMINATION
Optimal sizing of solar heating components by equating marginal costs of suboptimal investment paths
17 p0084 A78-16840

SIZING SCREENS
Screens for the OTEC plants --- protection from biological materials for Ocean Thermal Energy Conversion heat exchangers
19 p0303 A78-33329

SLAGS
Effects of slagging in MHD generator ducts
[ASME PAPER 77-HT-59] 17 p0089 A78-17491

The slagging MHD generator - A parametric study --- vapor condensation during coal combustion
[AIAA PAPER 78-1174] 20 p0485 A78-45135

Characterization of open-cycle coal-fired MHD generators, revision A
[PE-2478-4-REV-A] 19 p0422 A78-25566

Slagging MHD generator: A parametric study
[SAND-77-1951] 20 p0564 A78-29608

SLICING
Multi-wire slurry wafering demonstrations --- slicing silicon ingots for solar arrays
[JPL-PUB-78-37] 18 p0276 A78-20620

SLIDING FRICTION
Friction and wear of selected metals and alloys in sliding contact with AISI 440 C stainless steel in liquid methane and in liquid natural gas
[NASA-TP-1150] 18 p0273 A78-20512

SLUDGE
Operating experience with large scale digestion of urban refuse with sewage sludge
17 p0036 A78-11136

Combined refuse and sludge incineration
17 p0037 A78-11151

Improving sludge incineration and vacuum filtration with pulverized coal
17 p0095 A78-18498

Direct and indirect energy recovery via pyrolysis in Multiple Hearth Furnaces
20 p0513 A78-51787

Evaluation of sulfate-bearing waste material from fluidized bed combustion of coals for soil stabilization
[PB-278031/0] 19 p0451 A78-26657

SLOBRIES

The role of solvent in the solvent refined coal process
18 p0190 A78-26577

Products from two-step coal liquefaction using three different first-step reactor packings
18 p0190 A78-26578

Rocketdyne's advanced coal slurry pumping program
17 p0133 A78-13266

Status of steam-iron pilot plant operations
[CONF-771092-5] 19 p0415 A78-25250

Appendix: Cook inlet coal: Economics of mining and marine slurry transport
[PB-278756/2] 19 p0455 A78-27493

Feasibility study of mining Alaska coal and transportation by slurry to the west coast
[PB-278755/4] 19 p0458 A78-27545

Task reports: Slurry coal pipelines, volume 2, part 1 --- environmental impact
[PB-778676/2] 19 p0465 A78-27603

Task reports: Slurry coal pipelines, volume 2, part 2 --- environmental impact
[PB-278677/0] 19 p0465 A78-27604

SLURRY PROPELLANTS
The effect of burner design and operational factors on the emission of nitrogen oxides when burning an anthracite/slurry mixture
19 p0335 A78-37861

SMEETING

High-purity silicon for solar cell applications
19 p0344 A78-39567

SMOKE

A literature review: Problem definition studies on selected toxic chemicals. Volume 4: Occupational health and safety aspects of the fog oils SGF No. 1 and SGF No. 2 and smoke screens generated from them
[AD-A055903] 20 p0610 A78-32709

Computer simulation of the visual effects of smoke plumes
[LA-UR-78-689] 20 p0624 A78-33625

SOCIAL FACTORS

A detailed analysis of the environmental effects of energy utilization in the U.S. economy
17 p0031 A78-11102

Technical and socio-economic aspects of solar energy and rural development in developing countries
17 p0083 A78-16829

Technological innovation and social exploration in economic growth and energy development
18 p0204 A78-27935

What does it concern --- technological information dissemination and social response
18 p0218 A78-29873

Attitudes and behavior of the general public regarding different forms of energy production
20 p0498 A78-49155

Aviation futures to the year 2000
20 p0528 A78-52966

Transportation in America's future: Potentials for the next half century. Part 1: Societal
[PB-270467/4] 17 p0129 A78-12910

Energy conservation in the home: An energy education/conservation curriculum guide for home economics teachers
[EDM-1028] 18 p0284 A78-21607

Management of social and economic impacts associated with the construction of large-scale projects: Experiences from the Western coal development communities
[BNWL-RAP-16] 19 p0468 A78-27975

Hydrothermal energy systems FY 1977: Environmental Development Plan (EDP)
[EDP/G-01(77)] 20 p0585 A78-30702

Energy impact assistance: Report to the president
[DOE/IR-0009] 20 p0607 A78-32577

SODIUM

The sodium-sulfur battery - Problems and promises
20 p0531 A78-53338

Material selection considerations for fluoride thermal energy storage containment in a sodium heat pipe environment
[AD-A042389] 17 p0112 A78-10563

Ford/EPDA sodium-sulfur battery development, phase 2
[COO-2566-30] 19 p0463 A78-27585

SODIUM COOLING

A liquid sodium cooled solar tower system
17 p0053 A78-11325

SODIUM HYDROXIDES

- Large-scale thermal energy storage using sodium hydroxide /NaOH/ 17 p0051 A78-11309
- Biogasification using NaOH treated pig faeces 18 p0194 A78-27550

SODIUM NITRATES

- Boiling heat transfer in a bench-scale molten-salt thermal energy storage device [ORNL/TM-5689] 17 p0114 A78-10586

SODIUM SULFATES

- Solar energy conversion through phase transformations 20 p0513 A78-51819

SODIUM SULFUR BATTERIES

- The development of beta-alumina for use in electro-chemical cells - A survey 20 p0498 A78-49288

SODIUM VAPOR

- Sodium vapor heat pipe laser cell [AIAA 78-392] 19 p0317 A78-35587

SOIL MECHANICS

- Evaluation of sulfate-bearing waste material from fluidized bed combustion of coals for soil stabilization [PB-278031/0] 19 p0451 A78-26657

SOILS

- Ground as a heat source --- for house heating 17 p0097 A78-18816

STIRLING CYCLE

Solar Stirling power generation - Systems analysis
and preliminary tests 17 p0052 A78-11321

Some results of an experimental study of the
Stirling engine --- in solar energy systems 17 p0064 A78-12391

Further Stirling engine development work. II 17 p0093 A78-18049

Determination of the thermodynamic parameters of a
thermal compressor --- for solar energy conversion 19 p0331 A78-36856

Some results of an experimental investigation of a
Stirling engine --- in solar energy systems 19 p0331 A78-36868

Stirling cycle solar cooling system 20 p0479 A78-43991

Optimization and design calculation of a radiative
cooling system for a Stirling-engine energy unit
--- operating in planetary environment 20 p0495 A78-48403

Materials technology assessment for Stirling engines
[NASA-TM-73789] 18 p0247 N78-17187

Automotive Stirling engine development program ---
fuel economy assessment [NASA-CR-135331] 19 p0392 N78-22970

A collection of Stirling engine reports from
General Motors' research, 1958 to 1970. Part
1.2: Model 3 ground power units design,
construction, and testing, General Motors
research studies [GMR-2690-PT-1.2] 19 p0437 N78-26250

Effect of diesel fuel on Stirling engine ground
power unit components --- fuel system [GMR-2690-SECT-1.201] 19 p0437 N78-26251

Manual cranking tests of the Stirling engine
ground power unit [GMR-2690-SECT-1.202] 19 p0437 N78-26252

The GPU-3 Stirling engine ground power unit
ignition system [GMR-2690-SECT-1.203] 19 p0438 N78-26253

Combustor development for Stirling ground power
units, GPU-2 and GPU-3 [GMR-2690-SECT-1.204] 19 p0438 N78-26254

Preliminary performance tests of a GPU-3 Stirling
engine on hydrogen, helium, and nitrogen [GMR-2690-SECT-1.206] 19 p0438 N78-26256

STIR-LEC 2 Stirling engine performance [GMR-2690-SECT-1.207] 19 p0438 N78-26257

Method of tests and instructions (generator sets,
Stirling engine drive) [GMR-2690-SECT-1.208] 19 p0438 N78-26258

A collection of Stirling engine reports from
General Motors' research, 1958 to 1970. Part 2:
Stirling cycle analysis and engine design studies
[GMR-2690-PT-2] 19 p0438 N78-26262

Stirling engine heater tube failures [GMR-2690-SECT-3.101] 19 p0438 N78-26285

Stirling engine heater tube failure [GMR-2690-SECT-3.102] 19 p0438 N78-26286

Examination of Stirling engine regenerator screens
[GMR-2690-SECT-3.105] 19 p0439 N78-26289

Evaluation of stresses in tubes with external heat
flux and internal pressurization [GMR-2690-SECT-3.204] 19 p0439 N78-26294

A collection of Stirling engine reports from
General Motors' research, 1958 to 1970. Part 6:
Regenerators [GMR-2690-PT-6] 19 p0439 N78-26318

Stirling thermal engine regenerator cost reduction
program outline [GMR-2690-SECT-6.001] 19 p0439 N78-26319

Stirling thermal engine regenerator cost reduction
program report 1: Wire cloth matrix materials
[GMR-2690-SECT-6.002] 19 p0439 N78-26320

Stirling engine regenerator performance analysis
[GMR-2690-SECT-6.003] 19 p0439 N78-26321

Stirling thermal engine regenerator cost reduction
program. Report 2: June 1965 status [GMR-2690-SECT-6.004] 19 p0439 N78-26322

Stirling thermal engine regenerator cost reduction
program. Report 3: Manufacturing the
electro-motive division 4S/8V12C Stirling engine
regenerators [GMR-2690-SECT-6.005] 19 p0439 N78-26323

Stirling thermal engine regenerator cost reduction
program. Report 4: NET NET fluid friction heat
transfer test results, engine test for four
regeneration materials [GMR-2690-SECT-6.006] 19 p0440 N78-26324

A collection of Stirling engine reports from
General Motors' research, 1958 to 1970. Part 7:
Thermal energy storage and publication list, 7.1
Thermal energy storage, 7.2 List of general
motors Stirling engine publications
[GMR-2690-PT-7] 19 p0440 N78-26326

Thermal energy storage Stirling engine power
plants 1: Calculated heat transfer and pressure
drop across ground power unit heater assemblies
[GMR-2690-SECT-7.104] 19 p0440 N78-26330

Energy storage systems complement the Stirling
engine [GMR-2690-SECT-7.107] 19 p0440 N78-26333

Thermal energy storage--Stirling engine power
plants 2. Calculated energy transfer rates from
solidifying lithium fluoride to a plain-tube
heater [GMR-2690-SECT-7.108] 19 p0440 N78-26334

Performance evaluation of a Stirling cycle heat pump
[GMR-2690-SECT-7.110] 19 p0441 N78-26336

Thermal energy storage-Stirling engine powerplants
for road vehicles [GMR-2690-SECT-7.111] 19 p0441 N78-26337

A Stirling engine computer model for performance
calculations [NASA-TM-78884] 20 p0566 N78-29994

Stirling engine project status 20 p0570 N78-30314

Improved Stirling engine development 20 p0570 N78-30315

Initial test results with single cylinder rhombic
drive Stirling engine 20 p0570 N78-30316

Evaluation of reciprocating seals for Stirling
cycle engine application 20 p0570 N78-30317

Materials technology assessment for Stirling engines
20 p0570 N78-30318

Survey of Stirling engine analytical design methods
20 p0570 N78-30319

The development of 40-150 kw Stirling engines in
Sweden and their application in mining
equipment, total energy systems and road vehicles
20 p0573 N78-30346

Stirling engine program 20 p0573 N78-30348

Initial test results with a single-cylinder
rhombic-drive Stirling engine --- to be applied
to automobile engine design to conserve energy
[NASA-TM-78919] 20 p0592 N78-31533

STOCHASTIC PROCESSES

Stochastic modeling and forecasting of solar
radiation data 17 p0084 A78-16842

STOICHIOMETRY

Stoichiometric calculations concerning the
Fischer-Tropsch synthesis 17 p0077 A78-15101

Combustion and incineration processes --- Book
19 p0300 A78-33212

STORAGE BATTERIES

Control and dynamic analysis of a wind energy
conversion and storage system operating at
constant velocity ratio 17 p0028 A78-11076

The battery energy storage test /BEST/ facility -
Its purposes and description 17 p0029 A78-11079

New batteries and their impact on electric vehicles
17 p0085 A78-16923

Techniques for the determination of ohmic drop in
half-cells and full cells - A review 17 p0095 A78-18408

Current efficiency in the lithium-water battery
17 p0095 A78-18410

The regulation, storage, and conversion of wind
produced electrical energy at the level of a few
hundred watts 18 p0171 A78-22248

An iron-air vehicle battery 18 p0174 A78-23241

Materials requirements for high performance
secondary batteries 18 p0183 A78-25054

- Module/array interface study [NASA-CR-157774]
20 p0615 N78-33533
- STRUCTURAL DESIGN CRITERIA**
- Flat-plate solar collector design for industrial air heating using design data hand book
19 p0375 A78-42157
- Interpretation of oceanographic data for the design of ocean thermal energy conversion plants
20 p0501 A78-49662
- Definition of requirements for geothermal power conversion system studies [UCRL-13751]
18 p0288 N78-21650
- Design data brochure: Solar hot air heater [NASA-CR-150697]
19 p0421 N78-25548
- Inducing the development and adoption of socially efficient automotive technology [FE-279454/3]
20 p0559 N78-29465
- Standard criteria for the economic evaluation of alternative pipeline and fuel gas demonstration plant design concepts [FE-2343-42]
20 p0583 N78-30683
- STRUCTURAL ENGINEERING**
- Anchor systems --- for offshore power plants
19 p0303 A78-33328
- Industrial application of fluidized-bed combustion --- boiler and plant design [FE-2461-5]
19 p0436 N78-26190
- STRUCTURAL FAILURE**
- Metallographic analysis of a steel plate which failed in service in a coal gasifier
17 p0077 A78-15354
- STRUCTURAL MEMBERS**
- Interdisciplinary research and development on the effects of the nature and properties of ceramic materials in the design of advanced structural components [NASA-CR-155733]
18 p0247 N78-17223
- Influence of wind turbine foundation
18 p0266 N78-19626
- STRUCTURAL PROPERTIES (GEOLOGY)**
- The engineering properties of Texas lignite and associated rocks in relation to the stability of an in situ gasification chamber
17 p0071 A78-14072
- Significance of the space imagery for studies of the petroleum platform areas --- in Lower Volga region
19 p0313 A78-34877
- Applications of remote sensing in resource management in Nebraska [E78-10099]
18 p0273 N78-20567
- LANDSAT satellite mapping in Egypt and its possible applications in petroleum and natural gas exploration [E78-10168]
20 p0547 N78-28573
- STRUCTURAL STABILITY**
- The engineering properties of Texas lignite and associated rocks in relation to the stability of an in situ gasification chamber
17 p0071 A78-14072
- Heliostat structural stability as a function of solar heating and ambient temperature changes
20 p0477 A78-43976
- STRUCTURAL VIBRATION**
- Use of asymptotic methods in vibration analysis
18 p0265 N78-19620
- STRUCTURAL WEIGHT**
- Evolution of the aircraft gas turbine engine
18 p0220 A78-30257
- Advanced lightweight solar array technology --- for communication satellites [AIAA 78-533]
19 p0294 A78-32883
- On the relationship between gross vehicle weight, payload, effective range, and cost of electric vehicles [SAE PAPER 780220]
19 p0307 A78-33379
- Weight propagation and equivalent horsepower for alternate-engined cars [SAE PAPER 780348]
19 p0366 A78-41225

SUBMILLIMETER WAVES

Applications of submillimeter waves in plasma physics and controlled fusion research
19 p0360 A78-40241

SUBSIDENCE

Evaluation of geothermal energy exploration and resource assessment, volume 1: A review of geothermal subsidence modeling
[SAN-1269-1-VOL-1] 20 p0613 N78-33515

SUBSONIC AIRCRAFT

Hydrogen fueled subsonic aircraft - A prospective
17 p0100 A78-18843
The NASA Aircraft Energy Efficiency Program
18 p0226 A78-31302
The Liquid Hydrogen Option for the Subsonic Transport: A status report
[NASA-TM-74089] 17 p0109 N78-10306

SUBSONIC FLOW

Subsonic flow in an MHD channel
19 p0341 A78-38963

SUBSONIC SPEED

Adaptation for economization, or adaptation for the economization of energy --- in transport aircraft design and operation
17 p0063 A78-12030

SUBSTRATES

Silicon solar cells on metallurgical silicon substrates
17 p0013 A78-10915
Effect of substrate on graphite and other solar selective surfaces
19 p0345 A78-39637
Failure analysis of cadmium sulphide solar cells --- for spacecraft power supplies
19 p0372 A78-42124
Silicon films on foreign substrates for solar cells
20 p0536 A78-53491
Fuel cell stacks
[AD-A042315] 17 p0112 N78-10566
Potential of arid zone vegetation as a source of substrates
[LBL-72114] 20 p0556 N78-28777

SUCTION

Lift on a rotating porous cylinder --- with application to wind power generation
18 p0167 A78-21633
Improvement of windmill efficiency by boundary layer control
20 p0503 A78-49841

SUGAR BEETS

Using sugar crops to capture solar energy --- biomass conversion techniques
18 p0208 A78-28365

SUGAR CANE

Using sugar crops to capture solar energy --- biomass conversion techniques
18 p0208 A78-28365
Only source of energy --- green plants
[LBL-7548] 20 p0606 N78-32568
Fuels from sugar crops
[TID-28191] 20 p0612 N78-33259

SULFATES

Geothermal reservoir temperatures estimated from the oxygen isotope compositions of dissolved sulfate and water from hot springs and shallow drillholes
17 p0062 A78-11492
Conversion rates of SO₂ to submicron sulfate in the plume of a coal-fired power plant in the western United States
[APCA PAPER 77-39,1] 18 p0185 A78-25412
A study of production and growth of sulfate particles in plumes from a coal-fired power plant
19 p0366 A78-41251
Dynamics of automotive sulfate emissions
[PB-280559/6] 20 p0610 N78-32613

SULFATION

Fluidized-bed combustion of coal with lime additives - Catalytic sulfation of lime with iron compounds and coal ash
20 p0491 A78-46371
Chemistry of hot corrosion --- in fossil-fuel energy conversion systems
20 p0531 A78-53339

SULFONATES

El Dorado micellar-polymer demonstration project report --- oil recovery
[BERC/TPR-77/12] 19 p0413 N78-25225

SULFONIC ACID

New materials for fluorosulfonic acid electrolyte fuel cells
[AD-A044414] 17 p0126 N78-12531

SULFUR

Sulfur, energy, and environment --- Book
18 p0224 A78-31069
Some studies on a solid-state sulfur probe for coal gasification systems
19 p0310 A78-34273
Methods and costs of controlling sulfur emissions from a petroleum refinery
19 p0320 A78-35698
Sulfur budget of a power plant plume
19 p0366 A78-41275
The employment of the X-ray fluorescence radioisotope technique for the determination of sulfur in fuel oils
20 p0492 A78-46488
The sodium-sulfur battery - Problems and promises
20 p0531 A78-53338
Investigation of sulfur based thermochemical cycles for hydrogen production by water decomposition
17 p0123 N78-12160
Preliminary evaluation of sulfur variability in low-sulfur coals from selected mines
[PB-275000/8] 18 p0261 N78-18566
Modifications and costs of converting to low sulfur western coals
[CONP-771024-3] 19 p0392 N78-23249
Standards support and environmental impact statement. Volume 2: Promulgated standards of performance for petroleum refinery sulfur recovery plants
[PB-278163/1] 19 p0450 N78-26648
Ford/ERDA sodium-sulfur battery development, phase 2
[COO-2566-30] 19 p0463 N78-27585
Evaluation of sulfur-tolerant catalytic processes for producing peak-shaving alcohol fuels
[EPRI-AP-687] 20 p0558 N78-29263

SULFUR COMPOUNDS

Sulfur, energy, and environment --- Book
18 p0224 A78-31069
Chemistry, thermodynamics and kinetics of reactions of sulphur in coal-gas reactions - A review
18 p0229 A78-31749
Sulphur emissions in Europe
19 p0366 A78-41267

SULFUR DIOXIDES

Scrubbers win the energy-SO₂ controversy
17 p0002 A78-10306
A history of flue gas desulfurization systems since 1850 - Research, development and demonstration
17 p0003 A78-10502
Synthetic SO₂ sorbents for fluidized-bed coal combustors
17 p0003 A78-10503
Supervisory and transmission system for the control of atmospheric pollution in areas surrounding thermoelectric plants
17 p0065 A78-12936
Estimates of smoke and sulphur dioxide pollution from fuel combustion in the United Kingdom for 1975 and 1976
17 p0097 A78-18819
Comparison of calculated and observed characteristics of plumes from two coal-fired power plants located in complex terrain
18 p0167 A78-21821
Ambient air quality in complex terrain
18 p0167 A78-21833
Securing energy production and protecting the environment --- electric power production
18 p0177 A78-23941
An evaluation of control strategies for SO₂ emissions from petroleum refineries
[APCA PAPER 77-43,1] 18 p0184 A78-25380
A continuous monitoring system for sulfur dioxide mass emissions from stationary sources
[APCA PAPER 77-27,5] 18 p0185 A78-25400
Conversion rates of SO₂ to submicron sulfate in the plume of a coal-fired power plant in the western United States
[APCA PAPER 77-39,1] 18 p0185 A78-25412

- Relationships among observed short-term maximum sulfur dioxide concentrations near coal-fired power plants
[APCA PAPER 77-29,5] 18 p0185 A78-25443
- Studies to define the role of coal cleaning in an SO₂ control strategy for TVA
[APCA PAPER 77-14,4] 18 p0186 A78-25446
- Bergbau-Forschung process for the desulfurization of flue gas 18 p0223 A78-30708
- The role of a carbon burnup cell in reducing SO₂ emissions from fluidized-bed coal combustion plants
[WSS/CI PAPER 77-30] 18 p0230 A78-31968
- Emissions from PBC boilers --- Fluidized Bed Combustion 19 p0310 A78-34186
- SO₂ control technologies - Commercial availabilities and economics 19 p0310 A78-34224
- A modeling analysis of the impact of the energy shortage on ambient air quality 19 p0320 A78-35683
- Consol stack gas process for SO₂ removal 19 p0320 A78-35697
- Pollution control with SO₂ recovery 19 p0328 A78-36679
- Nuclei formation rates in a coal-fired power plant plume 19 p0366 A78-41253
- Aerosol size distributions and aerosol volume formation for a coal-fired power plant plume 19 p0366 A78-41254
- Efficiency and reliability of sulfur dioxide scrubbers 19 p0384 A78-42906
- Sulfur dioxide removal at Salt River Project's Coronado Generating Station 20 p0504 A78-50133
- Critical analysis of sulfur dioxide removal systems for power generation applications 20 p0504 A78-50134
- Interface design problems between coal fired boilers and SO₂ scrubbing systems 20 p0504 A78-50135
- Flue gas desulfurization in venturi scrubbers and spray towers 20 p0504 A78-50136
- A review of the preliminary operating results of the flue gas desulfurization unit at the Valmont Generating Station 20 p0504 A78-50137
- Design of a spray tower scrubber for Coal Creek Station 20 p0504 A78-50141
- Sorption of SO₂ on spent shale in packed beds 20 p0505 A78-50143
- Evaluation of the Gaussian plume model at Maryland power plants 20 p0515 A78-52125
- Regional air quality assessment for coal-related energy development in the Northwest 20 p0515 A78-52136
- Sulfur control in coal fired power plants - A probabilistic approach to policy analysis 20 p0528 A78-53047
- Feasibility study of condensation flue gas cleaning /CFGC/ system 20 p0529 A78-53080
- Flue gas desulfurization system capabilities for coal-fired steam generators. Volume 2: Technical report
[PB-279417/0] 19 p0467 A78-27659
- Effects of alternative new source performance standards on flue gas desulfurization system supply and demand
[PB-279080/6] 19 p0467 A78-27661
- Controlling SO₂ emissions from coal-fired steam-electric generators; water pollution impact. Volume 1: Executive summary
[PB-279635/7] 20 p0565 A78-29638
- Controlling SO₂ emissions from coal-fired steam-electric generators; water pollution impact. Volume 2: Technical discussion
[PB-279636/5] 20 p0565 A78-29639
- Flue gas desulfurization systems. Design and operating considerations. Volume 1: Executive summary
[PB-280253/6] 20 p0598 A78-31598
- Flue gas desulfurization systems: Design and operating considerations. Volume 2: Technical report
[PB-280254/4] 20 p0598 A78-31599
- SULFUR OXIDES
Character and transformation of pollutants from major fossil-fuel energy sources
[APCA PAPER 77-15,1] 18 p0185 A78-25406
- Emission control technology for sulphur oxides and nitrogen oxides from flue gases in Japan 20 p0474 A78-43748
- Flue gas desulfurization and other options 20 p0504 A78-50130
- Economic impact of relaxing the regulation on sulfur content of fuel oils (R75-8)
[PB-280974/7] 20 p0609 A78-32608
- SULFURIC ACID
Entropy production, efficiency, and economics in the thermochemical generation of synthetic fuels. I - The hybrid sulfuric acid process 18 p0174 A78-22867
- SUN
Can the sun replace uranium?
[ORAD/IEA (M)-77-2] 20 p0585 A78-30703
- SUNLIGHT
Transmission of sunlight through a uniform water-drop atmosphere --- computer-aided design for solar collectors 17 p0105 A78-19838
- Sunlight concentration for silicon rod solar cells 20 p0520 A78-52797
- Terrestrial photovoltaic performance measurement 20 p0524 A78-52843
- SUPERCONDUCTING MAGNETS
Terawatt pulse power systems utilizing inductive storage 17 p0008 A78-10701
- Superconducting energy storage development for electric utility systems 17 p0032 A78-11109
- Aspects of safety and reliability of superconducting magnet systems for fusion power reactors 17 p0038 A78-11167
- The URMAR-II study and magnet design 17 p0038 A78-11169
- Studies on design and tests of superconductors for Tokamaks 17 p0039 A78-11176
- Design of superconducting magnets for full scale MHD generators 18 p0183 A78-25108
- Superconducting machines --- homopolar d.c. machines and a.c. generators 18 p0225 A78-31154
- The analysis of superconducting magnet systems for the M.H.D. energy conversion 18 p0229 A78-31752
- The U-25B MHD-facility intended for research in strong electric and magnetic fields 19 p0293 A78-32716
- The MHD generator channel No. 1 of the U-25B facility intended for research in strong electric and magnetic fields 19 p0293 A78-32717
- S.C. magnet design for 10 MJ homopolar machine --- as energy storage device for fusion experiments 19 p0348 A78-39840
- Cryostabilization of large superconducting magnets using pool boiled helium II 19 p0350 A78-39896
- Superconducting magnets for fusion reactors - The problem of a reliable and effective cooling system 19 p0350 A78-39897
- The coil winder for the magnet of the Mirror Fusion Test Facility 19 p0350 A78-39901
- Potential damage to dc superconducting magnets due to high frequency electromagnetic waves 19 p0350 A78-39902
- Computational model for superconducting toroidal-field magnets for a tokamak reactor 19 p0350 A78-39905
- General Electric conceptual design of a test coil for the large coil program --- for superconducting electromagnet construction 19 p0351 A78-39928

- Pulsed power conversion with inductive storage --- compression for superconducting coil fields
19 p0353 A78-39954
- Poloidal field coil design for a fusion-fission breeder reactor
19 p0354 A78-39977
- An apparatus to examine pulsed parallel field losses in large conductors --- of superconducting magnetic coils in Tokamak
19 p0355 A78-40006
- Time dependent study of eddy current loss in a superconducting composite --- for Tokamak toroidal field coils
19 p0355 A78-40007
- Losses in a coil where the multifilamentary composite is subjected to simultaneous orthogonal and parallel induction variations --- superconducting toroidal field magnet in Tokamak
19 p0356 A78-40008
- Fast ramp superconductor for ohmic heating coils --- of Tokamak Next Step reactor
19 p0356 A78-40009
- Superconducting energy storage coils
19 p0356 A78-40010
- Dielectric breakdown of liquid and vapor helium in bulk and across epoxy insulation
19 p0357 A78-40047
- Large superconducting magnets - A key issue in commercialization of MHD

- Development program for MHD power generation. Volume 4: Superconducting magnet study [FE-2015-16-VOL-4]
19 p0455 A78-27447
- SUPERCONDUCTING POWER TRANSMISSION**
- Unit helium requirements for superconductive energy applications in the USA
20 p0475 A78-43825
- Modeling refinements for the rectified superconducting alternator --- airborne power supply
20 p0503 A78-49961
- Prospects of using superconducting dc lines [BNL-TR-637]
17 p0115 A78-10589
- Superconducting power transmission line materials research and conductor development [SAN/0326-1]
19 p0416 A78-25342
- Use of superconductive technology for energy storage and power transmission for large power systems: Power parks [LA-TR-77-2805]
20 p0597 A78-31581
- SUPERCONDUCTORS**
- Pulsed superconducting inductive storage system
17 p0008 A78-10702
- Superconductive inductor storage and converters for pulsed power loads
17 p0008 A78-10703
- Superconducting magnetic energy storage
17 p0074 A78-14649
- Advancing technologies --- Book
18 p0225 A78-31151
- Superconducting machines --- homopolar d.c. machines and a.c. generators
18 p0225 A78-31154
- SUPERHEATING**
- A MHD simulation test facility for investigating the thermal properties of a slag/seed coated radiant boiler and superheater for a 2000 Mwt MHD power plant [ASME PAPER 77-HT-64]
17 p0090 A78-17496
- SUPERSONIC COMBUSTION**
- A shock tube study of the ignition delay of methane at elevated temperatures
18 p0199 A78-27831
- SUPERSONIC DIFFUSERS**
- On pressure and heat flux distribution along magnetohydrodynamic generator channel-diffuser systems
17 p0128 A78-12837
- SUPERSONIC FLOW**
- Method for taking account of the effect of chemical kinetics on the thermodynamic properties of the working fluid in a supersonic MHD generator
18 p0168 A78-22137
- Method for taking account of the effect of chemical kinetics on the thermodynamic properties of the working body in supersonic MHD generators
20 p0483 A78-44536
- SUPERSONIC NOZZLES**
- Acceleration nozzles of MHD generators with deformation of supersonic flow
17 p0002 A78-10244
- SUPERSONIC TRANSPORTS**
- Supersonic transport in terms of energy savings
19 p0323 A78-35893
- Propulsion for future supersonic transports - 1978 status
[AIAA PAPER 78-1051]
20 p0496 A78-48486
- Supersonic transportation faced with energy savings [AIAA-NT-77-28]
19 p0402 A78-24131
- SUPPLYING**
- Project Independence Evaluation System (PIES) documentation. Volume 10: Automation of finding rate and discount rates in the FEA gas supply model
[PB-269947/8]
17 p0127 A78-12541
- An overview of US energy options: Supply- and demand-side history and prospects [NASA-CR-155946]
18 p0264 A78-19610
- Integrating policy analysis: Study module 7. Volume 2: Technical appendix
[PR-280037/3]
20 p0598 A78-31587
- Simple economic model for energy research and supply strategies, draft [DOE/ER-0005/D]
20 p0618 A78-33557
- SUPPORT SYSTEMS**
- Design concept of geostationary platform [AIAA PAPER 78-1642]
20 p0514 A78-51981
- SUPPORTS**
- Lateral support structure for constant tension D-shaped coils in tokamak fusion devices
19 p0351 A78-39916
- Vertical axis wind turbine tie-down design with an example [SAND-77-1919]
19 p0429 A78-25631
- SURFACE DEFECTS**
- An analysis of factors influencing the efficiency of EFG silicon ribbon solar cells
17 p0014 A78-10930
- SURFACE DIFFUSION**
- The role of defects on the performance of epitaxial and diffused solar cells fabricated on EFG 'ribbon' silicon --- edge-defined growth process technology
17 p0012 A78-10905
- Solar cell processing with spin-on diffusion sources
17 p0015 A78-10943
- Observations of anisotropic diffused layer sheet resistance in EFG silicon ribbon solar cells --- Edge-defined Film-fed Growth
18 p0223 A78-30648
- SURFACE DISTORTION**
- Estimating the deformation process in the formation of the reflecting surface of solar concentrators
18 p0187 A78-25735
- Evaluation of deformation technique for forming solar concentrator reflecting surfaces
20 p0489 A78-46123
- SURFACE FINISHING**
- Textured surface cell performance characteristics
17 p0019 A78-10996
- First wall surface treating in the Frascati Tokamak FT
19 p0380 A78-42245
- Hydrodynamic air lubricated compliant surface bearing for an automotive gas turbine engine. 2: Materials and coatings [NASA-CR-135402]
20 p0559 A78-29449
- SURFACE GEOMETRY**
- A study of improvements in silicon solar cell efficiency due to various geometrical and doping modifications
17 p0012 A78-10906
- Vortex augmentation of wind energy --- aerodynamic surface design for energy conversion efficiency
17 p0094 A78-18091
- Irradiance for skew rays incident upon a trough-like solar collector of arbitrary shape
17 p0104 A78-19829
- Asymmetrical non-imaging cylindrical solar concentrators
17 p0104 A78-19831
- Geometric factors for plane specular reflectors
17 p0105 A78-19835

- The development and use of the moire method in solar engineering problems 18 p0187 A78-25731
- Concentration of the sun's rays using catenary curves 18 p0214 A78-28843
- Radiation transfer through specular passages - A simple approximation 19 p0369 A78-42030
- Development and application of the moire method in solar engineering problems 20 p0489 A78-46120
- SURFACE LAYERS**
- Spray preparation of cuprous sulfide layers 20 p0523 A78-52831
- SURFACE NAVIGATION**
- Positioning and navigation by satellite --- for marine operations [AIAA 77-1553] 17 p0069 A78-13684
- SURFACE PROPERTIES**
- Post-fabrication treatments, surface properties, and front contact of Cu/x/S-CdS solar cells 17 p0018 A78-10978
- Augmented solar energy collection using different types of planar reflective surfaces - Theoretical calculations and experimental results 17 p0060 A78-11386
- Study of physicochemical processes in fabrication of reflectors from polymer materials --- coat bond in foam-film solar concentrator 18 p0215 A78-28895
- Effect of heat treatment on optical properties of collectors for solar energy installations 18 p0215 A78-28896
- Thermionic emission from electrodes with raised surfaces in a thermionic converter 18 p0224 A78-31011
- Thermal optical surface properties and high-temperature solar energy conversion [AIAA PAPER 78-903] 19 p0324 A78-36021
- Effects of pinholes, oxide traps, and surface states on MIS solar cells 20 p0484 A78-44762
- Study of the physical and chemical processes in fabricating reflectors from polymer materials --- for foam-film solar concentrators 20 p0490 A78-46135
- Influence of heat treatment on solar energy collector optical properties 20 p0490 A78-46136
- Thermal conversion of solar radiation - Theoretical performance of collectors furnished with an absorbent selective surface 20 p0500 A78-49643

SUBJECT INDEX

TECHNOLOGY UTILIZATION

Automotive diesel technology program ---
computerized design 20 p0590 N78-31436
[SAN/1099-1]
Design and cost study for development of lead-acid
batteries suitable for electric vehicle propulsion
[ANL-K-77-3624-1] 20 p0594 N78-31548
Assessment of low- and intermediate-Btu
gasification of coal 20 p0595 N78-31554
[FE-1216-4]
Geothermal exploration techniques: A case study
[EPRI-ER-680] 20 p0597 N78-31577
Performance evaluation of wind energy conversion
systems using the method of bins: Current status
[SAND-77-1375] 20 p0597 N78-31580
Control techniques for nitrogen oxides emissions
from stationary sources - second edition
[PB-280034/0] 20 p0599 N78-31612
Assessment of industrial applications for fuel
cell cogeneration systems
[NASA-CR-135429] 20 p0604 N78-32544
Energy and technology review
[UCRL-52000-77-10] 20 p0607 N78-32572
Appraisal of energy analysis
[EPRI-EA-504] 20 p0616 N78-33547
Environmental development plan for electric energy
systems program, 1977
[DOE/EDP-0016] 20 p0617 N78-33554
Open cycle ocean thermal energy conversion: A
preliminary engineering evaluation
[ALO-3723-76/3] 20 p0620 N78-33575
The 1976 energy resource alternatives II competition
[COO-2698-2] 20 p0622 N78-33595
Symposium proceedings: Environmental aspects of
fuel conversion technology, 3
[PB-282429/0] 20 p0625 N78-33636
Geothermal energy. Part 3: Technology and
general studies, volume 3. Citations from the
NTIS data base
[NTIS/PS-78/0666/4] 20 p0625 N78-33883
Assessment of the role of advanced technologies in
small utilities
[EPRI-EM-696-VOL-2] 20 p0626 N78-34008
TECHNOLOGY TRANSFER
What does it concern --- technological information
dissemination and social response 18 p0218 A78-29873
Assessment of solar applications for transfer of
technology A case of solar pump 20 p0500 A78-49640
Information and data flows in societal problem
areas: Focus-energy 17 p0118 N78-10965

- ERDA Geothermal Component Test Facility (GCTF), East Mesa, Imperial Valley, California. Test operations management plan [TID-28010] 19 p0397 N78-23577
- DOE LeRC photovoltaic systems test facility [NASA-TM-78923] 19 p0443 N78-26549
- Master control and data system for the 5MW solar thermal test facility [SAND-79-0205C] 19 p0460 N78-27562
- TEST STANDS
 - An Early Ocean Test Platform Conversion --- for thermal energy conversion 19 p0300 A78-33302
 - An Early Ocean Test Platform for testing cycle components --- in Ocean Thermal Energy Conversion 19 p0300 A78-33303
 - Use of a field bench for testing turbojet engines 20 p0501 A78-49731

TEST VEHICLES

- General safety considerations of the Ohio DOT electric vehicle [SAE PAPER 780160] 19 p0307 A78-33376
- Test and evaluation of 23 electric vehicles for state-of-the-art assessment [SAE PAPER 780290] 19 p0307 A78-33382

TESTS

- Ocean thermal Energy Conversion (OTEC) test facilities study program, volume 1 [SAN/1156-77/1-VOL-1] 17 p0120 N78-11507

TEXAS

- On the relation between insolation and climatological variables. III - The relation between normal incidence solar intensity, total insolation, and weather at Fort Hood, Texas. IV - Construction of a model year of solar intensity and climate 19 p0322 A78-35781
- Strategic petroleum reserve: Byron Mound salt dome, draft supplement [PB-270108/4] 17 p0119 N78-11256
- Strategic petroleum reserve: Final environmental impact statement for Kleer Mine [FES-77-2] 19 p0387 N78-22439
- Strategic petroleum reserve. Texoma group salt domes. Draft environmental impact statement. Volume 1: West Hackberry expansion, Black Bayou, Vinton, Big Hill [FEA/S-77/323-VOL-1] 19 p0390 N78-22487
- Strategic petroleum reserve. Texoma group salt domes. Draft environmental impact statement. Volume 2, appendices A and B: West Hackberry expansion, Black Bayou, Vinton, Big Hill [FEA/S-77/323-VOL-2] 19 p0391 N78-22488
- Strategic petroleum reserve. Texoma group salt domes. Draft environmental impact statement. Volume 4, appendices D-S: West Hackberry expansion, Black Bayou, Vinton, Big Hill [FEA/S-77/323-VOL-4] 19 p0391 N78-22490
- Solar total energy; large scale experiment. Phase 2: Fort Hood, Texas [TID-18040] 19 p0429 N78-25630
- Homopolar generator development at the University of Texas [ORO-5594-7] 19 p0467 N78-27922

TEXTILES

- Feasibility evaluation: Solar heated textile process water [SRO-0885-75/1] 19 p0428 N78-25621

TEXTURES

- Processing ramifications of textured surfaces --- of silicon wafers for solar cells 17 p0016 A78-10949

THEMATIC MAPPING

- Mapping offshore oil leases --- interactive computer graphics [LA-JR-77-2892] 19 p0456 N78-27500

THERMAL ABSORPTION

- Mass and energy transfer in a hot liquid energy storage system 17 p0050 A78-11302

- Fundamental studies of direct contact latent heat energy storage 17 p0051 A78-11306

THERMOGRAVIMETRY

Characterization of catalysts for fuel-cell electrodes with the aid of vacuum microbalances 19 p0367 A78-41795

THERMOHYDRAULICS

Experimental investigation and computer modeling of a solar natural circulation system 17 p0044 A78-11236

Experimental study of temperature fields in liquids in the steady state regime --- for solar thermoelectric generator cooling 18 p0166 A78-21030

Study of the driving forces of heat and mass transfer in a nozzle reflux device for heating air by water 18 p0172 A78-22543

Solar house Hohenkirchen --- heating and hot water system 18 p0179 A78-24345

Integration of solar-energy designs with existing heating systems 18 p0213 A78-28586

Aqueous heat-carrying liquids for solar houses 18 p0213 A78-28587

Calculation of the drag of a cylindrical pebble-type heat retainer --- for solar energy accumulation 18 p0215 A78-28899

Economic analysis of heat transmission from low temperature geothermal sources 20 p0474 A78-43772

Thermal, fluid flow and mechanical characteristics of a subatmospheric distributed flow flat plate collector 20 p0476 A78-43971

Thermal regimes in a primary fluid heated by solar energy in a linear collector 20 p0486 A78-45453

Transient temperature variations in the primary network of a solar power plant 20 p0486 A78-45454

Calculation of cylindrical pebble-bed hothouse heat accumulator gasdynamic resistance --- for solar energy accumulation 20 p0490 A78-46138

Thermal hydraulic analyses of two fusion reactor first wall/blanket concepts --- lithium cooled reactor experiment hydraulic equipment [CONF-771029-178] 19 p0434 A78-25930

THERMONUCLEAR POWER GENERATION

Commercial application of laser fusion 17 p0004 A78-10605

The present status of fusion power 17 p0028 A78-11075

Vacuum pumping for controlled thermonuclear reactors 17 p0038 A78-11163

An approach for determining the impact of peak coolant temperature on fusion reactor size and electricity costs [ASME PAPER 77-HT-73] 17 p0090 A78-17501

Status report on controlled thermonuclear fusion 17 p0106 A78-20360

Problem of the vulnerability of materials to radiation in relation to atomic and thermonuclear power engineering 18 p0180 A78-24748

Some economic and environmental consequences of fusion power 18 p0184 A78-25302

Aerospace aids fusion power concept 19 p0339 A78-38775

Hydrogen from nuclear energy 20 p0534 A78-53457

Magnetic confinement fusion energy research [COO-3077-143] 18 p0270 A78-19673

High-voltage high-current breaker and closer for power systems with inductive storage devices [UCRL-TRANS-11310] 19 p0454 A78-27344

THERMONUCLEAR REACTIONS

Thermo-nuclear fusion study by glass laser 'Gekko II' 19 p0362 A78-40384

Thermo-nuclear fusion plasma produced by CO₂ laser 19 p0362 A78-40385

THERMOPHYSICAL PROPERTIES

Rock properties for thermal energy storage systems in the 0 to 500 C range 17 p0051 A78-11308

Two-dimensional temperature distribution in a ceramic-based electrode --- for MHD channels 18 p0173 A78-22806

Design and operational influences on thermal performance of 'Solaris' solar collector [ASME PAPER 77-WA/SOL-2] 19 p0299 A78-33190

High-temperature materials for MHD generators, --- Russian book 19 p0328 A78-36551

Study of the thermophysical characteristics of cryogenic heat pipes with a metallic fibrous wick 20 p0491 A78-46279

THERMOPILES

Output power and lifetime of high-voltage, low-temperature thermoelectric batteries 19 p0330 A78-36854

THERMOPLASTIC FILMS

Performance of Lexan vs. ordinary glass as glazing materials for flat-plate solar collectors 17 p0042 A78-11219

THERMOSIPHONS

Experimental investigation and computer modeling of a solar natural circulation system 17 p0044 A78-11236

Analytical and experimental study of thermosiphon solar water heaters 17 p0045 A78-11237

Installation package maxi-therm S-101 heating module [NASA-CR-150512] 18 p0274 A78-20602

Preliminary design package for maxi-therm heat exchanger module [NASA-CR-150620] 19 p0389 A78-22473

THERMOSTATS

Installation package for 77-180 SOLARSTAT and 77-1 controller [NASA-CR-150743] 20 p0561 A78-29571

THETA PINCH

Plasma stabilization requirements of the Reference Theta-Pinch Reactor /RTPR/ 17 p0041 A78-11193

Measurement of a theta-pinch plasma by holographic interferometry 18 p0192 A78-26624

Production of fusion energy by vortex structure compression 19 p0338 A78-38419

Finite Larmor radius equations in an arbitrary near-theta pinch geometry 19 p0382 A78-42491

THICK FILMS

Application of thick-film technology to solar cell fabrication 17 p0015 A78-10947

THICK WALLS

Study of heat transfer through refractory lined gasifier vessel walls [FE-2210-18] 20 p0590 A78-31385

THICKNESS

Coil thickness gauge using RRAS techniques, part 1 --- radiofrequency resonance absorption [NASA-CR-150625] 18 p0273 A78-20573

THIN FILMS

Fabrication and characterization of solar cells using dendritic silicon thin films grown on alumina ceramic 17 p0013 A78-10916

Efficiency calculations for thin film polycrystalline semiconductor Schottky barrier solar cells 17 p0013 A78-10920

High performance, inexpensive solar cell process capable of a high degree of automation 17 p0015 A78-10944

The relationships between preparation parameters, operating characteristics and physical processes in Cu₂S-CdS thin film solar cells 17 p0017 A78-10971

An automatable integrated thin film solar cell array 17 p0017 A78-10972

Variation of short-circuit current spectral response with Cu₂-x/S composition in thin film Cu₂-x/S/CdS photovoltaic cells 17 p0017 A78-10973

Characteristics of chalcocite /Cu₂xS/ films produced by different methods and some properties of solar cells made from such films 17 p0018 A78-10977

TILTING ROTORS

Effects of rotor location, coning, and tilt on critical loads in large wind turbines
18 p0267 N78-19636

TIME DEPENDENCE

A Pockker-Planck analysis of photovoltaic systems
18 p0173 A78-22841
Time dependent study of eddy current loss in a superconducting composite --- for Tokamak toroidal field coils
19 p0355 A78-40007

TIME MEASUREMENT

Minority carrier lifetime measurement of silicon solar cell
19 p0335 A78-37903

TIME RESPONSE

Thin silicon film p-i-n photodiodes with internal reflection
18 p0205 A78-28142

TIME SERIES ANALYSIS

Criteria for choosing a regression model for the analysis and prediction of fuel-supply processes with a seasonal component
20 p0474 A78-43752

TIN

Thermoelectric power of tin films at low temperatures
18 p0217 A78-29427
Chemical vapour deposition of silicon on a liquid tin layer
20 p0519 A78-52784
Thermodynamic analysis of a tin-steamed IMMHD system [AD-A052395]
19 p0409 N78-24669

TIN OXIDES

Degradation of SnO₂/Si heterojunction solar cells
17 p0027 A78-11063
Low cost, high efficiency solar cells using indium-tin oxide on semiconductor /OSOS/ solar cells
17 p0054 A78-11334
Anomalous temperature dependence observed on the photovoltage of Se-based amorphous thin film-SnO₂ heterostructures
18 p0222 A78-30644
Electrical and photovoltaic characteristics of indium-tin oxide/silicon heterojunctions
19 p0315 A78-35282
SnO₂/Si solar cells - Heterostructure of Schottky-barrier or MIS-type device
19 p0338 A78-38550
A possible explanation for the photovoltaic effect in indium tin oxide on InP solar cells
20 p0493 A78-47449
Electronic characterization of indium tin oxide/silicon photodiodes --- for solar cells
20 p0510 A78-51243
Indium tin oxide/silicon solar cells
20 p0525 A78-52862

TIP DRIVEN ROTORS

Performance characteristics of concentrator-augmented Savonius wind rotors
17 p0094 A78-18092

TITANIUM

Compatibility studies for the ammonia-titanium-seawater system as related to Ocean Thermal Energy Conversion
19 p0305 A78-33345
Friction and wear of selected metals and alloys in sliding contact with AISI 440 C stainless steel in liquid methane and in liquid natural gas [NASA-TP-1150]
18 p0273 N78-20512
Some rate and modeling studies on the use of iron-titanium hydride as an energy storage medium for electric utility companies [BNL-50667]
19 p0409 N78-24676

TITANIUM ALLOYS

Metal hydride development program at Brookhaven National Library [BNL-23574]
19 p0461 N78-27568

TITANIUM CHLORIDES

Development of a Ti/Fe redox couple flow battery system
19 p0388 N78-22458

TITANIUM OXIDES

Radiative cooling of TiO₂ white paint
18 p0206 A78-28171
New TiO_x-MIS and SiO₂-MIS silicon solar cells
19 p0313 A78-34847

Temperature dependence of flatband potentials at semiconductor-electrolyte interfaces --- in solar cells
19 p0362 A78-40531

TITRATION

An improved method for analysis of hydroxide and carbonate in alkaline electrolytes containing zinc [NASA-TM-78961]
20 p0549 N78-28607

Junction potentials of strongly illuminated
n/+/-p-p/+/- solar cells
19 p0292 A78-32693

Preliminary results on the conversion of laser
energy into electricity
19 p0313 A78-34631

Sunstations --- calibrated silicon solar cell for
insolation measurement
19 p0314 A78-34933

Photo-galvano-voltaic cell - A new approach to the
use of solar energy
19 p0333 A78-37174

Photoelectric properties of CdS thin films
obtained by vacuum evaporation from the
heterogeneous CdS.Cr2O3 system
19 p0333 A78-37261

Frequency limitations of transferred electron
devices related to quality of contacts
19 p0334 A78-37468

Solar cell behaviour under variable surface
recombination velocity and proposal of a novel
structure
19 p0334 A78-37469

Temperature sheaths on probes or electrodes in MHD
plasmas
19 p0336 A78-38108

A model for the current-voltage curve of
photoexcited semiconductor electrodes
19 p0343 A78-39457

Voltage protection scheme for MG sets used to
drive inductive energy storage systems ---
Motor-Generator sets for Tokamaks
19 p0353 A78-39961

Microprocessor-based solar cell measurement system
19 p0365 A78-40919

Evaporated CdS film based heterojunction solar cells
19 p0372 A78-42122

Emitter current suppression in a high-low-junction
emitter solar cell using an oxide-charge-induced
electron accumulation layer
20 p0484 A78-44759

Photo-voltaic properties of metal-oxide-CdS solar
cells
20 p0509 A78-50900

Electronic characterization of indium tin
oxide/silicon photodiodes --- for solar cells
20 p0510 A78-51243

Recovery of shallow junction GaAs solar cells
damaged by electron irradiation
20 p0515 A78-52198

High performance thin solar cell
20 p0518 A78-52781

On optimization of performance of a Cu2S-CdS
heterojunction solar cell through heat treatment
20 p0523 A78-52827

Enhanced photoelectrochemical solar-energy
conversion by gallium arsenide surface
modification
20 p0529 A78-53216

Epitaxial silicon solar cells on 'ribbon' substrates
20 p0536 A78-53490

Silicon films on foreign substrates for solar cells
20 p0536 A78-53491

A 15% efficient silicon MIS solar cell
20 p0538 A78-53658

Fabrication and characterization of indium tin
oxide /ITO//polycrystalline silicon solar cells
20 p0538 A78-53659

Measurement of material parameters that limit the
open-circuit voltage in P-N-junction silicon
solar cells
17 p0136 N78-13532

Radiation tests of SEP solar cells
17 p0138 N78-13548

VOLTAGE CONVERTERS (AC TO AC)
Voltage transformers for solar elements
20 p0482 A78-44220

VOLTAGE CONVERTERS (DC TO DC)
Influence of the effect of storage on models of
power cell dynamics
17 p0103 A78-19486

Medium power voltage multipliers with a large
number of stages
20 p0486 A78-45435

A theory of control for a class of electronic
power processing systems: Energy-storage
dc-to-dc converters
18 p0262 N78-19382

VOLTAGE GENERATORS
Controllable homopolar motor-generator energy
storage for application in a fusion power reactor
17 p0007 A78-10680

Development of inductive storage for generation of
high voltage pulses
17 p0007 A78-10699

The evolution of pulsed power --- voltage
generator fusion reactor applications
17 p0008 A78-10709

VOLTAGE REGULATORS
Voltage-regulation requirements in power-supply
centers in the case of nonuniform user-loads
18 p0189 A78-26265

Design and test of a series switch/regulator
system for a 40-kV, 80-A, 10-ms, neutral-beam
power supply
19 p0353 A78-39965

VORTEX GENERATORS
A practical approach to vortex augmentation of
wind turbines
17 p0052 A78-11315

Betz type limitation of vortex wind machines
17 p0093 A78-18090

Vortex augmentation of wind energy --- aerodynamic
surface design for energy conversion efficiency
17 p0094 A78-18091

VORTICES
Wind power limitations associated with vortices
[AIAA PAPER 78-278]
18 p0166 A78-20785

On vortex wind power
[ASME PAPER 77-WA/FE-20]
18 p0218 A78-30035

Production of fusion energy by vortex structure
compression
19 p0338 A78-38419

Vortex augmented wind energy conversion
19 p0361 A78-40361

VORTICITY
The aerodynamic efficiency of windmills
18 p0229 A78-31834

W

WAFERS

- Multi-wire slurry wafering demonstrations ---
 slicing silicon ingots for solar arrays
 [JPL-PUB-78-37] 18 p0276 N78-20620

WAKES

- Wake characteristics of a tower for the DOE-NASA
 40D-1 wind turbine
 [NASA-TM-78853] 19 p0395 N78-23558

WALL FLOW

- Effect of flow inhomogeneity on plasma instability
 near a channel wall 17 p0002 A78-10245
 Effects of wall electrical conductance and induced
 magnetic field on MHD channel heat transfer with
 developing thermal and velocity fields
 [ASME PAPER 77-HT-63] 17 p0090 A78-17495
 Flame stabilization by wall recess technique
 18 p0199 A78-27835

WALL PRESSURE

- Insulating wall boundary layer in a Faraday MHD
 generator 20 p0610 N78-32868

WALL TEMPERATURE

- Cold wall Faraday type generating channel
 17 p0106 A78-20199
 Energy characteristics of an MHD generator cycle
 with internal cooling of the channel 18 p0172 A78-22531
 Protection of walls from hard disruptions in large
 tokamaks 19 p0379 A78-42214
 Solar wall performance 20 p0497 A78-48814

WALLS

- International Symposium on Plasma Wall
 Interaction, Juelich, West Germany, October
 18-22, 1976, Proceedings 19 p0377 A78-42201
 Recent results on plasma-wall interaction in the
 T. F. R. tokamak 19 p0377 A78-42202
 A review of work on plasma-wall interactions and
 divertor experiments on DITE 19 p0377 A78-42204
 Wall analysis in TFR performed by QWAASS ---
 Quantitative Wall Analysis by Auger and
 Secondary ion mass Spectroscopy 19 p0377 A78-42206
 Plasma-wall charge-exchange interactions in the
 2XIIB magnetic mirror experiment 19 p0377 A78-42207
 Review of the work on plasma-wall interaction in
 tokamak plasma confinement at JAERI 19 p0378 A78-42209
 Screening property of the limiter shadow region
 for heavy wall impurities --- in tokamak 19 p0378 A78-42213
 Relative importance of different impurity sources
 in tokamak reactors as estimated from particle
 balance equations 19 p0379 A78-42221
 First wall surface treating in the Frascati
 tokamak FT 19 p0380 A78-42245
 Study of heat transfer through refractory lined
 gasifier vessel walls
 [FE-2210-20] 19 p0417 N78-25376
- WANKEL ENGINES**
 Experimental and theoretical analysis of Wankel
 engine performance
 [SAE PAPER 780416] 19 p0308 A78-33388
 Development on exhaust emissions and fuel economy
 of the rotary engine at Toyo Kogyo
 [SAE PAPER 780417] 19 p0308 A78-33389
 An update of the development on the new Audi NSU
 rotary engine generation
 [SAE PAPER 780418] 19 p0308 A78-33390
 General aviation internal combustion engine
 research programs at NASA-Lewis Research Center
 [AIAA PAPER 78-932] 20 p0472 A78-43505
 Experimental and analytical comparisons of the
 performance and combustion characteristics of
 gasoline, methane, and methanol in a Wankel engine
 17 p0158 N78-15487

WASHING

- Application of solar energy to the supply of
 industrial process hot water: Preliminary
 design and performance report. Volume 1:
 Technical report
 [SAN/1218-3-VOL-1] 19 p0422 N78-25569

WASHINGTON

- Thermal surveillance of active volcanoes using the
 LANDSAT-1 data collection system. Part 3: Heat
 discharge from Mount St. Helens, Washington
 [E78-10122] 19 p0387 N78-22435
 Thermal surveillance of active volcanoes using the
 LANDSAT-1 data collection system. Preface and
 part 1: The Surtsey, Iceland, temperature data
 relay experiment via LANDSAT-1 --- Lassen
 volcanic region, California, Surtsey, Iceland
 and Mt. St. Helens and Mt. Baker, Washington
 [E78-10121] 19 p0394 N78-23498
 Thermal surveillance of active volcanoes using the
 LANDSAT-1 data collection system. Part 5:
 Electronic thermal sensor and data collection
 platform technology
 [E78-10124] 19 p0394 N78-23500

WASTE DISPOSAL

- Prospects of energy recovery from the incineration
 of chemical plant wastes 17 p0006 A78-10635
 Hazardous wastes and energy recovery 17 p0032 A78-11112
 Modular incinerator energy recovery systems - The

- Tritium removal from liquid metals by sorption on
yttrium 19 p0358 A78-40074
- YTTRIUM OXIDES**
- Electrochemical characteristics of Zr O₂-Y₂O₃
solid electrolytes for fuel cells
[BNL-22881] 17 p0155 N78-14676
- Z**
- ZINC**
- Influence of Cd and Zn doping on the electrical
and optical properties of bulk Cu₂S 17 p0018 A78-10979
- Development of high-efficiency cost-effective,
zinc-chlorine batteries for utility
peak-shaving, 1976
[EPRI-EM-711] 20 p0622 N78-33590
- ZINC COMPOUNDS**
- Photoconductivity and Dember effect in Zn₃P₂
20 p0514 A78-51943
- Zn₃P₂ as a photovoltaic material 20 p0523 A78-52836
- ZINC OXIDES**
- The possibility of black zinc oxide as spectrally
selective coating for low temperature solar
collectors 20 p0491 A78-46196
- ZINC SELENIDES**
- High conductivity ZnSe films --- for solar cells
19 p0310 A78-34256
- ZINC SULFIDES**
- Studies related to Zn_x/Cd_{1-x}/S-Cu₂S solar cells
17 p0018 A78-10982
- ZIRCONIUM OXIDES**
- The molecular mechanisms of photosynthetic
hydrogen and oxygen production 18 p0208 A78-28359
- Electrochemical characteristics of Zr O₂-Y₂O₃
solid electrolytes for fuel cells
[BNL-22881] 17 p0155 N78-14676
- ZONE MELTING**
- Solar cells from zone-refined metallurgical silicon
18 p0219 A78-30190
- Recrystallization of semiconducting
polycrystalline ribbons using the Peltier effect
--- for solar cell production 20 p0531 A78-53333

PERSONAL AUTHOR INDEX

ENERGY / A Continuing Bibliography (Issue 20)

JANUARY 1979

Typical Personal Author Index Listing

Listings in this index are arranged alphabetically by personal author. The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document listed (e.g. NASA report, translation, NASA contractor report). The issue, page, and accession numbers are located beneath and to the right of the title, e.g. 17 p0138 N78-13552. Under any one author's name, the accession numbers are arranged in sequence with the /AA accession numbers appearing first.

A

- AABREG, R. L.**
Economic feasibility of strontium-90 fueled heaters for use in cold regions
[PNL-24761] 20 p0616 N78-33546
- ABATUT, J. L.**
Conception-aid methodology for photovoltaic plants 20 p0528 A78-52896
- ABBEY, O. D.**
Thermal performance measurements on ultimate heat sinks: Cooling ponds
[NREG-CR-0008] 20 p0590 N78-31394
- ABDEL-MAL, M. K.**
Solar energy prospects in Saudi Arabia 19 p0345 A78-39671
- ABDEL-HADY, M. A.**
LANDSAT satellite mapping in Egypt and its possible applications in petroleum and natural gas exploration
[E78-101681] 20 p0547 N78-28573
- ABDEL-KHALIK, S. I.**
Effects of phase-change energy storage on the performance of air-based and liquid-based solar heating systems 17 p0104 A78-19832
Natural convection in compound parabolic concentrators - A finite-element solution 19 p0337 A78-38269
- ABDOU, M. A.**
Tokamak fusion power reactors 17 p0103 A78-19600
Computational model for superconducting toroidal-field magnets for a tokamak reactor 19 p0350 A78-39905
- ABEL, B. D.**
TFTR vacuum system 19 p0325 A78-36046
- ABEL, E.**
Linear machine power requirements and system comparisons 20 p0510 A78-51271
- ABEL, W. T.**
Products from two-step coal liquefaction using three different first-step reactor packings 18 p0190 A78-26578
- ABENS, S. G.**
Fuel cell stacks
[AD-A042315] 17 p0112 N78-10566
A 1.5 kW methanol fuel cell powerplant
[AD-A057145] 20 p0616 N78-33541
- ABERNETHY, R. B.**
Tutorial, test measurement accuracy 17 p0088 A78-17409
- ABERT, J. G.**
A graphical approach to determine the economics of recovering resources from municipal solid waste 20 p0482 A78-44192
- ABHAT, A.**
Heat store for solar energy utilization in heating systems and water heating
[IKE-5-206] 20 p0552 N78-28642
- ABIDOV, T. Z.**
Thermal detector of solar energy with selective coating and vacuum thermal-insulation 20 p0518 A78-52774
- ABILOCK, H.**
Energy modeling and data support for the Electric Power Research Institute
[BNL-50696] 19 p0425 N78-25595
- ABOUL-POTOUH, K. H.**
Development of working fluid thermodynamic properties information for geothermal cycles; phase 1
[ORO-5249-1] 17 p0143 N78-13600
- ABRAMOVA, A. P.**
Thermionic emission from electrodes with raised surfaces in a thermionic converter 18 p0224 A78-31011
- ABRAMS, M. J.**
Effectiveness of spectrally selective surfaces for exposed, high-temperature solar absorbers
[SAND-77-8300] 19 p0444 N78-26563
A study of alteration associated with uranium occurrences in sandstone and its detection by remote sensing methods, volume 1
[NASA-CR-157600] 20 p0591 N78-31511
A study of alteration associated with uranium occurrences in sandstone and its detection by remote sensing methods, volume 2
[NASA-CR-157601] 20 p0591 N78-31512
- ABRIKOSOV, N. KH.**
Study of diffusion processes in low-temperature thermal elements 19 p0326 A78-36135
- ACHAIBOU, A.**
Conception-aid methodology for photovoltaic plants 20 p0528 A78-52896
- ACHAIBOU, K.**
Design of a photovoltaic power-array with concentrated sunlight 20 p0521 A78-52807
- ACHARYA, S. K.**
Optimum solar energy collection 19 p0375 A78-42150
- ACHENBACH, J. D.**
Heat extraction from hot, dry rock masses
[PB-271411/1] 17 p0139 N78-13560
- ACKER, C.**
Saving raw materials or saving energy in aircraft construction 17 p0073 A78-14285
- ACKERMAN, J. P.**
Advanced fuel cell development
[ANL-77-79] 19 p0445 N78-26571
Advanced fuel cell development
[ANL-77-56] 20 p0581 N78-30667
- ACKLEY, D. E.**
Silicon films as selective absorbers for solar energy conversion 17 p0070 A78-13905
- ADAM, J.**
Ion-cyclotron instability in the TFR tokamak 19 p0369 A78-42016

- ADAMS, G.
The efficiency of solar flat-plate collectors
19 p0323 A78-35798
- ADAMS, G. A.
Improved energy efficiency for small CTOI
transport aircraft
18 p0226 A78-31305
- ADAMS, J. M.
Chemical conversion using sheet-silicate
intercalates
20 p0532 A78-53343
- ADCOCK, S. J.
Doublet IIA experiments
17 p0011 A78-10776
- ADIBI, A.
A collection-velocity model for predicting
efficiency of Schottky barrier solar cells
20 p0521 A78-52805
- ADLERSTEIN, J.
Syngas process converts waste to SNG
17 p0035 A78-11134
Pipeline gas from solid wastes by the Syngas
recycling process
18 p0197 A78-27805
- ADOLPHSON, D. R.
Formation of protective layers on alloys used in
coal gasification environments
[SAND-77-8277]
20 p0567 A78-30227
- ADT, R. R., JR.
Methanol-gasoline blends - Performance and emissions
19 p0321 A78-35702
Characterization of methanol/gasoline blends as
automotive fuel: Performance and emissions
characteristics
[PB-277135/0]
19 p0393 A78-23261
Data for design of a hydrogen engine: A progress
report
20 p0571 A78-30324
Alcohol/gasoline blends: Lean misfire limits
20 p0571 A78-30327
The effect of blending methanol with gasoline on
geometric distribution
20 p0577 A78-30393
- ADVANI, S. R.
Stress response investigations related to in-situ
gasification of coal
[ASME PAPER 77-PET-25]
17 p0077 A78-15083
- AERENS, A. P.
Automobile exhaust emission surveillance analysis
of the FY 1974 program
[PB-268782/0]
17 p0117 A78-10622
- AESCHLIMAN, D. P.
Diagnostics assessment for advanced power systems
[SAND-78-8206]
20 p0563 A78-29603
- AFANASEV, I. A.
Kinetics of chemical processes involved in the
decontamination of seawater with respect to oil
hydrocarbons
18 p0193 A78-26818
- AGABAEV, CH.
Experimental study of temperature fields in
liquids in the steady state regime
18 p0166 A78-21030
Analysis of the effect of mismatch of thermal
battery parameters and external factors on the
operation of a solar thermoelectric generator
20 p0482 A78-44334
Determination of contact thermal resistances
20 p0495 A78-48406
- AGARWAL, H. C.
Performance study of spray-type solar water heater
19 p0374 A78-42147
- AGARWALA, A.
Design of a non-tracking solar heat
concentrator/collector system
19 p0371 A78-42113
- AGNEW, W. G.
Fifty years of combustion research at General Motors
20 p0499 A78-49337
- AGOST, M. G.
Double sided /D.S./ solar cells to improve static
concentration
20 p0520 A78-52798
- AGRAWAL, V.
Catalyzed combustion in a flat plate boundary
layer. I - Experimental measurements and
comparison with numerical calculations
[LBL-6841]
18 p0230 A78-31953
- AHLSTROM, H. G.
Laser-fusion experiments utilizing a 4/pi/
illumination system
18 p0235 A78-32434
Implosion experiments with D2, He-3 filled
microspheres
18 p0235 A78-32440
- AHLUWALIA, R. K.
Mechanical energy storage systems - Compressed air
and underground pumped hydro
[AIAA PAPER 78-281]
18 p0166 A78-20788
Surface ignition of coal and other fuel particles
in radiative and diffusive environment
18 p0222 A78-30511
- AHMADI, G.
Some preliminary results on the performance of a
small vertical-axis cylindrical wind turbine
20 p0502 A78-49838
- AHMED, M. M.
Presulfiding coal liquid hydrodesulfurization
catalysts
20 p0470 A78-43408
- AHNER, D. J.
Implications of utilizing synthetic fuels in
combined cycles
20 p0510 A78-51221
- AHRENS, F. W.
Mechanical energy storage systems - Compressed air
and underground pumped hydro
[AIAA PAPER 78-281]
18 p0166 A78-20788

CORPORATE SOURCE INDEX

ENERGY / A Continuing Bibliography (Issue 20)

JANUARY 1979

Typical Corporate Source Index Listing

The title of the document is used to provide a brief description of the subject matter. The issue, page number and NASA or AIAA accession number are included in each entry to assist the user in locating the abstract in the abstract section of an individual supplement of *Energy*. If applicable, a report number is also included as an aid in identifying the document.

A

- ACADEMY OF SCIENCES (USSR), MOSCOW.**
A Tokamak reactor and an MHD energy conversion system (the TVS-2500 project) 18 p0278 N78-20942
- ACADEMY OF SCIENTIFIC RESEARCH AND TECHNOLOGY, CAIRO (EGYPT).**
LANDSAT satellite mapping in Egypt and its possible applications in petroleum and natural gas exploration [E78-10168] 20 p0547 N78-28573
- ACTON CORP., CLEVELAND, OHIO.**
Acton mass flow system applied to PFBC feed 17 p0133 N78-13267
- ACUREX CORP., MOUNTAIN VIEW, CALIF.**
Application of solar energy to the supply of industrial process hot water: Preliminary design and performance report. Volume 1: Technical report [SAN/1218-3-VOL-1] 19 p0422 N78-25569
Control techniques for nitrogen oxides emissions from stationary sources - second edition [PB-280034/0] 20 p0599 N78-31612
- AD HOC COMMITTEE ON THE USE OF HYDROGEN AS A SUPPLEMENT TO NATURAL GAS.**
Evaluation of the use of hydrogen as a supplement to natural gas [TID-27747] 18 p0281 N78-21323
- ADDIS TRANSLATIONS INTERNATIONAL, PORTOLA VALLEY, CALIF.**
High-voltage high-current breaker and closer for power systems with inductive storage devices [UCRL-TRANS-11310] 19 p0454 N78-27344

UNITED TURBINE A.B., MALMO (SWEDEN).

Three-shaft turbine-transmission systems for vehicular applications
20 p0572 N78-30337

UNIVERSITY OF SOUTHERN MISSISSIPPI, HATTIESBURG.

Investigations of the effects of shear degradation on the rheological behavior of ultra-high molecular weight water soluble polymers as applied to enhance oil recovery
18 p0237 N78-16171

UNIVERSITY OF THE WEST INDIES, SAINT AUGUSTINE (TRINIDAD).

Solar energy utilization in the West Indies
20 p0544 N78-28526

UOP, INC., DES PLAINES, ILL.

Optimization of PtDoped Kocite: Electrodes in H₂PO₄ fuel cells
[AD-A053300] 19 p0422 N78-25562

URBAN MASS TRANSPORTATION ADMINISTRATION, WASHINGTON, D.C.

The energy efficiency of urban transit systems
18 p0258 N78-18541

UTAH STATE UNIV., LOGAN.

Use and abuse of the regulatory process in a developing solar energy space conditioning industry
[PB-280165/2] 20 p0598 N78-31588

UTAH UNIV., SALT LAKE CITY.

Theoretical and experimental investigation of reaction mechanisms of explosives, corrosion, and battery and fuel technology
[AD-A046641] 17 p0158 N78-15295

Two-stage coal gasification to high-BTU gas
18 p0238 N78-16422

Studies in basin and range volcanism
20 p0555 N78-28695

Application of direct contact heat exchangers to geothermal power production cycles
[IDG-1549-8] 20 p0597 N78-31578

V

VANDERBILT UNIV., NASHVILLE, TENN.

Power deposition in volumetric /U-235/P6-He fission-pumped nuclear lasers
18 p0235 A78-32436

VARIAN ASSOCIATES, LEXINGTON, MASS.

Slicing of silicon into sheet material. Silicon sheet growth development for the large area silicon sheet task of the low cost silicon solar array project
[NASA-CR-157080] 19 p0406 N78-24629

VARIAN ASSOCIATES, PALO ALTO, CALIF.

Solar power satellite 50 kw VKS-7773 cw klystron evaluation
[NASA-CR-151577] 17 p0130 N78-13106

VERMONT UNIV., BURLINGTON.

Thermodynamic and transport properties of interstitial hydrogen isotopes in metal systems
[COO-3551-44] 20 p0611 N78-33224

VIRGINIA POLYTECHNIC INST. AND STATE UNIV., BLACKSBURG.

Evaluation and targeting of geothermal energy resources in the southeastern United States
[VPI-SU-5103-3] 17 p0162 N78-15585

Analysis of data and results for the round robin flat-plate collector test program
[PB-275576/7] 18 p0289 N78-21655

VIRGINIA UNIV., CHARLOTTESVILLE.

Annual collection and storage of solar energy for the heating of buildings
[ORO-5136-76/1] 17 p0152 N78-14649

Engineering analysis and testing of water-trickle solar collectors
[ORO-4927-77/1] 18 p0242 N78-16461

VOLKSWAGEN A.G., WOLFSBURG (WEST GERMANY).

Critical survey of test procedures for automotive emissions
20 p0574 N78-30374

The effect of aerodynamic drag on the fuel economy of passenger cars
20 p0576 N78-30385

Recent progress in automotive alcohol fuel application
20 p0576 N78-30391

Electric and hybrid-vehicle power-train development
20 p0578 N78-30406

W

WAPORA, INC., WASHINGTON, D. C.

Survey of environmental regulations applying to geothermal exploration, development, and use
[PB-281023/2] 20 p0625 N78-33672

CONTRACT NUMBER INDEX

ENERGY / A Continuing Bibliography (Issue 20)

JANUARY 1979

Typical Contract Number Index Listing

Listings in this index are arranged alphanumerically by contract number. Under each contract number the accession numbers denoting documents that have been produced as a result of research done under that contract are arranged in ascending order with the IAA accession numbers appearing first. The accession number denotes the number by which the citation is identified in either the IAA or STAR section. Preceding the accession number are the issue and page number in the particular supplement in which the citation may be found.

REPORT/ACCESSION INDEX

ENERGY / A Continuing Bibliography (Issue 20)

JANUARY 1979

Typical Report/Accession Number Index Listing

Listings in this index are arranged alphanumerically by report number. The issue and page number indicate the actual Supplement and page where the citation may be located. The accession number denotes the number by which the citation is identified. An asterisk (*) indicates that the item is a NASA report. A pound sign (#) indicates that the item is available on microfiche.

PUBLIC COLLECTIONS OF NASA DOCUMENTS

DOMESTIC

NASA distributes its technical documents and bibliographic tools to eleven special libraries located in the organizations listed below. Each library is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

CALIFORNIA

University of California, Berkeley

COLORADO

University of Colorado, Boulder

DISTRICT OF COLUMBIA

Library of Congress

GEORGIA

Georgia Institute of Technology, Atlanta

ILLINOIS

The John Crerar Library, Chicago

MASSACHUSETTS

Massachusetts Institute of Technology, Cambridge

MISSOURI

Linda Hall Library, Kansas City

NEW YORK

Columbia University, New York

OKLAHOMA

University of Oklahoma, Bizzell Library

PENNSYLVANIA

Carnegie Library of Pittsburgh

WASHINGTON

University of Washington, Seattle

NASA publications (those indicated by an "*" following the accession number) are also received by the following public and free libraries:

CALIFORNIA

Los Angeles Public Library

San Diego Public Library

COLORADO

Denver Public Library

CONNECTICUT

Hartford Public Library

MARYLAND

Enoch Pratt Free Library, Baltimore

MASSACHUSETTS

Boston Public Library

MICHIGAN

Detroit Public Library

MINNESOTA

Minneapolis Public Library

MISSOURI

Kansas City Public Library

St. Louis Public Library

NEW JERSEY

Trenton Public Library

NEW YORK

Brooklyn Public Library

Buffalo and Erie County Public Library

Rochester Public Library

New York Public Library

OHIO

Akron Public Library

Cincinnati Public Library

Cleveland Public Library

Dayton Public Library

Toledo Public Library

TENNESSEE

Memphis Public Library

TEXAS

Dallas Public Library

Fort Worth Public Library

WASHINGTON

Seattle Public Library

WISCONSIN

Milwaukee Public Library

An extensive collection of NASA and NASA-sponsored documents and aerospace publications available to the public for reference purposes is maintained by the American Institute of Aeronautics and Astronautics, Technical Information Service, 750 Third Avenue, New York, New York 10017.

EUROPEAN

An extensive collection of NASA and NASA-sponsored publications is maintained by the British Library Lending Division, Boston Spa, Wetherby, Yorkshire, England. By virtue of arrangements other than with NASA, the British Library Lending Division also has available many of the non-NASA publications cited in STAR. European requesters may purchase facsimile copy of microfiche of NASA and NASA-sponsored documents, those identified by both the symbols "*" and "#", from ESA - Information Retrieval Service, European Space Agency, 8-10 rue Mario-Nikis, 75738 Paris CEDEX 15, France.
